This book contributes greatly to our understanding of contemporary sexual behaviour and sexual attitudes in both rural and urban India and in different strata of society including adolescent girls sex workers male and female college students and slum dwellers Presenting case studies from around the country the original essays in this book identify the contextual cultural and social factors that contribute to the risk of infection They cover three broad areas An overview of the HIV AIDS epidemic in India and the response of both the government and the public Perspectives from diverse communities concerning premarital marital and extramarital sexuality Lessons learned at the national level in terms of research methodology and in the development of new approaches to HIV AIDS Overall the book stresses the need to view sexuality and risk in a broad cultural and social context as also emphasizes the need to learn directly from the community in order to develop innovative programmes

Infidelity Paul R. Peluso,2007-06-15 When one partner in a relationship is unfaithful to the other it takes a lot of work by both parties involved to salvage the relationship In today s therapy friendly climate marriage couples counseling is often a part of that rebuilding process Many couples seek out professional therapy after an affair is out in the open but often the act of infidelity is revealed while uncovering and discussing unrelated issues for which the couple is in counseling And yet amazingly as common as this complex and difficult topic arises in therapy there is relatively little professional literature devoted to understanding and treating infidelity In this volume Paul Peluso has assembled a truly impressive list of contributors from a range of disciplines and backgrounds including marital therapy family therapy evolutionary psychology marriage research and cyberstudies with the aim of filling this void *Youth Sexuality in the Context of HIV/AIDS in South Africa* Karl Peltzer,Supa Pengpid,Teresa-Ann B. Mashego,2006 Dowsett 2003 notes that by far the vast majority of non biomedical research on HIV AIDS has been behavioural research usually by survey methods counting people s sex acts partners preferences places times and reasons for sex and assessing levels of risk for HIV infection revealing the dominance of seeing sex largely as behaviours
