

SEX & GENDER GLOSSARY

SEX

A set of biological attributes including chromosomes, gene expression, hormone levels and functions, and reproductive anatomy. Sex is usually assigned at birth by observation of a baby's external genitalia, not by their internal organs, hormones, or genes.

GENDER

Society constructed roles, behaviors, expressions, and identities. Gender is often treated, erroneously, as equivalent to sex (boys/men = male and girls/women = female).

GENDER EXPRESSION

External manifestations of gender, expressed through a person's name, pronouns, appearance, clothing, voice, and/or behavior.

GENDER DIVERSE

An umbrella term describing any person whose gender identity, role, or expression differs from socially prescribed (gender) norms.

INTERSEX

Describes a person with one or more male sex characteristics, including genitalia, internal reproductive organs, and chromosomes, that fall outside of binary conceptions of male or female bodies. Around 1.7% of people are born intersex, comparable to the number of people born with red hair.

GENDER IDENTITY

A person's internal, deeply held knowledge of their gender.

CISGENDER

Describes a person whose gender identity matches their sex assigned at birth.

TRANSGENDER (TRANS)

Describes a person whose gender identity differs from the sex they were assigned at birth.

NONBINARY (ALSO GENDER FLUID, GENDERQUEER, AND AGENDER)

Describes a person whose experience of their gender identity and/or gender expression falls outside the binary gender categories of "male" and "female."

GENDER DYSPHORIA

The distress a person experiences when their gender identity does not match their sex assigned at birth.

GENDER EUPHORIA

The comfort and joy someone experiences when their gender expression is aligned with their gender identity.

MISGENDERING

When someone addresses or refers to another person by the wrong gender. This includes referring to a person using the wrong pronouns or honorifics such as Mr. or Ms., or by calling a trans person by their deadname—the name they used before they transitioned.

TRANSITIONING

The medical, legal, and/or social process a person undertakes to bring their gender expression and/or their body into alignment with their gender identity.

Sex Gender And Body:

Sex, Gender, and the Body Toril Moi, 2005-01 Extracted from Toril Moi's What Is a Woman this intervention in feminist theory rethinks the legacy of Simone de Beauvoir and shows that *The Second Sex* properly read offers solutions to urgent contemporary problems These essays provide a third way for feminism beyond the current stalemate between essentialism and constructionism **Sexing The Body: Gender Politics And The Construction Of Sexuality** Anne

Fausto-Sterling, 2000-02-10 Why do some people prefer heterosexual love while others fancy the same sex Is sexual identity biologically determined or a product of convention In this brilliant and provocative book the acclaimed author of *Myths of Gender* argues that even the most fundamental knowledge about sex is shaped by the culture in which scientific knowledge is produced Drawing on astonishing real life cases and a probing analysis of centuries of scientific research Fausto Sterling demonstrates how scientists have historically politicized the body In lively and impassioned prose she breaks down three key dualisms sex gender nature nurture and real constructed and asserts that individuals born as mixtures of male and female exist as one of five natural human variants and as such should not be forced to compromise their differences to fit a flawed societal definition of normality Religious Boundaries for Sex, Gender, and Corporeality Alexandra Cuffel, Ana

Echevarria, Georgios T. Halkias, 2018-10-09 The ambiguity concerning the interpretation of the physical body in religious thought is not peculiar to any given religion but is discernible in the scriptures practices and disciplines in most of the world's major religious traditions This book seeks to address the nuances of difference within and between religious traditions in the treatment and understanding of what constitutes the body as a carrier of religious meaning and or vindication of doctrine Bringing together an international team of contributors from different disciplines this collection addresses the intersection of religion gender corporeality and or sexuality in various Western and Eastern cultures The book analyses instances when religious meaning is attributed to the human body's physicality and its mechanics in contrast to imagined or metaphorical bodies In other cases it is shown that the body may function either as a vehicle or a hindrance for mystical knowledge The chapters are arranged chronologically and across religious orientations to offer a differentiated view on the body from a global perspective This collection is an exciting exploration of religion and the human body As such it will be of great interest to scholars in religious studies theology Islamic studies South Asian studies history of religions and gender studies **Sex,**

Gender, and Sexualities in Edward Albee's Plays, 2018-03-12 *Sex Gender and Sexualities in the Plays of Edward Albee* contains a general introduction and eleven essays by American and European Albee scholars on Albee's depictions of gender relations sexual relations monogamy child rearing and homosexuality The volume includes close readings of individual plays and more general theoretical and historical discussions Contributors Henry Albright Mary Ann Barfield Araceli Gonzalez Crespan Andrew Darr John M Clum Paul Grant Emeline Jouve T Ross Leasure David Marcia Cormac O'Brien Donald Pease Valentine Vasak Challenging Popular Myths of Sex, Gender and Biology Malin Ah-King, 2013-11-27 This edited volume

challenges popular notions of sex gender and biology and features international trans disciplinary research The book begins with an exploration of supposedly natural sexual differences then looks at research in evolutionary biology and examines topics such as gender stereotypes in humans The first chapters explore important questions What are the fundamental sex differences How do genes and hormones influence an individual s sex Subsequent chapters concern topics including sex stereotypes in the field of sexual conflict how the focus on genes in evolutionary biology disregards other means of inheritance and the development of Darwin s theory of sex differences The last three chapters look at humans discussing an interdisciplinary approach to the evolution of sex differences in body height biological versus social constructive perspectives on the gendering of voices and nature culture arguments in the current political debate on paternity leave in Norway

Body and Gender Roberta Sassatelli, Rossella Ghigi, 2023-12-11 Even though we often think of bodies as natural and given or else as freely plastic objects bodies are both constructed and fundamental to our sense of self This book investigates the body as an essential vector of inequality shaped by institutions interaction and culture and how in turn it contributes to partly modify them Sassatelli and Ghigi show how the process of embodiment is at the same time naturalized and contested particularly evident in the case of gender Drawing on classical sociological research about modernity and contemporary studies that emphasize intersectionality the book looks at how the gendered body has been conceptualized with special attention to body politics the power of appearance and the representation of embodied identity It also considers the interplay between body sex and sexuality and the way gendered bodies intersect with other dimensions of social inequality such as race age class and disability This exploration of the rich field of sociological inquiry into the gendered body will be an invaluable read for all seeking to understand gender sexuality and embodiment in contemporary society

Sex, Gender and International Human Rights Law Giovanna Gilleri, 2023-12-01 This book investigates the relationship between sex and gender under international human rights law and how this influences the formation of individual subjects Combining

feminist queer and psychoanalytical perspectives the author scrutinises the sexed gendered human rights discourse starting from the assumptions underpinning interpretations of sex gender and the related notions of gender identity sex characteristics and sexual orientation Human rights law has so far offered only a limited account of the diversity of sexed gendered subjectivities being based on a series of simplistic assumptions Namely that there are only two sexes and two genders sex is a natural fact and gender is a social construct gender is the metonymic signifier for women and gender power relations take the asymmetrical shape of male domination versus female oppression Against these assumptions dominative and subordinate postures interchangeably attach to femininities and masculinities depending on the subjects roles their positionalities and the situational meanings of their acts The limits of an approach to gender which is based on rigid binaries are evident in two case studies on the UN human rights treaty bodies vocabulary on medically unnecessary interventions upon intersex children and on the European Court of Human Rights narrative on sadomasochism This examination of the impact of human rights on gendered subjectivities will be of interest to scholars students and researchers in international law gender studies queer studies cultural studies critical race theory and psychoanalysis

Sex, Gender, and Christian Ethics Lisa Sowle Cahill, 1996-08-28 This book endorses feminist critiques of gender yet upholds the insight of traditional Christianity that sex commitment and parenthood are fulfilling human relations Their unity is a positive ideal though not an absolute norm Women and men should enjoy equal personal respect and social power In reply to feminist critics of oppressive gender and sex norms and to communitarian proponents of Christian morality Cahill argues that effective intercultural criticism of injustice requires a modest defence of moral objectivity She thus adopts a critical realism as its moral foundation drawing on Aristotle and Aquinas Moral judgment should be based on reasonable practical prudent and cross culturally nuanced reflection on human experience This is combined with a New Testament model of community centred on solidarity compassion and inclusion of the economically or socially marginalised

Integral Voices on Sex, Gender, and Sexuality Sarah E. Nicholson, Vanessa D. Fisher, 2014-07-16 This volume takes a unique approach to the question of what it is to be a gendered sexual self in a postmodern world offering insights informed by the Integral paradigm of theory and practice With the inquiry into sex gender and sexuality having become so broad and diverse within both academia and popular culture the Integral approach can help sift through and make sense of the cacophony of theories and agendas that seek to stake their ground in this collective conversation Informed by the work of thinkers such as Sri Aurobindo Gregory Bateson Jean Gebser Ervin Laszlo and most directly Ken Wilber the Integral approach acknowledges and works with multiple and contradictory experiences theories and realities Dealing with a variety of topics including feminism the men's movement sexual identity queer history and spirituality the work's contributors speak from across the spectrum of personal and political backgrounds academic and practitioner orientations and male and female perspectives The combination of voices aims to bring forward a more complex and integrated understanding of what it means to be woman man human
