Office for Subject Cataloging Policy, 1992 Libraries as Dysfunctional Organizations and Workplaces Spencer Acadia, 2022-11-30 *Libraries as Dysfunctional Organizations and Workplaces* expands the dysfunctional concept in the

professional and academic LIS discourse by exposing the internal problematics of libraries especially at the social and organizational levels Including contributions written by LIS professionals and scholars the book demonstrates that although many libraries do well at attending to users and managing external information they often fail at taking care of their own employees and addressing internal workplace issues Acadia and the contributing authors explore the problem of dysfunctional libraries so that the LIS profession can come to terms with the systemic dysfunction in their institutions and begin solution oriented progress toward new and sustainable functionality The book analyzes the dysfunctional nature of modern libraries while simultaneously proposing solutions to reduce and alleviate dysfunction Through theory and application it takes an explicit practice based approach with the intent to inform and explain dysfunction as experienced in the library workplace at individual and structural levels and perspectives Libraries as Dysfunctional Organizations and Workplaces brings the dysfunction discourse to the attention of LIS academics and scholars so that further theoretical and empirical research can proceed from and subsequently be addressed in library and information schools The book will also be essential reading for librarians and LIS students currently working or preparing to work in public college and university libraries
