Presidential Rhetoric and the Public Agenda Andrew B. Whitford, Jeff Yates, 2009-11 The bully pulpit is one of the modern president's most powerful tools and one of the most elusive to measure Presidential Rhetoric and the Public Agenda uses the war on drugs as a case study to explore whether and how a president's public statements affect the formation and carrying out of policy in the United States When in June 1971 President Richard M. Nixon initiated the modern war on drugs he did so with rhetorical flourish and force setting in motion a federal policy that has been largely followed for more than three decades Using qualitative and quantitative measurements Andrew B. Whitford and Jeff Yates examine presidential proclamations about battling illicit drug use and their effect on the enforcement of anti drug laws at the national state and local level They analyze specific pronouncements and the social and political contexts in which they are made examine the relationship between presidential leadership in the war on drugs and the policy agenda of the Drug Enforcement Administration and the U.S. Attorneys and assess how closely a president's drug policy is implemented in local jurisdictions In evaluating the data this sophisticated study of presidential leadership shows clearly that with careful consideration of issues and pronouncements a president can effectively harness the bully pulpit to drive policy

Tweeting is Leading Annelise Russell, 2021 Social media is changing the business of representation in the Senate If you want to know what your senator is up to you don't need a newspaper just your phone Some senators are social media minimalists while others are digitally long-winded but each senator has the ability to insert themselves into our daily digital routines and frame their political brand for a public audience Drawing on a unique dataset of almost 200,000 senator tweets *Tweeting is Leading* offers a critical analysis of senators' communication on Twitter the individual and constituent forces that shape it and the agendas that result The public priorities that senators communicate through social media what Annelise Russell calls their rhetorical agenda offer a necessary tool for understanding how senators link their carefully crafted public image with potential voters The rhetorical agenda challenges what we know about representation removing the institutional and political constraints on congressional

communication and giving lawmakers a messaging platform where individual discretion is high the relative costs are low and someone is always watching Tweeting is Leading emphasizes why representation on social media matters for understanding media norms and how lawmakers digitally build a political brand showing empirically how senators self constrain their communications to curate different styles of representation that match constituent expectations Rhetoric and Religion in the Twenty-First Century Michael-John DePalma,Paul Lynch,Jeff Ringer,2023-11-10 One of few volumes to include multiple traditions in one conversation Rhetoric and Religion in the Twenty First Century engages with religious discourses and issues that continue to shape public life in the United States This collection of essays centralizes the study of religious persuasion and pluralism considers religion s place in U S society and expands the study of rhetoric and religion in generative ways

The President's Legislative Policy Agenda, 1789-2002 Jeffrey E. Cohen,2012-09-10 Jeffrey E Cohen asks why US presidents send to Congress the legislative proposals that they do and what Congress does with those proposals His study covers nearly the entire history of the presidency from 1789 to 2002 The long historical scope allows Cohen to engage competing perspectives on how the presidency has developed over time He asks what accounts for the short and long term trends in presidential requests to Congress what substantive policies and issues recommendations are concerned with and what factors affect the presidential decision to submit a recommendation on a particular issue The President s Legislative Policy Agenda 1789 2002 argues that presidents often anticipate the Congressional reaction to their legislative proposals and modify their agendas accordingly **The Practice of Rhetoric** Debra Hawhee,Vessela Valiavitcharska,2022-10-18 Rhetoric broadly conceived as the art of making things matter is both a practice and theory about that practice In recent decades scholars of rhetoric have turned to approaches that braid together poetics performance and philosophy into a practical art By practical art they mean methods tested in practice by trial and error with a goal of offering something useful and teachable This volume presents just such an account of rhetoric The account here does not turn away from theory but rather presumes and incorporates theoretical approaches offering a collection of principles assembled in the heat and trials of public practice The approaches ventured in this volume are inspired by the capacious conception of rhetoric put forth by historian of rhetoric Jeffrey Walker who is perhaps best known for stressing rhetoric s educational mission and its contributions to civic life The Practice of Rhetoric is organized into three sections designed to spotlight in turn the importance of poetics performance and philosophy in rhetorical practice The volume begins with poetics stressing the world making properties of that word in contexts ranging from mouse infested medieval fields to the threat of toxin ridden streams in the mid twentieth century Susan C Jarratt for instance probes the art of ekphrasis or vivid description and its capacity for rendering alternative futures Michele Kennerly explores a little studied linguistic predecessor to prose logos psilos or naked speech exposing the early rumblings of a separation between poetic and rhetorical texts even as it historicizes the idea of clothed or ornamented speech In an essay on the almost magical properties of writing Debra Hawhee considers the curious practice of people

writing letters to animals in order to banish or punish them thereby casting the epistolary arts in a new light Part 2 moves to performance Vessela Valiavitcharska examines the intertwining of poetic rhythm and performance in Byzantine rhetorical education and how such practices underlie the very foundations of oratory Dale Martin Smith draws on the ancient stylistic theory of Dionysius of Halicarnassus along with the activist work of contemporary poets Amiri Baraka and Harmony Holiday to show how performance and persuasion unify rhetoric and poetics Most treatments of philosophy and rhetoric begin within a philosophical framework and remain there focusing on old tools like stasis and disputation Essays in part 3 break out of that mold by focusing on the utility and teachability of rhetorical principles in education Jeanne Fahnestock and Marie Secor update stasis a classical framework that encourages aspiring rhetors to ask after the nature of things their facts and their qualities as a way of locating an argument's position Mark Garrett Longaker probes the medieval practice of disputation in order to marshal a new argument about why exactly John Locke detested rhetoric and the longstanding opposition between science and rhetoric as modes of proof that has lasting implications for the way argument works today Ranging across centuries and contexts the essays collected here demonstrate the continued need to attend carefully to the co operation of descriptive language and normative reality conceptual vocabulary and material practice public speech and moral self shaping The volume promises to rekindle long standing conversations about the public world making practice of rhetoric thereby enlivening anew its civic mission

Rhetoric in Tooth and Claw Debra Hawhee, 2016-11-21 We tend to think of rhetoric as a solely human art After all only humans can use language artfully to make a point the very definition of rhetoric Yet when you look at ancient and early modern treatises on rhetoric what you find is surprising they're crawling with animals With *Rhetoric in Tooth and Claw* Debra Hawhee explores this unexpected aspect of early thinking about rhetoric going on from there to examine the enduring presence of nonhuman animals in rhetorical theory and education In doing so she not only offers a counter history of rhetoric but also brings rhetorical studies into dialogue with animal studies one of the most vibrant areas of interest in humanities today By removing humanity and human reason from the center of our study of argument Hawhee frees up space to study and emphasize other crucial components of communication like energy bodies and sensation Drawing on thinkers from Aristotle to Erasmus *Rhetoric in Tooth and Claw* tells a new story of the discipline's history and development one animated by the energy force liveliness and diversity of our relationships with our partners in feeling other animals

Dialectical Rhetoric Bruce McComiskey, 2015-06-26 In *Dialectical Rhetoric* Bruce McComiskey argues that the historical conflict between rhetoric and dialectic can be overcome in ways useful to both composition theory and the composition classroom Historically dialectic has taken two forms in relation to rhetoric First it has been the logical development of linear propositions leading to necessary conclusions a one dimensional form that was the counterpart of rhetorics in which philosophical metaphysical and scientific truths were conveyed with as little cognitive interference from language as possible Second dialectic has been the topical development of opposed arguments on controversial issues and

the judgment of their relative strengths and weaknesses usually in political and legal contexts a two dimensional form that was the counterpart of rhetorics in which verbal battles over competing probabilities in public institutions revealed distinct winners and losers The discipline of writing studies is on the brink of developing a new relationship between dialectic and rhetoric one in which dialectics and rhetorics mediate and negotiate different arguments and orientations that are engaged in any rhetorical situation This new relationship consists of a three dimensional hybrid art called dialectical rhetoric whose method is based on five topoi deconstruction dialogue identification critique and juxtaposition Three dimensional dialectical rhetorics function effectively in a wide variety of discursive contexts including digital environments since they can invoke contrasts in stagnant contexts and promote associations in chaotic contexts Dialectical Rhetoric focuses more attention on three dimensional rhetorics from the rhetoric and composition community Non-discursive Rhetoric Joddy

Murray,2009-01-14 Technological advances have the potential to create new languages unlike printed or spoken words The increased textual complexity generated by sophisticated graphics photos hypermedia film typography and other modes of expression requires a theory of language and symbolization that accommodates emotion ambiguity simultaneity and layers of dynamic meaning In *Non discursive Rhetoric* Joddy Murray uses concepts from philosophy rhetorical theory and recent advances in neuroscience to develop a model of composing that connects contemporary writing practices technology and image functions within the mind The theory and classroom practices presented here provide tools for writing teachers to help students compose various hybridized multimodal texts Murray highlights the significance for student composition of the relationships among emotions images and argumentation and demonstrates the importance of considering the rhetorical dimensions of design choices in multimodal composition *Calvin and the Rhetoric of Piety* Serene Jones,1995-01-01

Throughout the years biographers have depicted John Calvin in manifold ways Serene Jones takes a fresh look at Calvin as she draws a compelling portrait of Calvin as artist engaged in the classical art of rhetoric According to Jones this art was used knowingly and skillfully by Calvin to persuade and challenge his diverse audiences Jones offers a rhetorical reading of the first three chapters of Calvin s *Institutes of the Christian Religion* What emerges is a truly original interpretation of Calvin and his work **Rhetoric and the New Testament** Stanley E. Porter,Thomas H. Olbricht,1993-10-01 What role did classical rhetoric play in the writing of the New Testament What role does classical and modern rhetoric play in interpreting the New Testament today What role should classical and modern rhetoric play in New Testament interpretation These and related questions are asked in this collection of over twenty essays originally delivered as papers at the 1992 Heidelberg Conference on Rhetorical Criticism of Biblical Documents This conference the first of several scheduled to address fundamental rhetorical issues of increasing importance in New Testament study drew scholars from three continents and over fourteen countries making it a truly international scholarly event and this a truly cosmopolitan publication The authors varying contexts resulted in a lively and challenging discussion well reflected in this volume s essays The first part discusses

rhetoric in the light of extended interpretation of a variety of New Testament texts Luke and Acts most of Paul's letters and other New Testament documents are scrutinized using various rhetorical categories In the second part questions of rhetoric and methodology are raised New approaches are tested in a number of essays that push the boundaries of traditional rhetorical study These essays provide an excellent sampling of some of the major work being done in rhetorical study of the New Testament and suggest several avenues for future research

Questions and Rhetoric in the Greek New Testament Douglas Estes, 2017-03-28 While there are almost 1000 questions in the Greek New Testament many commentators pastors and students skip over the questions for more theological verses or worse they convert questions into statements to mine them for what they are saying theologically However this is not the way questions in the Greek New Testament work and it overlooks the rhetorical importance of questions and how they were used in the ancient world *Questions and Rhetoric in the Greek New Testament* is a helpful and thorough examination of questions in the Greek New Testament seen from the standpoint of grammatical

semantic and linguistic analysis with special emphasis on their rhetorical effects It includes charts tools and lists that explain and categorize the almost 1000 questions in the Greek New Testament Thus the user is able to go to the section in the book dealing with the type of question they are studying and find the exegetical parameters needed to understand that question Questions and Rhetoric in the Greek New Testament offers vibrant examples of all the major categories of questions to aid the reader in grasping how questions work in the Greek New Testament Special emphasis is given to the way questions persuade and influence readers of the Greek New Testament
