Newman, 1988 Must reading for any pianist concerned with Beethoven's music which is to say almost every pianist alive William Rothstein *Musical Times* **Beethoven in Russia** Frederick W. Skinner, 2022-11-01 How did Ludwig van Beethoven help overthrow a tsarist regime With the establishment of the Russian Musical Society and its affiliated branches throughout the empire Beethoven's music reached substantially larger audiences at a time of increasing political instability In addition leading music critics of the regime began hearing Beethoven's dramatic works as nothing less than a call to revolution *Beethoven in Russia* deftly explores the interface between music and politics in Russia by examining the reception of Beethoven's works from the late 18th century to the present In part 1 Frederick W Skinner's clear and sweeping review examines the role of Beethoven's more dramatic works in the revolutionary struggle that culminated in the Revolution of 1917 In part 2 Skinner reveals how this same power was again harnessed to promote Stalin's campaign of rapid industrialization The appropriation of Beethoven and his music to serve the interests of the state remained the hallmark of Soviet Beethoven reception until the end of communist rule With interdisciplinary appeal in the areas of history music literature and political thought *Beethoven in Russia* shows how Beethoven's music served as a call to action for citizens and weaponized state propaganda in the great political struggles that shaped modern Russian history *ABA Journal*, 1970-09

Doppen,2023-06-01 The significance of this book is its uniqueness First the book contains a collection of fourteen chapters that capture the personal professional and historical experiences of international global scholars and artists to which they were subjected in their native country and after they immigrated to the United States What makes this book project highly unusual in comparison to other publications is that these international global scholars and artists experienced historical events of trauma and joy in their native country and in their newly adopted country of the United States that lie deeply buried in their sub consciousness that these memories are unforgettable and still painful for them that these memories are a constant companion in their daily lives and that the experienced historical events of trauma and joy have shaped their professional and personal lives to this very day There exists a paucity in the global education literature of this far reaching topic and thus it has the potential to enhance and diversify the global education literature Second the significance of this book lies in the pedagogical power of the oral history narrative tradition and its impact on students at the secondary and tertiary levels in education When one s lived experiences of trauma or joy occur during a critical time in history they rarely yield unforgotten memories and deeply held private knowledge that do not come to light without a storyteller When first hand accounts are

shared publicly they can bring powerful insights into past historic events to the very presence. Thus the pedagogical strength of this book contributes to knowledge creation in the classroom as oral histories move students from abstract textbook descriptions to concrete and compelling lived stories associated with historical happenings. This pedagogy leads students to become more critical of historical events of the past and develops in them a deeper understanding of the past. Consequently oral history narratives enable teachers and teacher educators to enrich the abstract text of textbooks with the authentic voice of the individual. A third significance of this book lies embedded in the rich historical perspective displayed by storytellers of non native international global scholars and artists from around the world who portray their lived through first hand experiences such as child labor, communism, hate, hunger, fascism, fear, intolerance, discrimination, prejudice, poverty, war, protest and death. Finally a major purpose of this book is to expose young learners from around the world to empowering non native international role models in global education and the arts from nations in Africa, Asia, the Caribbean, Eurasia, Europe, the Middle East and South America who build bridges not walls between peoples and nations.
