presents Vikings for what they were not peaceful explorers and traders but warriors marauders and storytellers French Romance, Medieval Sweden and the Europeanisation of Culture Sofia Lodén, 2021 The adaptation of French texts into medieval Swedish reveals the progress of a Europe wide literary culture Translations of French romances into other vernaculars in the Middle Ages have sometimes been viewed as less important versions of prestigious sources rather than in their place as part of a broader range of complex and wider European text traditions This consideration of how French romance was translated rewritten and interpreted in medieval Sweden focuses on the wider context It examines four major texts which appear in both languages Le Chevalier au lion and its Swedish translation Herr Ivan Le Conte de Floire et Blancheflor and Flores och Blanzeflor Valentin et Sansnom the original French text has been lost but the tale has survived in the prose version Valentin et Orson and the Swedish text Namnl s och Valentin and Paris et Vienne and the fragmentary Swedish version Riddar Paris och jungfru Vienna Each is analysed through the lens of different themes female characters children animals and masculinity The author argues that French romance made a major contribution to the Europeanisation of medieval culture whilst also playing a key role in the formation of a national literature in Sweden **Tracing Textile Production from the Viking Age to the Middle Ages** Ingvild Øye, 2022-05-05 This book concerns textile production at the fringes of north western Europe areas in western Norway and the North Atlantic in the expanding dynamic and transformative period from the early Viking Age into the Middle Ages Textiles constitute one of the basic needs in human life to protect and keep the body warm but also to show social status and affiliations Textiles had a wide spectrum of use areas and qualities fine and coarse in various contexts and in the Viking Age not least related to the production of sails all essential for the development and character of the period So what were the tools and textiles like who made them who used them and who exposed them By tracing textile production from the remains of tools and textiles in varied landscapes and settings Viking Age graves and in situ workplaces from the whole period and combining this with textual information many layers of information are exposed about technology and qualities as well as gender gender roles social relations power and networks By combining tools textiles and texts in various settings this book aims to contextualize dispersed archaeological finds of tools and textiles to uncover patterns across larger areas and in a long term perspective of half a millennium Outlines of Universal History Georg Weber, 1851 A History of Book Illustration David Bland, 1958 Essays Presented to Michael Roberts Michael Roberts, 1976 A list of the principal writings of Michael Roberts p 179 183 **Viking-Age Trade** Jacek Gruszczyński, Marek Jankowiak, Jonathan Shepard, 2020-10-06 That there was an influx of silver dirhams from the Muslim world into eastern and northern Europe in the ninth and tenth centuries is well known as is the fact that the largest concentration of hoards is on the Baltic island of Gotland Recent discoveries have shown that dirhams were reaching the British Isles too What brought the dirhams to northern Europe in such large numbers The fur trade has been proposed as one driver for transactions but the slave trade offers another complementary explanation This volume does not offer a

comprehensive delineation of the hoard finds or a full answer to the question of what brought the silver north But it highlights the trade in slaves as driving exchanges on a trans continental scale By their very nature the nexuses were complex mutable and unclear even to contemporaries and they have eluded modern scholarship Contributions to this volume shed light on processes and key places the mints of Central Asia the chronology of the inflows of dirhams to Rus and northern Europe the reasons why silver was deposited in the ground and why so much ended up on Gotland the functioning of networks perhaps comparable to the twenty first century drug trade slave trading in the British Isles and the stimulus and additional networks that the Vikings brought into play This combination of general surveys presentations of fresh evidence and regional case studies sets Gotland and the early medieval slave trade in a firmer framework than has been available before
