Fact or Fiction, Present or Future The Dreamer, 2022-10-24 To describe how I came up with the name of this book Fact or Fiction Present or Future truly lies with how one of my dreams first came to me on the night of May 21 2019 how this dream put me in an area that I ve never been to before with people I ve never met Could this happen to me in the future I don t know Then I included the five dreams that followed that had some time lapse that led up to my dream on January 1 2021 While President Trump was in office he did meet with religious people with Vice President Pence just not at this particular place or with the same religious people at the same time Could it happen in the future I don t know The fact of the COVID 19 affecting and killing thousands of people around the world and here in the United States is true but with losing the president and vice president within three days of each other to the pandemic is not known at this time Note I didn t identify who the president and vice president were as this was not revealed in my dream The fact that President Trump fought tooth and nail to stay in office in 2020 but he did leave with bags packed when he lost the election to Joe Biden I found this dream to be more entertaining and humorous in nature including saving the teddy bear Now could this still happen in the future I don t know Not sure how many or if any naval ships President Trump boarded while he was in office but most recently he took a tour of an aircraft carrier Will he take over one as commander in chief Time will tell I tried to write this as events that will or did occur in real life circumstances added names to some of the caricatures and tried to depict each dream almost in a story format but not to take away from these original dreams how they did happen in my subconscious I ve had other dreams in between and even after this period of time that I have not yet determined to include in this saga **My Big**

Reuse, Misuse, Abuse Jaimie Baron,2020-11-13 In contemporary culture existing audiovisual recordings are constantly reused and repurposed for various ends raising questions regarding the ethics of such appropriations particularly when the recording depicts actual people and events Every reuse of a preexisting recording is on some level a misuse in that it was not intended or at least anticipated by the original maker but not all misuses are necessarily unethical In fact there are many instances of productive misuse that seem justified At the same time there are other instances in which the misuse shades into abuse Documentary scholars have long engaged with the question of the ethical responsibility of documentary makers in relation to their subjects But what happens when this responsibility is set at a remove when the recording already exists for the taking and repurposing Reuse Misuse and Abuse surveys a range of contemporary films and videos that appropriate preexisting footage and attempts to theorize their ethical implications
