The Circulation of Poetry in Manuscript in Early Modern England Arthur F. Marotti, 2021-05-26 This study examines the transmission and compilation of poetic texts through manuscripts from the late Elizabethan era through the mid-seventeenth century, paying attention to the distinctive material, social, and literary features of these documents. The study has two main focuses: the first, the particular social environments in which texts were compiled; and second, the presence within this system of a large body of usually anonymous, rare, or unique poems. Manuscripts from aristocratic, academic, and urban professional environments are examined in separate chapters that highlight particular collections. Two chapters consider the social networking within the university and London that facilitated the transmission within these environments and between them. Although the topic is addressed throughout the study, the place of rare or unique poems in manuscript collections is at the center of the final three chapters. The book as a whole argues that scholars need to pay more attention to the social life of texts in the period and to little-known or unknown rare or unique poems that represent a field of writing broader than that defined in a literary history based mainly on the products of print culture.

Like a Diamond in the Sky Elizabeth Brown, 2022-02-15 2023 Bank Street Best Children's Books of the Year An engaging introduction to this Romantic-era poet. Booklist: The story behind the classic poem and song "Twinkle, Twinkle, Little Star." "Twinkle, twinkle, little star, how I wonder what you are! Did you ever wonder who wrote that famous verse? In the days when most girls were brought up to run a home, Jane Taylor had a different kind of education in the countryside where she was inspired by nature and the stars and dreamed of becoming a writer. But then it was not considered proper for women to be writers. But Jane did write, and she never forgot her love for beauty of nature and the glow of stars or her desire to write for children. Her published poetry became universally known for generations to come. "Twinkle, twinkle, little star." This lyrical and luminous biography shines a light on the unsung poet who wrote the words of our most enduring lullaby and features stunning artwork reflecting the world, the stars, and the story behind the poem that we all know so well.

Romanticism and Modernity Thomas Pfau, Robert Mitchell, 2014-07-16 Though traditionally defined as a relatively brief time period, typically the half-century of 1780-1830, the Romantic era constitutes a crucial, indeed unique, transitional phase in what has come to be called modernity, for it was during these fifty years that myriad disciplinary

aesthetic economic and political changes long in the making accelerated dramatically Due in part to the increased velocity of change though most of modernity's essential master tropes such as secularization instrumental reason individual rights economic self interest emancipation system institution nation empire utopia and life were also subjected to incisive critical and methodological reflection and revaluation The chapters in this collection argue that Romanticism's marked ambivalence and resistance to decisive conceptualization arises precisely from the fact that Romantic authors simultaneously extended the project of European modernity while offering Romantic concepts as means for a sustained critical reflection on that very process Focusing especially on the topics of form both literary and organic secularization and its political correlates utopia and apocalypse and the question of how one narrates the arrival of modernity this collection collectively emphasizes the importance of understanding modernity through the lens of Romanticism rather than simply understanding Romanticism as part of modernity This book was previously published as a special issue of *European Romantic Review* [Walking Well](#) Michael J. described as confining or restrictive These imaginings coalesce into a carceral imaginary that determines the way we think about prisons just as social debates about punishment and criminals feed into the way carceral imaginary develops over time Examining not only English language prose fiction but also poetry and drama from the Middle Ages to postcolonial particularly African literature the book juxtaposes literary and non literary contexts and contrasts fictional and nonfictional representations of imprisonment and discussions about the prison as institution and experiential reality It comments on present day trends of punitivity and foregrounds the ethical dimensions of penal punishment The main argument concerns the continuity of carceral metaphors through the centuries despite historical developments that included major shifts in policy such as the invention of the penitentiary The study looks at selected carceral metaphors often from two complementary perspectives such as the home as prison or the prison as home or the factory as prison and the prison as factory The case studies present particularly relevant genres and texts that employ these metaphors often from a historical perspective that analyses development through different periods **The Publishers' Trade List Annual** ,1985
