Novel Approaches to Lesbian History Linda Garber, 2022-01-01. *Novel Approaches to Lesbian History* tells a tale about history and community in our allegedly post identity era examining contemporary novels that depict lesbian characters in recognizable historical situations. These imaginative stories provide a politically vital speculative past in the face of a sketchy problematic archive. Among the memorable characters in some 200 novels are pirates cowgirls and famous artists ghosts and time travellers immigrants and lovers. The best lesbian historical novels are conscientious and buoyant as they engage critical historiographical questions but *Novel Approaches* also discusses the class and race biases that weigh on the genre. Some lesbian historical novels are based on archival evidence others on conjecture or fantasy but all convey the true fact that identity is elusive without a past without which its future is nearly impossible. **Sex Cultures** Amin Ghaziani, 2017-04-03. Why is it so hard to talk about sex and sexuality. In this crisp and compelling book Amin Ghaziani provides a pithy introduction to the field of sexuality studies through a distinctively cultural lens. Rather than focusing on sex acts which make us feel flustered and blind us to a bigger picture Ghaziani crafts a conversation about sex cultures that zooms in on the diverse contexts that give meaning to our sexual pursuits and practices. Unlike sex which is a biological expression the word sexuality highlights how the materiality of the body acquires cultural meaning as it encounters other bodies institutions regulations symbols societal norms values and worldviews. Think of it this way sex culture sexuality. *Sex Cultures* offers an introduction to sexuality unlike any other. Its case study and debate driven approach animated by examples from across the globe and across disciplines upends stubborn assumptions that pit sex against society. The elegance of the arguments makes this book a pleasurable read for beginners and experts alike. **Gays and Lesbians in Asia and the Pacific** Laurence Wai-Teng Leong, 1995. First published in German in 1983 by Vittorio Klostermann Frankfurt am Main as volume 29/30 of Heidegger's collected works the present work comprises the text of the philosopher's lecture course of 1929/1930. Among other things it offers an extended treatment of the history of metaphysics and provides a crucial transition between the major
