Low Life and Moral Improvement in Mid-Victorian England; Liverpool Through the Journalism of Hugh Shimmin, Edited by John K John K. Walton, 1991 *Crime Control and Everyday Life in the Victorian City* David Churchill, 2017-12-29 The history of modern crime control is usually presented as a narrative of how the state wrested control over the governance of crime from the civilian public Most accounts trace the decline of a participatory discretionary culture of crime control in the early modern era and its replacement by a centralized bureaucratic system of responding to offending The formation of the new professional police forces in the nineteenth century is central to this narrative henceforth it is claimed the priorities of criminal justice were to be set by the state as ordinary people lost what authority they had once exercised over dealing with offenders This book challenges this established view and presents a fundamental reinterpretation of changes to crime control in the age of the new police It breaks new ground by providing a highly detailed empirical analysis of everyday crime control in Victorian

provincial cities revealing the tremendous activity which ordinary people displayed in responding to crime alongside a rich survey of police organization and policing in practice With unique conceptual clarity it seeks to reorient modern criminal justice history away from its established preoccupation with state systems of policing and punishment and move towards a more nuanced analysis of the governance of crime More widely the book provides a unique and valuable vantage point from which to rethink the role of civil society and the state in modern governance the nature of agency and authority in Victorian England and the historical antecedents of pluralized modes of crime control which characterize contemporary society

that gave Liverpool a reputation for being the most crime ridden place in the country in the nineteenth century *Living in sin* Ginger Frost,2013-07-19 *Living in sin* is the first book length study of cohabitation in nineteenth century England based on research into the lives of hundreds of couples Common law marriages did not have any legal basis so the Victorian courts had to wrestle with unions that resembled marriage in every way yet did not meet its most basic requirements The majority of those who lived in irregular unions did so because they could not marry legally Others chose not to marry from indifference from class differences or because they dissented from marriage for philosophical reasons This book looks at each motivation in turn highlighting class gender and generational differences as well as the reactions of wider kin and community Frost shows how these couples slowly widened the definition of legal marriage preparing the way for the more substantial changes of the twentieth century making this a valuable resource for all those interested in Gender and Social History

Nostalgic Postmodernism Christian Gutleben,2021-10-18 Why do so many contemporary British novels revert to the Victorian tradition in order to find a new source of inspiration What does it mean from an ideological point of view to build a modern form of art by resurrecting and recycling an art of the past From a formal point of view what are the aesthetic priorities established by these postmodernist novels Those are the main questions tackled by this study intended for anybody interested in the aesthetic and ideological evolution of very recent fiction What this analysis ultimately proposes is a reevaluation and a redefinition of postmodernism such as it is illustrated by the British novels which paradoxically both praise and mock honour and debunk imitate and subvert their Victorian models Unashamedly opportunistic and deliberately exploiting the spirit of the time this late form of postmodernism cannibalizes and reshapes not only Victorianism but all the other previous aesthetic movements including early postmodernism *The Victorians and Sport* Mike Huggins,2004-12-17

Many of the sports that have spread across the world from athletics and boxing to golf and tennis had their origins in nineteenth century Britain They were exported around the world by the British Empire and Britain s influence in the world led to many of its sports being adopted in other countries Americans however liked to show their independence by rejecting cricket for baseball *The Victorians and Sport* is a highly readable account of the role sport played in both Victorian Britain and its empire Major sports attracted mass followings and were widely reported in the press Great sporting celebrities such as the cricketer Dr W G Grace were the best known people in the country and sporting rivalries provoked strong loyalties and passionate emotions Mike Huggins provides fascinating details of individual sports and sportsmen He also shows how sport was an important part of society and of many people s lives **Carceral Mobilities** Jennifer Turner, Kimberley

Peters,2016-12-01 Mobilities research is now centre stage in the social sciences with wide ranging work that considers the politics underscoring the movements of people and objects critically examining a world that is ever on the move At first glance the words carceral and mobilities seem to sit uneasily together This book challenges the assumption that carceral life is characterised by a lack of movement *Carceral Mobilities* brings together contributions that speak to contemporary debates

across carceral studies and mobilities research offering fresh insights to both areas by identifying and unpicking the manifold mobilities that shape and are shaped by carceral regimes It features four sections that move the reader through the varying typologies of motion underscoring carceral life tension circulation distribution and transition Each mobilities led section seeks to explore the politics encapsulated in specific regimes of carceral movement With contributions from leading scholars and a range of international examples this book provides an authoritative voice on carceral mobilities from a variety of perspectives including criminology sociology history cultural theory human geography and urban planning This book offers a first port of call for those examining spaces of detention asylum imprisonment and containment who are increasingly interested in questions of movement in relation to the management control and confinement of populations
