Lost and Found Traditions, 65-85 Michael D. Coe, Ralph Coe, 1986 **Lost and Found** John James Kennedy, Yaojiang Shi, 2019-05-10 Although the reported gender imbalance due to the Single Child Policy 1979 2015 has caused international alarm this study finds that the number of missing girls may not be as pronounced as previous studies suggest due to wide spread local underreporting of births from the 1980s to early 2000s In Local Leaders Families and the Missing Girls in Rural China John James Kennedy and Yaojiang Shi focus on village level implementation of the one child policy and how shocking the level of mutual noncompliance between officials and rural families has been Lost Property Jennifer Summit, 2000-07 The English literary canon is haunted by the figure of the lost woman writer In our own age she has been a powerful stimulus for the rediscovery of works written by women But as Jennifer Summit argues the lost woman writer also served as an evocative symbol during the very formation of an English literary tradition from the fourteenth through the sixteenth centuries *Lost Property* traces the representation of women writers from Margery Kempe and Christine de Pizan to Elizabeth I and Mary Queen of Scots exploring how the woman writer became a focal point for emerging theories of literature and authorship in English precisely because of her perceived alienation from tradition Through original archival research and readings of key literary texts Summit writes a new history of the woman writer that reflects the impact of such developments as the introduction of printing the Reformation and the rise of the English court as a literary center A major rethinking of the place of women writers in the histories of books authorship and canon formation *Lost Property* demonstrates that rather than being an unimaginable anomaly the idea of the woman writer played a key role in the invention of English literature The Lost Tradition of Economic Equality in America, 1600-1870 Daniel R. Mandell, 2020-04-07 An important examination of the foundational American ideal of economic equality and how we lost it Winner of the Missouri Conference on History Book Award for 2021 The United States has some of the highest levels of both wealth and income inequality in the world Although modern day Americans are increasingly concerned about this growing inequality many nonetheless believe that the country was founded on a person's right to acquire and control property But in *The Lost Tradition of Economic Equality in America 1600 1870* Daniel R Mandell argues that in fact the United States was originally deeply influenced by the belief that maintaining a rough or relative equality of wealth is essential to the cultivation of a successful republican government Mandell explores the origins and evolution of this ideal He shows how during the Revolutionary War concerns about economic equality helped drive wage and price controls while after its end Americans sought ways to maintain their beloved rough equality against the danger of individuals amassing excessive wealth He also examines how after 1800 this tradition was increasingly marginalized by the growth of the liberal ideal of individual property ownership without limits This politically evenhanded book takes a sweeping detailed view of economic social and cultural developments up to the time of Reconstruction when Congress refused to redistribute plantation lands to the former slaves who had worked it insisting

instead that they required only civil and political rights Informing current discussions about the growing gap between rich and poor in the United States *The Lost Tradition of Economic Equality in America* is surprising and enlightening

Selling Tradition Jane S. Becker,2000-11-09 The first half of the twentieth century witnessed a growing interest in America s folk heritage as Americans began to enthusiastically collect present market and consume the nation s folk traditions Examining one of this century s most prominent folk revivals the reemergence of Southern Appalachian handicraft traditions in the 1930s Jane Becker unravels the cultural politics that bound together a complex network of producers reformers government officials industries museums urban markets and consumers all of whom helped to redefine Appalachian craft production in the context of a national cultural identity Becker uses this craft revival as a way of exploring the construction of the cultural categories folk and tradition She also addresses the consequences such labels have had on the people to whom they have been assigned Though the revival of domestic arts in the Southern Appalachians reflected an attempt to aid the people of an impoverished region she says as well as a desire to recapture an important part of the nation s folk heritage in reality the new craft production owed less to tradition than to middle class tastes and consumer culture forces that obscured the techniques used by mountain laborers and the conditions in which they worked
