Iain Sinclair: Noise, Neoliberalism and the Matter of London Niall Martin, 2015-09-24 For much of the 20th century the modernist city was articulated in terms of narratives of progress and development Today the neoliberal city confronts us with all the cultural noise of disorder and excess meaning As this book demonstrates for more than 40 years London based writer film maker and psychogeographer Iain Sinclair has proved to be one of the most incisive commentators on the contemporary city tracing the emerging contours of a metropolis where the meeting of global and local is never without incident Iain Sinclair Noise Neoliberalism and the Matter of London explores Sinclair's investigations into the nature of conflicting urban realities through an examination of the ways in which the noise of neoliberal excess intersects with the noise of literary experiment In this way the book casts new light on theorisations of the city in the contemporary era

City Visions Jenny Bavidge, Robert

Bond, 2021-03-04 City Visions The Work of Iain Sinclair collects fourteen pathbreaking essays treating the panoramic oeuvre of novelist poet filmmaker and essayist Iain Sinclair This book aims to reflect and develop the current strong interest in the work of Sinclair who is widely recognized as one of the most significant figures in contemporary British literature and culture The essays herein cover the key genres and periods of Sinclair's output discussing his poetry prose and filmmaking and are developed from the proceedings of the first academic conference on Sinclair which was held at the University of Greenwich in 2004 Following the introductory chapter which includes a brief survey of Sinclair's career up until now the collection is arranged thematically in four sections The first part Contexts features essays which comment on the critical categorization and definition of Sinclair's work The second part Culture and Critique includes essays which explore the political import and contexts of Sinclair's oeuvre The articles in the third part Connections look at the links between Sinclair and other writers addressing the often noted intertextuality of his writing and the final section Spaces contains three considerations of Sinclair's treatment of London's urban spaces This collection provides access to the latest research by the leading scholars working in this area and will be a key point of reference for anyone interested in Sinclair's production To some the field of London writing may increasingly look like an indifferent over populated wasteland Iain Sinclair however remains pre eminent by virtue not only of the amplitude of his knowledge of the city but of the intensity and complexity of his thought about it He is the redemptive memorialist of a host of disregarded London cultures that lie quite beyond the reach of contemporary pieties In that respect he is less our Blake as he sometimes seems to believe than our Pepys or our Defoe At the same time he is an audacious experimenter with prose forms in the modernist tradition from Joyce to Burroughs and beyond Like the Sinclair phenomenon itself this valuable collection of essays is multifaceted illuminating its subject from a variety of different angles whilst very well aware that it is part of a work in progress It offers important testimony to the scope and power of a writer engaged in an original serious and necessary project Andrew Gibson Research Professor of Modern Literature and Theory Royal Holloway University of London This is an important and timely collection about arguably the most significant living London writer who is increasingly being recognised as an important contemporary English author in every sense Lawrence Phillips Principal Lecturer in English University of Northampton At last Iain Sinclair has the readers he deserves at least on the ample often provocative and always fascinating evidence of City Visions a collection of essays marked equally by panache and verve awareness of alternative cultural history and theoretical sophistication Over fourteen chapters critics with wide ranging interests gather their restless energies and obsessions in response to the scatter gun agitprop and guerilla intellectualism of Sinclair to produce a necessary and necessarily edgy volume In this admirably relentless collection Jenny Bavidge and Robert Bond offer an unnerving and inventive critical topography that uncovers the dark heart of a writer who is simultaneously the enfant terrible and minence grise of English letters Belles lettrists and other dilettantes be warned this is not a volume for the faint hearted these essays manifest an evangelical zeal equal to their subject's own in doing so they take

us on an exhilarating intellectual adventure so refreshing in the world of lit crit where the polite formulas of sensible reading make one want to faint from ennui Professor Julian Wolfreys Loughborough University **Radical Blake** S. Dent,J.

Modern Literature E. Larrissy,2006-08-25 William Blake is one of the most important influences on twentieth century literature This study will ask why he is a figure central to the Modernist re definition of past art He also appears to be an acceptable sage for postmodernists he can be associated with an opposition to authority without imposing one version of his own mythology **A Horror and a Beauty: The World of Peter Ackroyd's London Novels** Petr Chalupský,2016-02-01

Peter Ackroyd is one of the foremost contemporary British London writers He focuses on the capital its history development and identity both in his fiction and non fiction The London of his novels is thus a highly idiosyncratic construct which reflects and derives from its author s ideas about the actual city s nature as well as his concept of the English literary sensibility in general as he outlines them in his lectures and historical and literary studies It is an exceptionally heterogeneous city of enormous diversity and richness of human experience moods and emotion of actions and events and also of the tools through which these are re presented and reenacted According to Ackroyd this heterogeneity mostly originates outside the sites and domains of the established or mainstream cultural production and social norms and conventions particularly in occult practices subversive acts and the plotting of radical individuals or groups criminal and fraudulent activities of various kinds dubious scientific experiments and the popular dramatic forms of ritual and entertainment whose permanent encounters with and contesting of the officially approved and prescribed forms instigate the city s vitalising energy for dynamic change and spiritual renewal This book presents the world of Ackroyd s London novels as a distinct chronotope determined by specific spatial and temporal properties and their mutual interconnectedness Although such a concept of urban space in its essence defies categorisation the book is thematically organised around six defining aspects of the city as Ackroyd identifies them the relationship between its past and present its uncanny manifestations its felonious tendencies its inhabitants
