Luxury Arts Of The Renaissance:

Luxury Arts of the Renaissance Marina Belozerskaya, 2005-10-01 Today we associate the Renaissance with painting sculpture and architecture the major arts Yet contemporaries often held the minor arts gem studded goldwork richly embellished armor splendid tapestries and embroideries music and ephemeral multi media spectacles in much higher esteem Isabella d Este Marchesa of Mantua was typical of the Italian nobility she bequeathed to her children precious stone vases mounted in gold engraved gems ivories and antique bronzes and marbles her favorite ladies in waiting by contrast received mere paintings Renaissance patrons and observers extolled finely wrought luxury artifacts for their exquisite craftsmanship and the symbolic capital of their components paintings and sculptures in modest materials although discussed by some literati were of lesser consequence This book endeavors to return to the mainstream material long marginalized as a result of historical and ideological biases of the intervening centuries The author analyzes how luxury arts went from being lofty markers of ascendancy and discernment in the Renaissance to being dismissed as decorative or minor arts extravagant trinkets of the rich unworthy of the status of Art Then by re examining the objects themselves and their uses in their day she shows how sumptuous creations constructed the world and taste of Renaissance women and men

The Architecture of Luxury Annette Condello, 2016-03-16 Over the past century luxury has been increasingly celebrated in the sense that it is no longer a privilege or attitude of the European elite or America's leisure class It has become more ubiquitous and now practically everyone can experience luxury even luxury in architecture Focusing on various contexts within Western Europe Latin America and the United States this book traces the myths and application of luxury within architecture interiors and designed landscapes Spanning from antiquity to the modern era it sets out six historical categories of luxury Sybaritic Lucullan architectural excess rustic neoEuropean and modern and relates these to the built and unbuilt environment taking different cultural contexts and historical periods into consideration It studies some of the ethical questions raised by the nature of luxury in architecture and discusses whether architectural luxury is an unqualified benefit or something which should only be present within strict limits The author argues how the ideas of permissible and impermissible luxury have informed architecture and how these notions of ethical approval have changed from one context to another Providing voluptuous settings for the nobles and the leisure class luxury took the form of not only grand palaces but also follies country and suburban houses private or public entertainment venues and ornate skyscrapers with fast lifts The Architecture of Luxury proposes that in Western societies the growth of the leisure classes and their desire for various settings for pleasure resulted in a constantly increasing level of luxury sought within everyday architecture

European Art of the Fifteenth Century Stefano Zuffi, 2005 Influenced by a revival of interest in Greco Roman ideals and sponsored by a newly prosperous merchant class fifteenth century artists produced works of astonishingly innovative content and technique The International Gothic style of painting still popular at the beginning of the century was giving way to the influence of Early Netherlandish

Flemish masters such as Jan van Eyck who emphasized narrative and the complex use of light for symbolic meaning Patrons favored paintings in oil and on wooden panels for works ranging from large hinged altarpieces to small increasingly lifelike portraits In the Italian city states of Florence Venice and Mantua artists and architects alike perfected existing techniques and developed new ones The painter Masaccio mastered linear perspective the sculptor Donatello produced anatomically correct but idealized figures such as his bronze nude of David and the brilliant architect and engineer Brunelleschi integrated Gothic and Renaissance elements to build the self supporting dome of the Florence Cathedral This beautifully illustrated guide analyzes the most important people places and concepts of this early Renaissance period whose explosion of creativity was to spread throughout Europe in the sixteenth century

Europe's Rich Fabric Bart Lambert, Katherine Anne Wilson, 2016-12-05 Throughout human history luxury textiles have been used as a marker of importance power and distinction Yet as the essays in this collection make clear the term luxury is one that can be fraught with difficulties for historians Focusing upon the consumption commercialisation and production of luxury textiles in Italy and the Low Countries during the late medieval and early modern period this volume offers a fascinating exploration of the varied and subtle ways that luxury could be interpreted and understood in the past Beginning with the consumption of luxury textiles it takes the reader on a journey back from the market place to the commercialisation of rich fabrics by an international network of traders before arriving at the workshop to explore the Italian and Burgundian world of production of damasks silks and tapestries The first part of the volume deals with the consumption of luxury textiles through an investigation of courtly purchases as well as urban and clerical markets before the chapters in part two move on to explore the commercialisation of luxury textiles by merchants who facilitated their trade from the cities of Lucca Florence and Venice The third part then focusses upon manufacture encouraging consideration of the concept of luxury during this period through the Italian silk industry and the production of high quality woollens in the Low Countries Graeme Small draws the various themes of the volume together in a conclusion that suggests profitable future avenues of research into this important subject

Piero di Cosimo Dennis Geronimus, Michael Kwakkelstein, 2019-03-25 The study of Piero di Cosimo belongs no less to the history of the imagination than to the history of art As was true for Giorgio Vasari five centuries ago Piero's intensely personal visual language remains a moving target for modern scholars Yet as surprising and strange as his pictorial solutions appear we have never known as much about Piero as we do today Freed from the powerful spell of Vasari's biography cum cautionary tale the Piero that emerges is not solely a conjurer of the uncanny but a sensitive observer of the emotions the natural and manmade worlds humans and beasts surfaces and coloristic effects phenomena material and ephemeral The conference from which the thirteen essays in this volume spring provided a forum for international scholars to continue the ongoing conversation and to ask new questions The latter address Piero's relationship to his artistic contemporaries north and south of the Alps the master's Marian imagery his intellectual engagement with classical traditions the dual themes of naturalism and exoticism and the latest technical findings Topics of investigation thus range as broadly as Piero's own versatile production uniting diverse fields and methods traversing regional boundaries and often venturing far beyond Florence's city walls into the wild Contributors are Ianthi Assimakopoulou Marina Belozerskaya Jean Cadogan Elena Capretti Alessandra Galizzi Kroegel Dennis Geronimus Guy Hedreen Sarah Blake McHam Anna Teresa Monti Paula Nuttall Roberta J M Olson Lesley Stevenson Lisa Venerosi Pesciolini and Elizabeth Walmsley
