Seville Council:

The European Council and the Council Uwe Puetter, 2014 The European Council and the Council are presently perhaps the most important European Union institutions yet little is known about the reasons behind the importance of the two bodies This book provides one of the most comprehensive accounts of the leadership roles of the European Council and the Council in European Politics **Bishops, Councils, and Consensus in the Visigothic Kingdom, 589-633** Rachel L.

Stocking, 2000 Portrays the power struggles among medieval rulers sacred and profane *Seville's EU Intellectual Property Law and Policy* Justine Pila, 2022-11-15 Carefully authored by Justine Pila this significantly revised and expanded third edition of Catherine Seville's classic text presents a thorough and detailed treatise on EU intellectual property IP law taking into account the many developments in legislation and case law since the second edition **Surrogate Suburbs** Todd M.

Michney, 2017-02-08 The story of white flight and the neglect of Black urban neighborhoods has been well told by urban historians in recent decades Yet much of this scholarship has downplayed Black agency and tended to portray African Americans as victims of structural forces beyond their control In this history of Cleveland's Black middle class Todd Michney uncovers the creative ways that members of this nascent community established footholds in areas outside the overcrowded inner city neighborhoods to which most African Americans were consigned In asserting their right to these outer city spaces African Americans appealed to city officials allied with politically progressive whites notably Jewish activists and relied upon both Black and white developers and real estate agents to expand these surrogate suburbs and maintain their livability until the bona fide suburbs became more accessible By tracking the trajectories of those who in spite of racism were able to succeed Michney offers a valuable counterweight to histories that have focused on racial conflict and Black poverty and tells the neglected story of the Black middle class in America's cities prior to the 1960s **The Politics of EU Police**

Cooperation John D. Occhipinti, 2003 Will the European Union soon have a policing agency similar to the US Federal Bureau of Investigation John Occhipinti traces the evolution of the European Police Office Europol bringing to life themes key to the study of European integration such as the tension between supranationalism and intergovernmentalism concerns over the democratic deficit in the EU and the impact of enlargement **The Visigoths** Ferreiro, 2021-09-20 The study of the

Visigoths continues to be one of the most actively researched topics in Late Antique Studies As might be expected the vast majority of the work has been carried out in Europe and especially by scholars from the Iberian Peninsula There has always been a need however to make much of this research accessible to English language specialists and the wider academic community in Late Antiquity Studies Too often Late Antiquity Studies tend to ignore or marginalize the Iberian Peninsula and this may be due in part to the lack of access to this scholarship in the English language This volume of essays has as one of its goals to ameliorate such a deficiency The scholars who participated in this volume are both from Europe and North America They also represent scholars who are well known and those who are establishing distinguished scholarly reputations

Although thematically the essays do not exhaust the broad nature of Visigothic studies they do nevertheless offer an impressive array of topics Coverage includes research on Visigothic identity in Gaul regional studies on Galicia and Lusitania anti Semitism in Visigothic law the political grammar of Ildephonsus of Toledo monasticism and liturgy numismatics Roman Visigothic pottery in Baetica urban and rural archaeology and Gothic consciousness among Mozarab communities **The Fight for Status and Privilege in Late Medieval and Early Modern Castile, 1465-1598** Michael J.

Crawford,2020-05-01 In *The Fight for Status and Privilege in Late Medieval and Early Modern Castile 1465 1598* Michael Crawford investigates conflicts about and resistance to the status of hidalgo conventionally understood as the lowest most heavily populated rank in the Castilian nobility It is generally accepted that legal privileges were based on status and class in this premodern society Crawford presents and explains the contentious realities and limitations of such legal privileges particularly the conventional claim of hidalgo exemption from taxation He focuses on efforts to claim these privileges as well as opposing efforts to limit and manage them Although historians of Spain acknowledge such conflicts especially lawsuits associated with this status none have focused a study on this extraordinarily widespread phenomenon This book analyzes the inevitable contradictions inherent in negotiation for and the implementation of privilege scrutinizing the many jurisdictions that intervened in these struggles and debates including the crown judiciary city council and financial authorities Ultimately this analysis imparts important insights about the nature of sixteenth century Castilian society with wide ranging implications about the relationship between social status and legal privileges in the early modern period as a whole *Carl B. Stokes and the Rise of Black Political Power* Leonard N. Moore,2003 As the first elected black mayor of a major U S city Cleveland s Carl B Stokes embodied the transformation of the civil rights movement from a vehicle of protest to one of black political power In this wide ranging political biography Leonard N Moore examines the convictions and alliances that brought Stokes to power Impelled by the problems plaguing Cleveland s ghettos in the decades following World War II Stokes and other Clevelanders questioned how the sit ins and marches of the civil rights movement could correct the exclusionary zoning practices police brutality substandard housing and de facto school segregation that African Americans in the country s northern urban centers viewed as evidence of their oppression As civil unrest in the country s ghettos turned to violence in the 1960s Cleveland was one of the first cities to heed the call of Malcolm X s infamous The Ballot or the Bullet speech Understanding the importance of controlling the city s political system Cleveland s blacks utilized their substantial voting base to put Stokes in office in 1967 Stokes was committed to showing the country that an African American could be an effective political leader He employed an ambitious and radically progressive agenda to clean up Cleveland s ghettos reform law enforcement move public housing to middle class neighborhoods and jump start black economic power Hindered by resistance from the black middle class and the Cleveland City Council spurned by the media and fellow politicians who deemed him a black nationalist and unable to prove that black leadership could thwart black unrest Stokes finished his four

years in office with many of his legislative goals unfulfilled Focusing on Stokes and Cleveland but attending to themes that affected many urban centers after the second great migration of African Americans to the North Moore balances Stokes's failures and successes to provide a thorough and engaging portrait of his life and his pioneering contributions to a distinct African American political culture that continues to shape American life
