, **The Cord Keepers** Frank L. Salomon, 2004-10-29 None of the world's lost writings have proven more perplexing than the mysterious script in which the Inka Empire kept its records. Ancient Andean peoples encoded knowledge in knotted cords of cotton or wool called *quipus*. In *The Cord Keepers*, the distinguished anthropologist Frank Salomon breaks new ground with a close ethnography of one Andean village where villagers surprisingly have conserved a set of these enigmatic cords to the present day. The *quipocamayos*, as the villagers call them, form a sacred patrimony. Keying his reading to the internal life of the ancient kin groups that own the *quipus*, Salomon suggests that the multicolored cords with their knots and lavishly woven ornaments did not mimic speech as most systems of writing do but instead were anchored in nonverbal codes. *The Cord Keepers* makes a compelling argument for a close intrinsic link between rituals and visual sign systems. It indicates that while Andean graphic representation may differ radically from familiar ideas of writing, it may not lie beyond the reach of scholarly interpretation. In 1994, Salomon witnessed the use of *quipus* as civic regalia on the heights of Tupicocha in Peru's central Huarochir region. By observing the rich ritual surrounding them, studying the village's written records from past centuries, and analyzing the *quipus* themselves, Salomon opens a fresh chapter in the quest for *quipu* decipherment. He draws on a decade's field research, early colonial records, and radiocarbon and fiber analysis. Challenging the prevailing idea that the use of *quipus* ended under early Spanish colonial rule, Salomon reveals that these beautiful objects served apparently as late as the early twentieth century to document households' contribution to their kin groups and these kin groups' contribution to their village. *The Cord Keepers* is a major contribution to Andean history and more broadly to understandings of writing and literacy.

, **Ophelia** Sharon Keefe Ugalde, 2020-05-15 The study emphasizes the role of the arts and humanities in the replotting of gender and also links cultural production to political circumstances, specifically to the end of the Franco dictatorship and the transition to a new democracy in Spain. The inclusion of both the visual art of Marina Nunez and art photographs as well as literary authors and dramatists offers views of overarching motifs in the cultural production of Spain. The book includes an historical component with an analysis of works by major nineteenth and early twentieth century Spanish poets including Espronceda, Bécquer, Villaspesas, Lorca, and the pioneer female author Blanca de los Ríos. The list of writers from the 1970s forward includes both highly recognized figures, Clara Janés, María Victoria Atencia, Eduardo Quiles, and an extensive group of important writers less recognized beyond among critics.
