

Translation Memories & Glossary

Understanding Their Roles in Localization

Translation Memories

- ✓ A TM is a database that stores segments of text (such as sentences, phrases, or paragraphs) in a source language along with their corresponding translations in a target language.
- ✓ TMs help translators by suggesting previously translated content that matches new text. This ensures consistency and efficiency, especially for repetitive or similar content.

Glossaries

- ✓ A glossary is a list of terms and their definitions or translations, often specific to a particular field or industry.
- ✓ Glossaries provide translators with standardized translations for specific terms, ensuring that terminology is used consistently.
