brings together Alley's story and that of his author cousin Elspeth Sandys. In 2017 Sandys travelled to China with other family members to mark the ninetieth anniversary of Rewi's arrival in Shanghai in 1927. One strand of this book follows that journey and charts Sandys' impressions of modern China. Another tells the story of Rewi's early life in an insightful meditation on the complex and always elusive relationship between memory and writing. By placing the man Rewi and his work in the context of his time, Sandys is able to illuminate the life of this extraordinary New Zealander in a way that is both historically vivid and relevant to the world of today. Her focus on the role poetry played in his life, both his own and that of the Chinese poets he translated so prolifically, provides moving glimpses of the man behind the myth. Threaded through A Communist in the Family are Sandys' evolving insights into a nation that looms ever larger in the day-to-day realities of New Zealand and the world.

Print version In the Lap of Tigers John Cleverley, 2000-02-22 Founded in the forested mountains of China's remote Jiangxi Province in 1958, the Communist Labor University, along with some 100 branch campuses, introduced uneducated farmers and peasants to basic agricultural science and farming techniques through an innovative work study program until 1980. Drawing on a wealth of archival materials, John Cleverley here explores the inner workings of this unique Chinese institution and the direct personal involvement in its affairs by the nation's key communist leaders, including Mao Zedong, Zhou Enlai, Zhu De, and Deng Xiaoping. The community would survive the dictates of political agriculture, famine, and pestilence, and the Cultural Revolution, thus mirroring higher education's own cycle of expansion, contraction, and division. Yet the university could not avoid the bitter factional politics and deadly power plays of the 1970s. Open to the charge that it was a utopian experiment, another of Mao's great follies, its undoing was part of the larger canvas of China's shift from a Maoist vision to Deng's philosophy of pragmatic socialism. This fascinating story illuminates the internal and external politics of an innovative educational enterprise from both an institutional and personal perspective. In the process, the book underscores the larger issues of educational reform and political and social change in China.

China in Australasia James Beattie, Richard Bullen, Maria Galikowski, 2019-04-18 Drawing on expertise in art history, exhibition studies, and cultural studies, as well as politics and international relations, *China in Australasia* presents significant new perspectives on the role of art in the cultural diplomacy of the People's Republic of China. The book tells the forgotten story of the loan exchange and gifting of Chinese art, museum exhibitions, and the use of Chinese arts more broadly in growing diplomatic relations with Australia and New Zealand from 1949 to the present day. Its scope includes pre-modern, modern, and contemporary sculpture, painting, and peasant art, as well as ancient artefacts, performance arts, and gardens. In considering the geopolitical connections opened by the arts, this book presents new insights into some of the ways in which China, often in conjunction with local supporters, sought to present itself to the people of Australia and New Zealand. It also considers how, for their part, New Zealanders and Australians worked to expand understandings of their powerful northern neighbour within changing political contexts. The first of its kind, this book-length interdisciplinary study of Chinese soft diplomacy in Australasia will be invaluable to students.

Chinese American Transnational Politics Him Mark Lai, 2023-12-11 Born and raised in San Francisco Lai was trained as an engineer but blazed a trail in the field of Asian American studies Long before the field had any academic standing he amassed an unparalleled body of source material on Chinese America and drew on his own transnational heritage and Chinese patriotism to explore the global Chinese experience In Chinese American Transnational Politics Lai traces the shadowy history of Chinese leftism and the role of the Kuomintang of China in influencing affairs in America With precision and insight Lai penetrates the overly politicized portrayals of a history shaped by global alliances and enmities and the hard intolerance of the Cold War era The result is a nuanced and singular account of how Chinese politics migration to the United States and Sino U S relations were shaped by Chinese and Chinese American groups and organizations Lai revised and expanded his writings over more than thirty years as changing political climates allowed for greater acceptance of leftist activities and access to previously confidential documents Drawing on Chinese and English language sources and echoing the strong loyalties and mobility of the activists and idealists he depicts Lai delivers the most comprehensive treatment of Chinese transnational politics to date
