Lordre Du Discours:

L'ontologie manquée de Michel Foucault Béatrice Han,1998 Que se passe t il si l on traite Foucault en philosophe Si plut t que de reprendre la perspective des sciences sociales l on soumet son oeuvre une lecture purement philosophique Peut on d couvrir sous les prises de position contrast es et parfois provocantes de l auteur la continuit si prot iforme soit elle d un m me projet philosophique Ce projet il existe C est celui d une histoire duelle que l articulation de l arch ologie la g n alogie permet de retracer l histoire transcendantale des conditions de possibilit du vrai et de ses effets subjectivants sur les individus Mais si Foucault entend effectivement nouer un dialogue avec la tradition philosophique occidentale en quoi consiste son apport personnel et quelle est sa f condit philosophique **Siegfried Kracauer, penseur de l'histoire**

Philippe Despoix,Peter Schöttler,2006 **Crisis of Authority** Nancy Luxon,2013 Contemporary social and political theory has reached an impasse about a problem that had once seemed straightforward how can individuals make ethical judgments about power and politics Crisis of Authority analyzes the practices that bind authority trust and truthfulness in contemporary theory and politics Drawing on newly available archival materials Nancy Luxon locates two models for such practices in Sigmund Freud s writings on psychoanalytic technique and Michel Foucault s unpublished lectures on the ancient ethical practices of fearless speech or parrhesia Luxon argues that the dynamics provoked by the figures of psychoanalyst and truth teller are central to this process Her account offers a more supple understanding of the modern ethical subject and new insights into political authority and authorship Beginnings Edward W. Said,1985 This reissued classic traces the

ramifications and diverse understandings of the concept of beginning in history and offers valuable insights into the role of the intellectual and the goal of criticism *Michel Foucault* Dan Beer,2017-12-02 This is a study of the French philosopher and historian Michel Foucault s 1976 work *La Volonte de Savoir* Dan Beer aims to uncover a network of ideas and linguistic patterns beneath the surface of the text Through close textual analysis he addresses the issue of language and its effects on the world we inhabit The book covers a range of references from the forgotten narratives of 19th century European psychiatry examining the scope of confessional literature to the heated debates that surround Foucault s language and ideas

Lectures on the Will to Know M. Foucault,2013-04-09 In the first of his annual series of lectures at the Coll ge de France Foucault develops a vigorous Nietzschean history of the will to know through an analysis of changing procedures of truth legal forms and class struggles in ancient Greece Remnants of the Franco-Algerian Rupture Mona El Khoury,2020-09-28

At the end of French colonization in Algeria four categories of people held French citizenship or had strong ties with France European settlers Jews mixed race individuals and Harkis The end of the War of Independence exiled most of them from Algeria traumatized them in various ways and transferred many to metropolitan France Remnants of the Franco Algerian Rupture Archiving Postcolonial Minorities examines the legacies of these transnational identities through narratives that dissent from official histories both in France and Algeria This literature takes particular stories of exile and loss and

constructs a memory around a Mosaic father figure embodying the native land Algeria Mona El Khoury argues that these filiation narratives create a postcolonial archive a discursive foundation that makes historical minorities visible while disrupting French and Algerian hegemonies El Khoury questions the power of literature to repair history while contending that these literary strategies seek to do justice to the dead Algerian father even as they valorize enduring minority identifications

Michel Foucault Barry Smart,1994 **Foucault and Nietzsche** Joseph Westfall,Alan Rosenberg,2018-02-22 Foucault s intellectual indebtedness to Nietzsche is apparent in his writing yet the precise nature extent and nuances of that debt are seldom explored Foucault himself seems sometimes to claim that his approach is essentially Nietzschean and sometimes to insist that he amounts to a radical break with Nietzsche This volume is the first of its kind presenting the relationship between these two thinkers on elements of contemporary culture that they shared interests in including the nature of life in the modern world philosophy as a way of life and the ways in which we ought to read and write about other philosophers The contributing authors are leading figures in Foucault and Nietzsche studies and their contributions reflect the diversity of approaches possible in coming to terms with the Foucault Nietzsche relationship Specific points of comparison include Foucault and Nietzsche s differing understandings of the Death of God art and aesthetics power writing and authorship politics and society the history of ideas genealogy and archaeology and the evolution of knowledge

L'ordre du discours Michel Foucault,1971 *Power and Freedom in the Space of Reasons* Tuomo Tiisala,2024-07-31 This book argues that the received view of the distinction between freedom and power must be rejected because it rests on an untenable account of the discursive cognition that endows individuals with the capacity for autonomy and self governed rationality In liberal and Kantian approaches alike the autonomous subject is a self standing starting point whose freedom is constrained by relations of power only contingently because they are external to the subject s constitution Thus the received view defines the distinction between freedom and power as a dichotomy Michel Foucault is arguably the most important critic of that dichotomy However it is widely agreed that Foucault falls short of justifying the alternative view he develops where power and freedom are essentially entangled instead The book fills out the gap by investigating the social preconditions of discursive cognition Drawing on pragmatist inferentialist resources from the philosophy of language Wittgenstein Sellars and Brandom it presents a new interpretation of Foucault s philosophy that is unified by his overlooked idea of the archaeology of knowledge As a result the book not only explains why and how power and freedom must be entangled but also what it means ethically to pursue and gain autonomy with respect to one s own understanding *Power and Freedom in the Space of Reasons* will appeal to scholars and advanced students working in social and political philosophy critical theory ethics philosophy of language and the history of 20th century philosophy The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial CC BY NC 4 0 license Any third party material in this book is not included in the OA Creative Commons license unless indicated

legitimization of esoteric identity in modern culture the 12 chapters accompanied by an editors introduction provide a cornucopia of relevant cases that are interpreted in a framework of polemical discourse and Othering This volume sheds new light on the ultimately polemical structure of western esotericism and thus opens new vistas for further research into esoteric discourse

Foucault 2.0 Eric Paras,2020-01-14 A dramatically new interpretation of the development of the thought of Michel Foucault one of the 20th century s most influential thinkers In this lucid and groundbreaking work Eric Paras reveals that our understanding of the philosophy of Michel Foucault must be radically revised Foucault s critical axes of power and knowledge which purposefully eradicated the concept of free will reappear as targets in his later work Paras demonstrates the logic that led Foucault to move from a microphysics of power to an aesthetics of individual experience He is the first to show a transformation that not only placed Foucault in opposition to the archaeological and genealogical positions for which he is renowned but aligned him with some of his fiercest antagonists Foucault 2 0 draws on the full range of the philosopher s writing and of the work of contemporaries who influenced and sometimes vehemently opposed his ideas To fill the gaps in Foucault s published writings that have so far limited our conception of the arc of his thought Paras analyzes the largely untapped trove of lectures Foucault delivered to teeming Paris audiences as Professor of the College de France for more than a decade At the same time Foucault 2 0 highlights the background against which Foucault carried out his most foundational work the unrest of 1968 the prison reform movement of the early 1970s and the Iranian Revolution of 1979 Carefully assembling the fragments of a thinker who remains but half understood Eric Paras has composed a seminal book essential reading for novices and initiates alike

The Archaeology of Knowledge Michel Foucault,2012-07-11 Madness sexuality power knowledge are these facts of life or simply parts of speech In a series of works of astonishing brilliance historian Michel Foucault excavated the hidden assumptions that govern the way we live and the way we think The Archaeology of Knowledge begins at the level of things aid and moves quickly to illuminate the connections between knowledge language and action in a style at once profound and personal A summing up of Foucault s own methodological assumptions this book is also a first step toward a genealogy of the way we live now Challenging at times infuriating it is an absolutely indispensable guide to one of the most innovative thinkers of our time

Rethinking Popular Culture Chandra Mukerji,Michael Schudson,1991-07-09 Rethinking Popular Culture presents some of the most important current scholarship analyzing popular culture Drawing upon recent developments in cultural theory and exciting new methods of critical analysis the essays in this volume break down disciplinary boundaries and offer fresh insight into popular culture
