Zondervan NIV Matthew Henry Commentary Matthew Henry, 2010-09-21 Time has sealed the reputation of Matthew Henry's classic commentary as a rich source of insight into God's word. Four centuries after its first publication it remains one of the best loved most popular commentaries ever written. However while its wisdom is timeless the English language has changed much through the years. Words that meant one thing in Matthew Henry's day have taken on different meanings today. In addition Henry's often wordy reflections are generations removed from the crisp style that communicates most effectively to contemporary readers. The Zondervan NIV Matthew Henry Commentary is a masterful response to these concerns. It delivers the heart and soul of Henry's incomparable writings in a style that is easy to read and understand. Dr. Leslie Church's meticulous abridgment retains the essential content of the original work. Easily misunderstood words have been replaced with modern ones while keeping Henry's style. Use of the New International Version NIV instead of the King James Version makes this edition fully compatible with today's most widely used Bible translation. In one volume here is a wealth of exposition metaphors analogies and illustrations ideal for Personal devotions Bible study Sermon and lesson preparation.

Lemonade with God Angeline Williams, 2008-05 In this work Williams offers a reminder that just as in making lemonade where the more lemons are used the more sugar must be added in life the more lemons one is presented with the more love prayer faith and patience must be stirred in to make lemonade.

Object-Oriented Narratology Marie-Laure Ryan, Tang Weisheng, 2024-06 The quick spread of posthumanism and of critiques of anthropomorphism in the past few decades has resulted in greater attention to concrete objects in critical theories and in philosophy. This new materialism or new object philosophy marks a renewal of interest in the existence of objects. Yet while their mode of existence is independent of human cognition it cannot erase the relation of subject to object and the foundational role of our experience of things in our mental activity. These developments have important implications for narratology. Traditional conceptions of narrative define its core components as setting characters and plot but nonhuman entities play a crucial role in characterizing the setting in enabling or impeding the actions of characters and thus in determining plot. Marie-Laure Ryan and Tang Weisheng combine a theoretical approach that defines the basic narrative functions of objects with interpretive studies of narrative texts that rely more closely on ideas advanced by proponents of new object philosophy. Object Oriented Narratology opens new theoretical horizons for narratology and offers individual case studies that demonstrate the richness and diversity of the ways in which narrative both Western and non-Western deals with humans relationships to their material environment and with the otherness of objects.

Good Tools Are Half the Job Margriet van der Kooi, Cornelis van der Kooi, 2021-10-29 This book argues that sound theological foundations are essential for sound pastoral care and that pastoral care provides a rich resource for fresh even profound theological reflection The chapters present a series of case studies Each begins with a chaplain s encounter with a patient in crisis whether from pain loss abandonment trauma or guilt The quest for God in these circumstances may be overt but is more often indirect or simply absent In any case the chaplain must react intervene ask a question and provide hints as to God s possible presence Her responses are always theologically driven and pose a challenge to the reader Do we agree with her response Would we have chosen a different approach Should her own faith have been more obvious or less Her narrative is then followed by an essay of theological reflection showing what is theologically at stake in each case and what kind of theological tools are available The book concludes with a theoretical consideration of the benefits of an interdisciplinary conversation between practical and systematic theology fields that too often remain separate Accessible and inspiring this book itself embodies the combination of sensitivity wisdom and mature theology that goes into effective pastoral care
