Lost Fathers The Politics Of Fatherlessness:

Lost Fathers Cynthia R. Daniels, 2000-04 This book brings together the voices of a highly diverse group of scholars to reflect on the culturally and politically charged concept of fatherlessness in contemporary American politics The Myth of the Missing Black Father Roberta L. Coles, Charles St. Clair Green, 2010 Common stereotypes portray black fathers as being largely absent from their families Yet while black fathers are less likely than white and Hispanic fathers to marry their child's mother many continue to parent through cohabitation and visitation providing caretaking financial and other in kind support This volume captures the meaning and practice of black fatherhood in its many manifestations exploring two parent families cohabitation single custodial fathering stepfathering noncustodial visitation and parenting by extended family members and friends Contributors examine ways that black men perceive and decipher their parenting responsibilities paying careful attention to psychosocial economic and political factors that affect the ability to parent Chapters compare the diversity of African American fatherhood with negative portrayals in politics academia and literature and through qualitative analysis and original profiles illustrate the struggle and intent of many black fathers to be responsible caregivers This collection also includes interviews with daughters of absent fathers and concludes with the effects of certain policy decisions on responsible parenting *Fatherhood Politics in the United States* Anna Gavanas, 2010-10-01 Are fathers being marginalized in the contemporary family Responding to fears that they are the self proclaimed fatherhood responsibility movement FRM has worked since the mid 1990s to put fatherhood at the center of U S national politics Anna Gavanas's *Fatherhood Politics in the United States* analyzes the processes reveals the internal struggles and traces the myths that drive this powerful movement Unlike previous investigations that rely on literary or other secondary sources *Fatherhood Politics* works from primary ethnographic material to represent a wider range of voices and actors Interacting with and interviewing members of the most powerful and well known national fatherhood organizations Gavanas observed Promise Keeper rallies men's workshops and conferences on masculinity fatherhood and marriage Providing a detailed overview of the different organizations involved and their various rhetorical strategies Gavanas breaks down the FRM into two major wings The pro marriage wing sees marriage as the key to solving all social problems while the fragile family organizations worry about unemployment racism and discrimination Gavanas uses her extensive anthropological fieldwork as the basis for discussions of gender sexuality and race in her analysis of these competing voices Taking us inside the internal struggles tensions and political machinations of the FRM Gavanas offers a behind the scenes look at a movement having real impact on current social policy *Fatherhood Politics* is an essential work for anyone interested in the politics of masculinity parenthood marriage race and sexuality Essential Dads Jennifer M. Randles, 2020-10-13 In *Essential Dads* sociologist Jennifer Randles shares the stories of more than 60 marginalized men as they sought to become more engaged parents through a government supported responsible fatherhood program Dads experiences serve as a unique window into long standing controversies about the

importance of fathering its connection to inequality and the state's role in shaping men's parenting. With a compassionate and hopeful voice, Randles proposes a more equitable political agenda for fatherhood, one that carefully considers the social and economic factors shaping men's abilities to be involved in their children's lives and the ideologies that rationalize the necessity of that involvement. *New Family Values* Karen Struening, 2002-06-25 How many different kinds of families are there? *New Family Values* provides a critical analysis of scholars and authors who argue that law and policy should be used to foster one model of the family: the intact two-parent heterosexual family. Karen Struening argues that this position does not adequately address the problem it supposedly solves: family dissolution and unnecessarily constrains personal liberty. Healthy families may be necessary for civic unity and individual stability, but there can be many different kinds of families.

Nurturing Dads William Marsiglio, Kevin Roy, 2012-01-01 American fathers are a highly diverse group, but the breadwinning live-in biological dad prevails as the fatherhood ideal. Consequently, policymakers continue to emphasize marriage and residency over initiatives that might help foster healthy father-child relationships and creative co-parenting, regardless of marital or residential status. In *Nurturing Dads*, William Marsiglio and Kevin Roy explore the ways new initiatives can address the social, cultural, and economic challenges men face in contemporary families and foster more meaningful engagement between many different kinds of fathers and their children. What makes a good father? The firsthand accounts in *Nurturing Dads* show that the answer to this question varies widely and in ways that counter the mainstream provide-and-reside model of fatherhood. Marsiglio and Roy document the personal experiences of more than 300 men from a wide range of socioeconomic backgrounds and diverse settings, including fathers-to-be, young adult fathers, middle-class dads, stepfathers, men with multiple children in separate families, and fathers in correctional facilities. They find that most dads express the desire to have strong, close relationships with their children and to develop the nurturing skills to maintain these bonds. But they also find that disadvantaged fathers, including young dads and those in constrained financial and personal circumstances, confront myriad structural obstacles such as poverty, inadequate education, and poor job opportunities. *Nurturing Dads* asserts that society should help fathers become more committed and attentive caregivers, and that federal and state agencies, work sites, grassroots advocacy groups, and the media all have roles to play. Recent efforts to introduce state-initiated paternity leave should be coupled with social programs that encourage fathers to develop unconditional commitments to children, to co-parent with mothers, to establish partnerships with their children's other caregivers, and to develop parenting skills and resources before becoming fathers via activities like volunteering and mentoring kids. Ultimately, Marsiglio and Roy argue, such combined strategies would not only change the policy landscape to promote engaged fathering but also change the cultural landscape to view nurturance as a fundamental aspect of good fathering. Care is a human experience, not just a woman's responsibility, and this core idea behind *Nurturing Dads* holds important implications for how society supports its families and defines manhood. The book promotes the progressive notion that fathers should provide

more than financial support and in the process bring about a better start in life for their children A Volume in the American Sociological Association's Rose Series in Sociology **Male Femininities** Dana Berkowitz, Elroi J. Catholic Culture Ryan Nathan Scott Topping, Ryan Topping, 2013-01-18 Rarely does a book come along that so succinctly explains the decline of modern culture articulates a defense of the Church's teachings and offers a hope filled path for building a civilization grounded in Catholic truth In these pages Dr Ryan Topping does all three pulling back the curtain on the false philosophies of the secularists and showing that in the West today the most formidable threat to freedom is not failing economies or Islam but secularism Our best defense he claims is a vibrant Catholic culture and our best hope for creating it lies in the principles found in the Catechism of the Catholic Church In *Rebuilding Catholic Culture* you'll discover sensible ways to begin restoring Catholic culture right now in your own life and family and in our larger communities as well in the theater in the classroom in our hospitals and even in the public square This profoundly accessible book will renew your confidence in the world transforming character of our Creed and in the potency of our Faith to shape and redefine the culture of the West Book jacket

Rights, Gender and Family Law Julie Wallbank, Shazia Choudhry, Jonathan Herring, 2009-12-04 There has been a widespread resurgence of rights talk in social and legal discourses pertaining to the regulation of family life as well as an increase in the use of rights in family law cases in the UK the US Canada and Australia *Rights Gender and Family Law* addresses the implications of these developments and in particular the impact of rights based approaches upon the idea of welfare and its practical application There are now many areas of family law in which rights and welfare based approaches have been forced together But whilst to many they are premised upon different ethics respectively of justice and of care for others they can nevertheless be reconciled In this respect a central concern is the gender blind character of rights based approaches and the ontological and practical consequences of their employment in the gendered context of the family *Rights Gender and Family Law* explores the tensions between rights based and welfare based approaches explaining their differences and connections considering whether if at all they are reconcilable and addressing the extent to which they can advantage or disadvantage the interests of women children and men It may be that rights based discourses will dominate family law at least in the way that social policy and legislation respond to calls of equality of rights between mothers and fathers This collection however argues that rights cannot be given centre stage without thinking through the ramifications for gendered power relations and the welfare of children It will be of interest to researchers and scholars working in the fields of family law gender studies and social welfare

He argues that the father's role in bringing up children is a social construction that has been subject to change throughout history and looks at the consequences of this along with the crisis facing fatherhood today. The Father will be welcomed by people from a wide variety of disciplines including practitioners and students of psychology, sociology and anthropology and by the educated general reader **The Role of the Father in Child Development** Michael E. Lamb, 2004-05-12 New edition of the classic *The Role of the Father in Child Development*. The Role of the Father in Child Development Fourth Edition brings together contributions from an international group of experts on the role of fathers in child development. Under the auspices of editor Michael Lamb, this guide offers a single source reference for the most recent findings and beliefs related to fathers and fatherhood. This new and thoroughly updated edition provides the latest material on such topics as: The development of father-child relationships; Gay fathers; The effects of divorce on fathers and children; Fathers in violent and neglectful families; Cross-cultural issues of fatherhood; Fathers in non-industrialized cultures. *The Role of the Father in Child Development* Fourth Edition helps mental health professionals bridge scientific theories to application and practice that teach fathers how to positively influence their children's development *Fragmenting Fatherhood* Richard Collier, Sally Sheldon, 2008-09-05 Debates about the future of fatherhood have been central to a range of conversations about changing family forms, parenting and society. Law has served an important yet often neglected role in these discussions, serving as an important focal point for broader political frustrations, playing a central role in mediating disputes and operating as a significant symbolic state-sanctioned account of the scope of paternal rights and responsibilities. *Fragmenting Fatherhood* provides the first sustained engagement with the way that fatherhood has been understood, constructed and regulated within English law. Drawing on a range of disparate legal provisions and material from diverse disciplines, it sketches the major contours of the figure of the father as drawn in law and social policy, tracing shifts in legal and broader understandings of what it means to be a father and what rights and obligations should accrue to that status. In thematically linked chapters cutting across substantive areas of law, the book locates fatherhood as a key site of contestation within broader political debates regarding the family and gender equality. Multiple visions of fatherhood evolving unevenly over time across diverse areas of law emerge from this analysis. Fatherhood is revealed as an essentially fragmented status and one which is intertwined in complex ways with the legal, cultural and political contexts in which discourses of parenthood are produced. *Fragmenting Fatherhood* provides an important and unique resource speaking to debates about fatherhood across a range of fields including law and legal theory, sociology, gender studies, social policy, marriage and the family, women's studies and gender studies **Postfeminism and Paternity in Contemporary US Film** Hannah Hamad, 2013-10-15 This book interrogates representations of fatherhood across the

spectrum of popular U S film of the early twenty first century It situates them in relation to postfeminist discourse identifying and discussing dominant paradigms and tropes that emerge from the tendency of popular cinema to configure ideal masculinity in paternal terms It analyses postfeminist fatherhood across a range of genres including historical epics war films westerns bromantic comedies male melodramas action films family comedies and others It also explores recurring themes and intersections such as the rejuvenation of aging masculinities through fatherhood the paternalized recuperation of immature adult masculinities the relationship between fatherhood in film and 9 11 culture post racial discourse in representations of fatherhood and historically located formations of fatherhood It is the first book length study to explore the relationship between fatherhood and postfeminism in popular cinema

Fathers' Rights Activism and Law Reform in Comparative Perspective Richard Collier, Sally Sheldon, 2006-10-10 The legal status responsibilities and rights of men who are fathers married or unmarried cohabiting or separated biological or social in nature is a topic with a long and well documented history Yet recent developments in a number of countries suggest a growing politicisation of the relationship between law and fatherhood In some countries an increasingly vocal visible and well organised fathers rights movement has been credited with influencing perceptions of the politics of family justice Fathers it is argued have become the new victims of family law justice systems that have swung too far in favour of mothers Armed with such claims fathers rights activists have set out to achieve a range of legal reforms most notably in the areas of child support law and contact and residence rights following separation This book presents an attempt to understand these developments Bringing together leading international commentators it provides a careful critical and comparative analysis of the work of fathers rights activists the role law has played in their campaigning their legal strategies their success or otherwise in achieving legal reform similarities and divergences with the women s movement and the relationship between fathers rights movements and the societies that frame them In addition to Collier and Sheldon contributors include Susan B Boyd University of British Columbia Canada Jocelyn Crowley Rutgers University USA Maria Eriksson Goteborg University Sweden Keith Pringle Aalborg University Denmark Helen Rhoades Melbourne University Australia and Carol Smart Manchester University UK

Working with Men in Health and Social Care Brid Featherstone, Mark Rivett, Jonathan Scourfield, 2007-08-01 Working

with *Men in Health and Social Care* is a very welcome contribution to the stock of books on men and masculinities. It is especially useful for those interested in direct practice and policy applications in the fields of welfare and for those who work with the problems men create, the problems men experience and their interconnections. Jeff Hearn, co-editor, *Men and Masculinities*, University of Huddersfield and Linköping University, *Working with Men in Health and Social Care* is an important and timely book that introduces the complex issues and debates involved in working with men in a range of professional settings. The authors locate academic and popular discourse on masculinities within the specific context of health and social care settings, critically analysing the theory and policy that underpin and inform practice and continually linking theoretical frameworks to real life practice examples. Section 1 contextualises the topic with a discussion of gender theory, social policy and the occupational culture of relevant organisations. Section 2 provides a summary of practice models examining practice with men as individuals as well as in groups, families and communities. Section 3 is organised according to specific groups of service users and includes chapters on fathers, abusive men, physical and mental health, boys and older men. This thought provoking and topical book will be essential reading for students and academics in social work, health care, probation, counselling and allied disciplines and for those facing the reality of working with men in their day to day practice.
