Why Women Have Sex Cindy M. Meston, David M. Buss, 2009-09-29 An unparalleled exploration of the mysteries underlying women's sexuality that rivals the culture shifting Kinsey Report from two of America's leading research psychologists Do women have sex simply to reproduce or display their affection When University of Texas at Austin clinical psychologist Cindy M Meston and evolutionary psychologist David M Buss joined forces to investigate the underlying sexual motivations of women what they found astonished them Through the voices of real women Meston and Buss reveal the motivations that guide women's sexual decisions and explain the deep seated psychology and biology that often unwittingly drive women's desires sometimes in pursuit of health or pleasure or sometimes for darker disturbing reasons that a woman may not fully recognize Drawing on more than a thousand intensive interviews conducted solely for the book as well as their pioneering research on physiological response and evolutionary emotions Why Women Have Sex uncovers an amazingly complex and nuanced portrait of female sexuality They delve into the use of sex as a defensive tactic against a mate's infidelity protection as a ploy to boost self confidence status as a barter for gifts or household chores resource acquisition or as a cure for a migraine headache medication Why Women Have Sex stands as the richest and deepest psychological understanding of female sexuality yet achieved and promises to inform every woman's and her partner's awareness of her relationship to sex and her sexuality

Sex, Feminism and Lesbian Desire in Women's Magazines Kate Farhall, 2020-09-14 This book examines evolving pop culture representations of sex and relationships from the 1970s onwards to demonstrate parallels between the strength of the feminist movement and positive portrayals of women's sexuality In charting changes in the sex and relationship content of women's magazines over time this analysis reveals that despite surface level changes in sexual and relationship content the underlying paradigm of hetero monogamy remains unchanged Despite a seemingly more diverse empowered and liberated sexuality for women in contemporary magazines in reality such feminist rhetoric masks an enduring model of sexuality which rests on women's sexual and emotional maintenance of male partners and their own self objectification and self surveillance Where substantive changes can be identified they rise and fall in tandem with feminism By demonstrating this empirical relationship between cultural products and feminist organising the book validates an assumption that has rarely been tested that a feminist social milieu improves cultural narratives about sexuality for women Sex Feminism and Lesbian Desire builds on ground breaking feminist texts such as Susan Faludi's Backlash to present an empirically focused comprehensive study interrogating changes in content over the lifetime of women's magazines By charting the representation of sex and relationships in two women's magazines Cosmopolitan and Cleo since the 1970s through an analysis of over 6 500 magazine pages and 1 500 articles this timely work interrogates and ultimately complicates

the apparent linear progression of feminism This book is suitable for researchers and students in women s and gender studies queer studies LGBT studies media studies cultural studies and sociology

Sexuality, Women, and Tourism Susan Frohlick, 2012-12-20 This book is the first to focus on why and how foreign Western women engage in cross border sexual and intimate relations as tourists travelling or temporarily dwelling in a Central American country As an in depth ethnographic account the book traces the experiences of heterosexual North American and European women s transnational encounters and examines new sexual and social practices arising from contemporary global tourism shifting sexual cultures

both at home and abroad consumer culture and women's increasing mobility The book combines descriptions of women's travels and sexual relations across racial and class boundaries with feminism postcolonial theory and poststructuralist theories of gender and sexuality to show how tourism as a wide range and set of desires serves as a central shaping force in the formation of women's sexual subjectivities in contemporary life in postindustrial capitalism In doing so it offers new insights into how tourist women express heterosexuality shaped by gender race class and identities This fascinating book focusing on the structure of tourism and role of local culture and social organization in the shoring up of desire develops a unique contribution to the understanding of sex tourism It will be of interest not only to tourism scholars but also to those interested in sexuality anthropology sociology cultural studies women studies gender studies and geography *Satisfaction* Anita H. Clayton, 2007 Why are so many women dissatisfied with their sex lives Something is missing from their intimate encounters either they're not interested in sex anymore or they are interested but can't get aroused or they can get aroused but have neither the desire nor the energy to follow through Their relationships are suffering Many women find themselves wondering what's wrong with them If you're a woman and any of this sounds familiar Dr Anita H Clayton wants you to know that there's nothing wrong with you what's wrong is the ridiculous fantasies you've been sold about sex and the unrealistic expectations you cling to We all want to make love the way they do in the movies where the woman swoons with desire before the man even gets near her and once he does gasps collapses and hurtles headlong into orgasm in twenty seconds tops Now how often does that happen in real life Not very because in real life it takes at least that long to get your panty hose off not to mention locking the door locked so the kids don't barge in In this irreverent and revolutionary volume Dr Clayton lays bare hidden facets of female sexuality that are rooted in the psyche and can catapult a woman either into a cathartic bout of ecstasy or against the headboard into yet another disappointment Through compelling case histories she explores why many women would rather put up with unsatisfying sex than tell their lovers how to please them how buried feelings about childbearing can affect a woman's erotic potential and why an orgasm you have during intercourse is no more real or legitimate than one you achieve through other means Dr Clayton also shines a light on sexual attitudes that have a dramatic impact on young girls and teens and details how motherhood and menopause may affect but need not diminish a woman's capacity for sexual pleasure Dr Clayton believes that women should have high expectations for their sex lives but that these expectations should come from visceral intimate knowledge of ourselves what is normal for us and what feels good to us She wants you to consider and eventually own the concept of yourself as every bit as sexual as a sex symbol Indeed the only person who should symbolize sex for you is you [The New Sex Bible for Women](#) Amie Harwick, 2014-11 The New Sex Bible for Women is an all encompassing and fully comprehensive guide book for women including information on the history of sex masturbation self esteem safety and more **Sex for Women who Want to Have Fun and Loving Relationships with Equals** Carmen Kerr, 1977 **Women's Sexual Experience** Martha Kirkpatrick, 2012-12-06 This book like its companion

volume *Women's Sexual Development* is a potpourri of ideas not campaign literature to promote a particular point of view. The editor agrees with some of her authors and strongly disagrees with others. The facts are few, the questions many. The intent of both books is to evoke questions, delay convictions, invite controversy, and plead for opening minds. The examination and explanation of women's sexual experience has long been the province of men. The *is* and the *oughts* have been hopelessly confused by the investigators or exhorters' biases and limited experience as well as by the use of the male sexual experience as the model for all human sexual experience. Women at long last are talking not only to each other in personal journals and letters but also in the more formal worlds of academic and scientific publications. The papers in this book come from many sources. Some are academic, some are experiential, journalistic or personal. Several emphasize the lack of adequate research and data but address an issue that is just appearing on the surface of contemporary controversy and concern. Many topics and sources of information are missing.
