Sex Gender And Christian Ethics:

Sex, Gender, and Christian Ethics Lisa Sowle Cahill, 1996-08-28 This book endorses feminist critiques of gender yet upholds the insight of traditional Christianity that sex commitment and parenthood are fulfilling human relations Their unity is a positive ideal though not an absolute norm Women and men should enjoy equal personal respect and social power In reply to feminist critics of oppressive gender and sex norms and to communitarian proponents of Christian morality Cahill argues that effective intercultural criticism of injustice requires a modest defence of moral objectivity She thus adopts a critical realism as its moral foundation drawing on Aristotle and Aquinas Moral judgment should be based on reasonable practical prudent and cross culturally nuanced reflection on human experience This is combined with a New Testament model of community centred on solidarity compassion and inclusion of the economically or socially marginalised **God,**

Science, Sex, Gender Patricia Beattie Jung, Aana Marie Vigen, John Anderson, 2010-05-20 This text is a timely wide ranging attempt to rescue dialogues on human sexuality sexual diversity and gender from insular exchanges based primarily on biblical scholarship and denominational ideology *Sex & Gender* Mary Jo Iozzio, Patricia Beattie Jung, 2017 The field of sexual ethics is widely studied in graduate school religion programs and seminaries but lacks a definitive resource for the classroom This teacher friendly anthology aims to fill that gap Featuring nine of the most important essays on the subject all of which have appeared in the *Journal of the Society of Christian Ethics* or its predecessor the *Annual of the Society of Christian Ethics* this collection covers a wide range of topics same sex marriage sexual minorities and biblical interpretation sex and power sexual harassment and sexual abuse HIV AIDS and prevention strategy the military and masculinities mobile porn and sexting human trafficking moral discernment and more Contributors represent a broad range of theological traditions and draw on scriptural texts as well as such disciplines as philosophy and sociology and psychology and the life sciences Each chapter includes reflection questions and suggestions for further reading and the book includes an index

Gender and Christian Ethics Adrian Thatcher, 2020-10-22 In this book Adrian Thatcher offers fresh theological arguments for expanding our understanding of gender He begins by describing the various meanings of gender and depicts the relations between women and men as a pervasive human and global problem Thatcher then critiques naive and harmful theological accounts of sexuality and gender as binary opposites or mistaken identities Demonstrating that the gendered theologies of Hans Urs von Balthasar and Karl Barth as well as the Vatican's war on gender rest on questionable binary models he replaces these models with a human continuum that allows for sexual difference without assuming opposite sexes and normative sexualities Grounded in core Christian doctrines this continuum enables a full theological affirmation of LGBTIQ people Thatcher also addresses the excesses of the male female binary in secular culture and outlines a hermeneutic that delivers justice and acceptance instead of sexism and discrimination **Sex and the Church** Kathy Rudy, 1997

Between the Sexes Lisa Sowle Cahill, 1989 The basis for a Christian sexual ethic says Cahill is a correlation of four

sources Scripture Christian tradition of faith theology and practice philosophy normative accounts and the empirical sciences descriptive accounts

Diverse Voices in Modern US Moral Theology Charles E. Curran, 2019-02-15 In Charles E Curran's latest book *Diverse Voices in Modern US Moral Theology* he presents the diverse voices of US Catholic moral theologians from the mid twentieth century to the present The book discusses eleven key individuals in the development and evolution of moral theology as well as the New Wine New Wineskins movement This diversity which differs from the monolithic understanding of moral theology that prevailed until recently comes from the diverse historical circumstances or *Sitz im Leben* of the authors Each of these theologians developed her or his approach in light of these circumstances and in response to shifts in the three audiences of moral theology the Church the academy and the broader society By exploring this diversity Curran recognizes the deep divisions that exist within Catholic moral theology between the so called liberal and conservative approaches and acknowledges the need for greater dialogue between them providing a deeper understanding of the methods and approaches of these significant figures This new book from a major figure in the field will be an important resource for students and scholars of US Catholic moral theology and for anyone seeking to understand the current state of moral theology in America today

God, Science, Sex, Gender Patricia Beattie Jung, Aana Marie Vigen, 2023-12-11 *God Sex Science Gender An Interdisciplinary Approach to Christian Ethics* is a timely wide ranging attempt to rescue dialogues on human sexuality sexual diversity and gender from insular exchanges based primarily on biblical scholarship and denominational ideology Too often dialogues on sexuality and gender devolve into the repetition of party lines and defensive postures without considering the interdisciplinary body of scholarly research on this complex subject This volume expands beyond the usual parameters opening the discussion to scholars in the humanities social sciences and natural sciences to foster the development of Christian sexual ethics for contemporary times Essays by prominent and emerging scholars in the fields of anthropology sociology psychology philosophy literary studies theology and ethics reveal how faith and reason can illuminate our understanding of human sexual and gender diversity Focusing on the intersection of theology and science and incorporating feminist theory *God Science Sex Gender* is a much needed call for Christian ethicists to map the origins and full range of human sexual experience and gender identity Essays delve into why human sexuality and gender can be so controversial in Christian contexts investigate the complexity of sexuality in humans and other species and reveal the implications of diversity for Christian moral theology Contributors are Joel Brown James Calcagno Francis J Catania Pamela L Caughie Robin Colburn Robert Di Vito Terry Grande Frank Fennell Anne E Figert Patricia Beattie Jung Fred Kniss John McCarthy Jon Nilson Stephen J Pope Susan A Ross Joan Roughgarden and Aana Marie Vigen

The Sexual Person Todd A. Salzman, Michael G. Lawler, 2008-05-21 Two principles capture the essence of the official Catholic position on the morality of sexuality first that any human genital act must occur within the framework of heterosexual marriage second each and every marriage act must remain open to the transmission of life In this comprehensive overview of Catholicism and sexuality

theologians Todd A Salzman and Michael G Lawler examine and challenge these principles Remaining firmly within the Catholic tradition they contend that the church is being inconsistent in its teaching by adopting a dynamic historically conscious anthropology and worldview on social ethics and the interpretation of scripture while adopting a static classicist anthropology and worldview on sexual ethics While some documents from Vatican II like *Gaudium et spes* the marital act promotes self giving by which spouses enrich each other gave hope for a renewed understanding of sexuality the church has not carried out the full implications of this approach In short say Salzman and Lawler emphasize relationships not acts and recognize Christianity's historically and culturally conditioned understanding of human sexuality The *Sexual Person* draws historically methodologically and anthropologically from the best of Catholic tradition and provides a context for current theological debates between traditionalists and revisionists regarding marriage cohabitation homosexuality reproductive technologies and what it means to be human This daring and potentially revolutionary book will be sure to provoke constructive dialogue among theologians and between theologians and the Magisterium

Catholic Theological Ethics

Todd A. Salzman, Michael G. Lawler, 2015-11-23 This book has two objectives one explicit and one implicit The explicit objective is to explore the normative implications for both general and sexual ethics of the methodological and anthropological developments in Catholic tradition The implicit objective is to stimulate dialogue in the Church about ethics particularly sexual ethics a dialogue that must necessarily include all in the communion Church laity theologians and hierarchy Since we believe that genuine and respectful dialogue about sexual morality is sorely needed to clarify Christian truth today we intend this book to be part of that genuine dialogue
