This all-new story focuses on 11-year-old Will Robinson and his closest friend and greatest protector, a mysterious Robot with a dangerous past. Thirty years in the future, Earth has become increasingly more uninhabitable, and a group of colonists, including Will, his two teenage sisters, and their parents, travels across the galaxy to establish a new home. But when the ship is attacked, the Robinsons are stranded on an alien planet where they must contend with disastrous technical issues, a hostile environment, and dangerous personalities to get off-world and reach their colony. One day while exploring a remote complex of caves with his Robot, Will discovers a strange portal that allows him to travel back to Earth to a time before the Robinsons left on their mission. Realizing the portal could be a way for the colonists to escape the planet and finally make their way to their new home, Will and his sisters decide to investigate it, triggering a series of events that not only changes their reality but threatens the group's very existence.
