Safety and Security in Tourism C Michael Hall, Dallen J. Timothy, David Timothy Duval, 2012-12-06 How will the travel and tourism industry respond to the terrorist attacks on America The recent terrorist attacks in the United States and their repercussions for the travel and leisure industries have focused more attention on tourism safety and security issues than ever before The impact on tourism destinations and businesses as well as on traveler behavior will be significant Recent events require further analysis not only of how travel safety may be improved but also how security issues may be seen in terms of tourism marketing and management so that the industry is able to better respond to such challenges In this an era of turbulent global relationships the need for destination marketing organizations to demonstrate that they are safe for tourists has become increasingly important Negative publicity often unrelated to on the ground reality may also serve to affect tourist perceptions Safety and Security in Tourism Relationships Management and Marketing examines the effects of the September 11 2001 attacks on the tourism industry and how the industry is responding the importance of safety as a factor in destination or activity choice case studies of destination and business responses to past political instability and or attacks against tourists safety security and destination image the role of the media in influencing consumer perceptions of travel safety consumer awareness of travel advisories and their influence on behavior the role of insurance in the travel industry consumer awareness and acceptance of security measures in travel and tourism safety and security as a component in destination marketing crisis and risk management in the tourism industry cross border security and visa controls and their implications for tourism safety and security measures for tourists in different sectors and in airports Tourism has often been cited as a force for peace yet tourism is typically one of the first industrial casualties of war and political unrest This book examines tourism safety and security issues to give you a better knowledge base from which to respond to future events

[The Translation of Realia and Irrealia in Game Localization](#) Silvia Pettini, 2021-09-19 This book explores the impact of a video game s degree of realism or fictionality on its linguistic dimensions investigating the challenges and strategies for translating realia and irrealia the interface of the real world and the game world where culture specificity manifests itself The volume outlines the key elements in the translation

of video games such as textual non linearity multitextuality and playability and introduces the theoretical framework used to determine a game s respective degree of realism or fictionality Pettini applies an interdisciplinary approach drawing on video game research and Descriptive Translation Studies to the linguistic and translational analysis of in game dialogs in English Italian and English Spanish language pairs from a corpus of three war video games This approach allows for an in depth look at the localization challenges posed by the varying degree of realism and fictionality across video games and the different strategies translators employ in response to these challenges A final chapter offers a comparative analysis of the three games and subsequently avenues for further research on the role of culture specificity in game localization This book is key reading for students and scholars interested in game localization audiovisual translation studies and video game research The Ancient World in Alternative History and Counterfactual Fictions Alberto J. Quiroga Puertas, Leire Olabarria, 2024-08-22 Focusing in turn on history powerful individuals under represented voices and the arts the essays in this collection cover a wide variety of modern and contemporary narrative fiction from Jo Walton and L Sprague De Camp to T S Chaudhry and Catherynne M Valente Chapters look into the question of chance versus determinism in the unfolding of historical events the role individuals play in shaping a society or occasion and the way art and literature symbolise important messages in counterfactual histories They also show how uchronic narratives can take advantage of modern literary techniques to reveal new and relevant aspects of the past giving voices to marginalised minorities and suppressed individuals of the ancient world Counterfactual fiction and uchronic narratives have been largely up until now the domain of literary critics However these modes of literature are here analysed by scholars of Ancient History Egyptology and Classics shedding important new light on how cultures of the ancient world have been and still are perceived and to what extent our conceptions of the past are used to explore alternate presents and futures Alternate history entices the imagination of the public by suggesting hypothetical scenarios that never occurred underlining a latent tension between reality and imagination and between determinism and contingency This interest has resulted in a growing number of publications that gauge the impact of what if narratives and this one is the first to give scholars of the ancient world centre stage Pynchon and Relativity Simon de Bourcier, 2012-02-16 Draws on Einstein s Theory of Relativity to examine of the workings of narrative time in the novels of Thomas Pynchon including *Against the Day* **Future Cities** Nick Dunn, Paul Cureton, 2020-12-10 What might our cities look like in ten twenty or fifty years How may future cities face global challenges Imagining the city of the future has long been an inspiration for many architects artists and designers This book examines how cities of the future have been visualised what these projects sought to communicate and what the implications may be for us now It provides a visual history of the future and explores the relationships between different visualisation techniques and ideologies for cities Thinking about what futures are who they are for why they are desirable and how and when they are to be brought into being is central to this book Through visualisation we are able to experiment in ways that would be impractical and potentially

hazardous in the real world and this book therefore aims to contribute toward a better understanding of the power and agency of visualisations for future cities In this lavishly illustrated text the authors apply several critical lenses to consider the subject in different ways technological futures social futures and global futures providing a comprehensive survey and analysis of visions for future cities and engaging creatively with how we perceive tomorrow's world and future studies more widely

The Routledge Companion to Imaginary Worlds Mark Wolf, 2017-09-27 This companion provides a definitive and cutting edge guide to the study of imaginary and virtual worlds across a range of media including literature television film and games From the Star Trek universe Thomas More's classic Utopia and J R R Tolkien's Arda to elaborate user created game worlds like Minecraft contributors present interdisciplinary perspectives on authorship world structure design and narrative The Routledge Companion to Imaginary Worlds offers new approaches to imaginary worlds as an art form and cultural phenomenon explorations of the technical and creative dimensions of world building and studies of specific worlds and worldbuilders

Filmurbia David Forrest, Graeme Harper, Jonathan Rayner, 2017-04-22 In this book scholars from across the world explore the appearance portrayal and significance of the suburb on film By the mid 20th Century supported by changes in transportation suburbs became the primary location of entire national populations and films about the suburbs began to concertedly reflect those suburbs significance as well as their increasingly lively cultures Suburbia very soon became filmurbia as films of the suburbs and those made in the suburbs reflected both the positive and the negative aspects of burgeoning suburban life Film makers explored the existences of new suburbanites their interests their newly emerging neighbourhood practices their foibles their fantasies and their hopes Whether depicting love ambition commerce family home or horror whether traveling to or living in suburban spaces whether exhibiting beauty brazenness or brutality the films of suburbia capture human life in all its diverse guises

Dreamworlds of Race Duncan Bell, 2022-06-07 How transatlantic thinkers in the late nineteenth and early twentieth centuries promoted the unification of Britain and the United States Between the late nineteenth century and the First World War an ocean spanning network of prominent individuals advocated the unification of Britain and the United States They dreamt of the final consolidation of the Angloworld Scholars journalists politicians businessmen and science fiction writers invested the Anglo Saxons with extraordinary power The most ambitious hailed them as a people destined to bring peace and justice to the earth More modest visions still imagined them as likely to shape the twentieth century *Dreamworlds of Race* explores this remarkable moment in the intellectual history of racial domination political utopianism and world order Focusing on a quartet of extraordinary figures Andrew Carnegie W T Stead Cecil J Rhodes and H G Wells Duncan Bell shows how unionists on both sides of the Atlantic reimagined citizenship empire patriotism race war and peace in their quest to secure global supremacy Yet even as they dreamt of an Anglo dominated world the unionists disagreed over the meaning of race the legitimacy of imperialism the nature of political belonging and the ultimate form and purpose of unification The racial dreamworld was an object of competing claims and fantasies Exploring

speculative fiction as well as more conventional forms of political writing Bell reads unionist arguments as expressions of the utopianism circulating through fin de siècle Anglo American culture and juxtaposes them with pan Africanist critiques of racial domination and late twentieth century fictional narratives of Anglo American empire Tracing how intellectual elites promoted an ambitious project of political and racial unification between Britain and the United States Dreamworlds of Race analyzes ideas of empire and world order that reverberate to this day

J.G. Ballard's Surrealist Imagination Jeannette Baxter,2016-12-05 Making the case that J G Ballard s fictional and non fictional writings must be read within the framework of Surrealism Jeannette Baxter argues for a radical revisioning of Ballard that takes account of the political and ethical dimensions of his work Ballard s appropriation of diverse Surrealist aesthetic forms and political writings Baxter suggests are mobilised to contest official narratives of postwar history and culture and offer a series of counter historical and counter cultural critiques Thus Ballard s work must be understood as an exercise in Surrealist historiography that is politically and ethically engaged Placing Ballard s illustrated texts within this critical framework permits Baxter to explore the effects of photographs drawings and other visual symbols on the reading experience and the production of meaning Ballard s textual spectacles raise a variety of questions about the shifting role of the reader and the function of the written text within a predominantly visual culture while acknowledging the visual contexts of Ballard s Surrealist writings allows a very different historical picture of the author and his work to emerge

City Phil Hubbard,2006-09-27 City provides an accessible yet critical introduction to one of the key concepts in human geography Always at the heart of discussions in social theory the definition and specification of the city nonetheless remains illusive In this volume Phil Hubbard locates the concept of the city within current traditions of social thought providing a basis for understanding its varying usages and meanings through a critical discussion of the contribution of key authors and thinkers Written in a lively and accessible style the individual chapters of City offer a thematic overview of four dominant ways of approaching cities as lived in places as imagined spaces as networks of association as technologies of flow Drawing on a diverse range of literatures and case studies the book spells out the importance of a geographical perspective on the city suggesting that it is only by bringing these different ways of mapping the city together that we can begin to make sense of cities

Data Lives Kitchin, Rob,2021-02-03 The word data has entered everyday conversation but do we really understand what it means How can we begin to grasp the scope and scale of our new data rich world and can we truly comprehend what is at stake In Data Lives renowned social scientist Rob Kitchin explores the intricacies of data creation and charts how data driven technologies have become essential to how society government and the economy work Creatively blending scholarly analysis biography and fiction he demonstrates how data are shaped by social and political forces and the extent to which they influence our daily lives He reveals our data world to be one of potential danger but also of hope

Culture Control Critique Frida Beckman,2016-05-03 When revolution becomes a recurring theme in mainstream culture where do we look for the tools for a critical engagement with the present

Addressing the link between allegory and cultural critique in contemporary culture and resisting the thematic abstraction of sexy fast revolutionary content this book suggests that one way is to pay attention not so much to content as to form Culture Control Critique provides an analysis of how representations of political systems in contemporary mainstream culture may be understood not so much by looking at their apparent critical message but by shifting our critical gaze to an underlying and recurring political logic that controls the desire for political change Mountains and Megastructures Martin

Beattie,Christos Kakalis,Matthew Ozga-Lawn,2020-12-21 This book explores the shared qualities of mountains as naturally formed landscapes and of megastructures as manmade landscapes seeking to unravel how each can be understood as an open system of complex network relationships human natural and artificial By looking at mountains and megastructures in an interchangeable way the book negotiates the fixed boundaries of natural and artificial worlds to suggest a more complex relationship between landscape and architecture It suggests an ecological understanding of the interconnectedness of architecture and landscape and an entangled network of relations Urban colonialist fictional rural and historical landscapes are interwoven into this fabric that also involves discontinuities tensions and conflicts as parts of a system that is never linear but rather fluid and organic as driven by human endeavor
