Love Thy Neighbor A Story Of War

James Hillman

Love Thy Neighbor A Story Of War:

Love Thy Neighbor Peter Maass, 1996 What Michael Herr's *Dispatches* was to the Vietnam War *Love Thy Neighbor* is to the Bosnian War a brilliantly observed and deeply felt evocation of war by a writer who witnessed it The work immediately calls to mind Heller's *Catch 22* for its grasp of the absurdity of war and for its accurate presentation of the events Neil Sheehan's *A Bright Shining Lie* *Collision Course* John Norris, 2005-03-30 If Europe Russia and international bodies such as the U N and NATO end up playing a more prominent role in Iraq's immediate future all parties including the United States would do well to revisit the lessons learned during the U S led war in Kosovo in 1999 As a confrontation over Kosovo's final push for independence looms this book offers seminal insight into the negotiations that took place between the United States and Russia in an effort to set the terms for ending the conflict This study in brinksmanship and deception is an essential background for anyone trying to understand Russia's uneasy relations with the West America's relationship with Russia has become increasingly important as Washington has engaged Moscow as a critical but often prickly ally in the war on terror From smoky late night sessions at dachas outside of Moscow to meetings in the White House Situation Room Norris captures the feel of a war that repeatedly threatened to spin out of control He offers a vivid portrait of some of the larger than life characters involved in the conflict including U S president Bill Clinton General Wesley Clark Yugoslav president Slobodan Milosevic and Russian president Boris Yeltsin New information includes backstage efforts to open a direct negotiating channel between Milosevic and Washington at the height of the conflict The book reaches a dramatic crescendo against the backdrop of the war's final days when Russia unleashed a secret plan to push its forces into Kosovo ahead of NATO peacekeepers **Bonhoeffer's New Beginning** Andrew D. DeCort, 2018-09-15 Bonhoeffer's *New Beginning* investigates the ethics of making new beginnings after devastating moral rupture The work argues that new beginnings must be made in order to sustain the fundamental convictions that it is good to exist and that life in the world with others should be loved without exclusion Bonhoeffer's ethics of new beginning is set in conversation with the thought of four moral philosophers Friedrich Nietzsche Hannah Arendt Jonathan Glover and Jonathan Lear DeCort argues that Bonhoeffer's ethics of new beginning opens and energizes a more promising world affirming moral vision with radical hope for new beginnings vis vis the perceived absence of God in the face of devastation **Crimes of War** Gutman, David Rieff, Anthony Dworkin, 2007-11-13 This A to Z guide reveals through case studies definition of key terms and legal explanations what the public needs to know about war and the law *Democracy in Dark Times* Jeffrey C. Isaac, 2019-04-25 This is a truly illuminating and necessary book Jeffrey Isaac lucidly explores the moral and political dilemmas of this turbulent fin de siècle East and West His passionate approach is inspired by a genuine moral vision that sees liberal democracy as an unfinished continuously beleaguered project Hannah Arendt and Albert Camus I am sure would have been in full agreement with his line of reasoning Vladimir Tismaneanu University of Maryland College Park This will be the first of the many recent books on Hannah Arendt

to move beyond exegesis to engage in the kind of thinking about politics that she so valued The book brings an Arendtian voice back into contemporary politics Lisa Disch author of *Hannah Arendt and the Limits of Philosophy* Jeffrey Isaac s new book is essential reading for anyone who seeks to grapple seriously with the challenges confronting progressive democratic aspirations Ian Shapiro Yale University This book reveals Isaac to be a first rate essayist a bold critic who writes about key issues of politics and democracy with learning style and power Robert A Dahl Yale University Persuaded by Jeffrey Isaac s argument about dark times I nonetheless found these essays full of light strong lively provocative and even despite themselves encouraging There can t be a renewal of democratic theory and practice without the kind of critique that Isaac provides Michael Walzer Institute for Advanced Study *Writing the Yugoslav Wars* Dragana Obradovic,2016-11-14 In *Writing the Yugoslav Wars* Dragana Obradovi analyses how the Yugoslav wars of secession helped shape the region s literary culture Obradovi argues that the crisis of the country s disintegration posed an ethical challenge to self identified postmodernists This book takes a transnational approach to literatures of the former Yugoslavia that have been since the 1990s studied separately in line with geopolitical divisions This post socialist conflict was one of the moments that reshaped postmodernism for both local and international thinkers much in the same way modernism was shaped by World War I and the advent of mechanized warfare *All the Missing Souls* David Scheffer,2013-01-27 This title is Scheffer s account of the international gamble to prosecute those responsible for genocide war crimes and crimes against humanity and to redress some of the bloodiest human rights atrocities in our time **Presidential Machismo** Alexander DeConde,2000 A look at the expansion of executive authority in America and the influence of scholars journalists and presidents themselves **The Heart of Wisdom Teaching Approach** Robin Sampson,2005-04 Details the Bible based homeschool teaching approach for parents and discusses Christian education learning styles unit studies bible study and more *Literature Connections to World History* 712 Lynda G. Travel Narrative and the Ends of Modernity Stacy Burton,2014 Combining theoretical arguments with close reading this text traces how twentieth century writers have reinvented travel narrative for new purposes **Love Thy Neighbor as Thyself** Lenn E. Goodman,2008-01-02 In this book Lenn E Goodman writes about the commandment to love thy neighbor as thyself from the standpoint of Judaism a topic and perspective that have not often been joined before Goodman addresses two big questions What does that command ask of us and what is its basis Drawing extensively on Jewish sources both biblical and rabbinic he fleshes out the cultural context and historical shape taken on by this Levitical commandment In so doing he

restores the richness of its material content to this core articulation of our moral obligations which often threatens to sink into vacuity as a mere nostrum or rhetorical formula Goodman argues against the notion that we have this obligation simply because God demands it a position that too readily makes ethics seem arbitrary relativistic dogmatic authoritarian contingent or just unpalatable Rather he proposes that we learn much about how we ought to think about God from what we know about morals He shows that natural reasoning and appeals to scripture tradition and revelation reinforce one another in ethical deliberation For Goodman ethics and theology are not worlds apart connected only by a kind of narrow one way passage the two realms of discourse can and should inform each other Engaging the philosophers including Aristotle Spinoza and Kant and assembling three thousand years worth of Jewish textual masterpieces Goodman skillfully weaves his Gifford Lectures which he delivered in 2005 into an indispensable work *Madness Visible* Janine di Giovanni,2007-12-18 As a senior foreign correspondent for The Times of London Janine di Giovanni was a firsthand witness to the brutal and protracted break up of Yugoslavia With unflinching sensitivity *Madness Visible* follows the arc of the wars in the Balkans through the experience of those caught up in them soldiers numbed by the atrocities they commit women driven to despair by their life in paramilitary rape camps civilians di Giovanni among them caught in bombing raids of uncertain origin babies murdered in hate induced rage Di Giovanni s searing memoir examines the turmoil of the Balkans in acute detail and uncovers the motives of the leaders who created hell on earth it raises challenging questions about ethnic conflict and the responsibilities of foreign governments in times of mass murder Perceptive and compelling this unique work of reportage from the physical and psychological front lines makes the madness of war wholly visible Forgetting Children Born of War Charli Carpenter,2010-06-03 Excellent well documented thoughtful and comprehensive *Forgetting Children Born of War* challenges the prevailing discourse on human rights and humanitarian intervention ALISON BRYSK University of California Irvine

In the House of My Pilgrimage Donald Sheehan,2023-09-19 Don Sheehan s early life plagued by his father s alcoholic violence was at the same time blessed by the good stories this intelligent man read aloud to his children In his teens unhappy in school Don joined a street gang and then the Army Reserves where he found he had renounced violence On his eighteenth birthday happening upon his post library he walked straight to a book of Japanese poems It went in turn straight to his heart for eight hours He d come home at last The house of Don s pilgrimage encompasses a wide territory spiritual lyric scholarly usually all at once At our best what we can take from engaging these essays is a way of falling into the heart to embrace suffer and in Christ transfigure the world s ruining oppositions In doing so we fulfill what St Maximus the Confessor saw as our human calling to unify the polarities embedded in God s creation and thus make not only ourselves but all Creation whole

When States Fail Robert I. Rotberg,2010-07-28 Since 1990 more than 10 million people have been killed in the civil wars of failed states and hundreds of millions more have been deprived of fundamental rights The threat of terrorism has only heightened the problem posed by failed states *When States Fail* is the first book to examine how and why states decay

and what if anything can be done to prevent them from collapsing It defines and categorizes strong weak failing and collapsed nation states according to political social and economic criteria And it offers a comprehensive recipe for their reconstruction The book comprises fourteen essays by leading scholars and practitioners who help structure this disparate field of research provide useful empirical descriptions and offer policy recommendations Robert Rotberg s substantial opening chapter sets out a theory and taxonomy of state failure It is followed by two sets of chapters the first on the nature and correlates of failure the second on methods of preventing state failure and reconstructing those states that do fail Economic jump starting legal refurbishing elections the demobilizing of ex combatants and civil society are among the many topics discussed All of the essays are previously unpublished In addition to Rotberg the contributors include David Carment Christopher Clapham Nat J Colletta Jeffrey Herbst Nelson Kasfir Michael T Klare Markus Kostner Terrence Lyons Jens Meierhenrich Daniel N Posner Susan Rose Ackerman Donald R Snodgrass Nicolas van de Walle Jennifer A Widner and Ingo Wiederhofer
