Merz Telescopes Ileana Chinnici, 2017-03-30 This book comprises a fascinating collection of contributions on the Merz telescopes in Italy that collectively offer the first survey on historical large refracting telescopes in the country drawing on original documents and photographs It opens with a general introduction on the importance of Merz telescopes in the history of astronomy and analyses of the local and international contexts in which the telescopes were made After examination of an example of the interaction between the maker and the astronomer in the construction and maintenance of these refractors the history of the Merz telescopes at the main Italian observatories in the nineteenth century is described in detail Expert testimony is also provided on how these telescopes were successfully used until the second half of the twentieth century for research purposes thus proving their excellent optical qualities *Instruments & Control Systems*, 1936 **Of Time and Measurement** Anthony John Turner, 1993 The history of precision technology may seem a small specialised subject concerned with the development of such mundane even banal objects as sun dials sand glasses clocks or rulers and other measuring instruments Yet their development as the author holds has helped condition how we relate to the natural world and is therefore a key aspect of cultural history For many classes of instruments there are still no basic narrative accounts of their internal evolution and a number of these studies represent an effort towards fulfilling that need In others starting with an object or an object and its maker the author asks what did it do and then who wanted it to do it and why penetrating into the more general social context In time the studies range from Antiquity to the 19th century but the emphasis is on the period from the 16th century onwards L histoire de la technologie de pr cision peut para tre comme tant un sujet sp cialis de moindre importance se rapportant au d veloppment d objets quelconque voire banals tels les cadrans solaires les sabliers les horloges les r gles et autres instruments de mesure D apr s l auteur leur d veloppement a cependant contribu d terminer la fa on dont nous nous rapportons au monde naturel et fait de ceux ci l un des aspects la clef de notre histoire culturelle Pour un bon nombre de cat gories d instruments il n existe toujours pas de relation de base concernant leur volution interne un effort a t accompli au travers de certaines des tudes contenues dans ce recueil afin de combler cette lacune Dans d autres l auteur d butant par un objet seul ou bien encore un objet et son cr ateur pose la question de savoir ce quoi celui ci servait qui il tait destin servir et pourquoi p n trant ainsi dans un contexte social plus g n ralis Du point de vue de la chronologie les tudes partent de l Antiquit et vont jusqu au 19e si cle l accent tant surtout mis partir du 16e si cle *Instruments, Industrial, Scientific*, 1937 Vols for 1938 44 1946 include an issue called the Instruments index published sometimes as pt 2 of a regular number sometimes as an extra number **Instruments**, 1937 Issues for Nov 1949 Dec 1953 include the Journal of the Southern California Meter Association **Dictionary Catalog of the Research Libraries of the New York Public Library, 1911-1971** New York Public Library.
