OPPENHEIMER

Sam Waterston stars in this BAFTA Award winning seven-part serial drama, which delves into the enigma that was J. Robert Oppenheimer, the American physicist often quoted as "the father of the atomic bomb."

As the nuclear scientist whose brainchild, the atomic bomb, brought a devastating end to the Second World War, this gripping dramatisation explores at length the extraordinary complexity of the scientist's thinking and the dilemma he faced...

Declared a **security risk** by the American government, only to be awarded with the **highest honour** in his field by a subsequent presidency. Were the Americans trying to placate an **unhappy conscience**?
