Frequently the Roma have become the target of nationalism, extremism and racism. At the same time they have been approached in terms of human rights and become the focus of programs dedicated to inclusion, anti-discrimination and combatting poverty. This book reflects on this situation from the viewpoint of how the Roma are often securitized, understood and perceived as security problems. The authors discuss practices of securitization and the ways in which they have been challenged and they offer an original contribution to debates about security and human rights interventions at a time in which multiple crises both in and of Europe are going hand in hand with intensified xenophobia and security rhetoric *Bulletin* Société des sciences, lettres et arts de Pau, 1903 **Montaigne** Philippe Desan, 2019-01-29 A definitive biography of the great French essayist and thinker. One of the most important writers and thinkers of the Renaissance, Michel de Montaigne (1533-92) helped invent a literary genre that seemed more modern than anything that had come before. But did he do it as he suggests in his *Essays* by retreating to his chateau and stoically detaching himself from his violent times? Philippe Desan overturns this long-standing myth by showing that Montaigne was constantly connected to and concerned with realizing his political ambitions and that the literary and philosophical character of the *Essays* largely depends on them. Desan shows how Montaigne conceived of each edition of the *Essays* as an indispensable prerequisite to the next stage of his public career. It was only after his political failure that Montaigne took refuge in literature and even then it was his political experience that enabled him to find the right tone for his genre. The most comprehensive and authoritative biography of Montaigne yet written, this sweeping narrative offers a fascinating new picture of his life and work.
