Low Country:

Low Country Gullah Culture, Special Resource Study ,2003 **Lowcountry Hurricanes** Walter J. Fraser, Jr.,2009-03-01 At once sobering and thrilling this illustrated history recounts how for the past three hundred years hurricanes have altered lives and landscapes along the Georgia South Carolina seaboard A prime target for the fierce storms that develop in the Atlantic the region is especially vulnerable because of its shallow gradually sloping sea floor and low lying coastline With an eye on both natural and built environments Fraser s narrative ranges from the first documented storm in 1686 to recent times in describing how the lowcountry has endured some of the severest effects of wind and water This chronology of the most notable lowcountry storms is also a useful primer on the basics of hurricane dynamics Fraser tells how the 800 ton Rising Sun foundered in open water near Charles Town during the hurricane of 1700 About one hundred persons were aboard All perished Drawing on eyewitness accounts he describes the storm surge of an 1804 hurricane that submerged most of Tybee Island and swept over the fort on nearby Cockspur Island drowning soldiers and civilians Readers may have their own memories of Hurricanes Andrew Opal and Hugo Although hurricanes frequently lead to significant loss of life Fraser recounts numerous gripping instances of survival and rescue at sea and ashore The author smoothly weaves the lowcountry s long social political and economic history with firsthand reports and data accumulated by the National Weather Service and the National Oceanic and Atmospheric Administration Generously illustrated with contemporary and historical photographs this is a readable and informative resource on one of nature s most awesome forces **Hoppin' John's**

African American Life in the Georgia Lowcountry Philip Morgan, 2011-11-01 The lush landscape and subtropical climate of the Georgia coast only enhance the air of mystery enveloping some of its inhabitants people who owe in some ways as much to Africa as to America As the ten previously unpublished essays in this volume examine various aspects of Georgia lowcountry life they often engage a central dilemma the region's physical and cultural remoteness helps to preserve the venerable ways of its black inhabitants but it can also marginalize the vital place of lowcountry blacks in the Atlantic World The essays which range in coverage from the founding of the Georgia colony in the early 1700s through the present era explore a range of topics all within the larger context of the Atlantic world Included are essays on the double edged freedom that the American Revolution made possible to black women the lowcountry as site of the largest gathering of African Muslims in early North America and the coexisting worlds of Christianity and conjuring in coastal Georgia and the links with variations to African practices A number of fascinating memorable characters emerge among them the defiant Mustapha Shaw who felt entitled to land on Ossabaw Island and resisted its seizure by whites only to become embroiled in struggles with other blacks Betty the slave woman who in the spirit of the American Revolution presented a list of grievances to her master and S Quash the Arabic speaking Muslim who arrived on one of the last legal transatlantic slavers and became a head man on a North Carolina plantation Published in association with the Georgia Humanities Council

Lowcountry Time and Tide James H. Tuten, 2012-11-26 A thorough account of rice culture's final decades and of its modern legacy In mapping the slow decline of the rice kingdom across the half century following the Civil War James H Tuten offers a provocative new vision of the forces agricultural environmental economic cultural and climatic stacked against planters laborers and millers struggling to perpetuate their once lucrative industry through the challenging postbellum years and into the hardscrabble twentieth century Concentrating his study on the vast rice plantations of the Heyward Middleton and Elliott families of South Carolina Tuten narrates the ways in which rice producers both the former grandees of the antebellum period and their newly freed slaves sought to revive rice production Both groups had much invested in the economic recovery of rice culture during Reconstruction and the beginning decades of the twentieth century Despite all disadvantages rice planting retained a perceived cultural mystique that led many to struggle with its farming long after the profits withered away Planters tried a host of innovations including labor contracts with former slaves experiments in mechanization consolidation of rice fields and marketing cooperatives in their efforts to rekindle profits but these attempts were thwarted by the insurmountable challenges of the postwar economy and a series of hurricanes that destroyed crops and the infrastructure necessary to sustain planting Taken together these obstacles ultimately sounded the death knell for the rice kingdom The study opens with an overview of the history of rice culture in South Carolina through the Reconstruction era and then focuses on the industry's manifestations and decline from 1877 to 1930 Tuten offers a close study of changes in

agricultural techniques and tools during the period and demonstrates how adaptive and progressive rice planters became despite their conservative reputations He also explores the cultural history of rice both as a foodway and a symbol of wealth in the lowcountry used on currency and bedposts Tuten concludes with a thorough treatment of the lasting legacy of rice culture especially in terms of the environment the continuation of rice foodways and iconography and the role of rice and rice plantations in the modern tourism industry
