## **Lowdown On Earthworms:**

**Lowdown on Earthworms** Norma Dixon,2005 Discusses the different types of species anatomy habitats and behavior of earthworms     **The Lowdown on Earthworms** Norma Dixon,2003-03-01 What has no eyes but can see No ears but can hear No legs but can still travel quite easily Give up The answer s an earthworm You barely hear them and rarely see them but earthworms are among the most important creatures on the planet They may seem like just more creepy crawlies but without earthworms working hard on our dirt we d have a very difficult time growing our flowers our trees and even our food Filled with interesting easy to understand facts and humorous illustrations The Lowdown on Earthworms is the perfect introduction to these unsung heroes From the myth that cutting a worm in half will create two worms to their unique reproductive capabilities all the need to know facts are here Author Norma Dixon also provides her readers with several projects and activities to better acquaint us with earthworms and all the great work they do Children can make a worm watching terrarium a worm composter and even a worm listening device of their very own Scattered throughout the book Tina Holdcroft s diagrams and line drawings are sure to bring both insight and humor to this fun and unique look at the illustrious earthworm     **Horse Hoeing Husbandry, Fifth Edition ,     Agricultural Research ,1995     The Aliens**

**Among Us** Leslie Anthony,2017-01-01 A thoughtful accessible look at the rapidly growing issue of invasive plants animals and microbes around the globe with a focus on the scientific issues and ecological health and other challenges From an award winning adventure and science journalist comes an eye opening exploration of a burgeoning environmental phenomenon and the science coalescing around it Leslie Anthony leads readers on adventures physical and philosophical as he explores how and why invasive species are hijacking ecosystems around the globe Weaving science travel history and humor with diverse examples to chart and describe the phases of species invasion and human response Anthony introduces field researchers and managers who seek to understand the biological social and economic aspects of this complex issue and whose work collectively suggests the emergence of a global shadow economy centered on invasives With tales of pythons in the Everglades Asian carp and lamprey in the Great Lakes Japanese knotweed seemingly everywhere and the invasive organisms we don t see pathogens and microbes such as the Zika virus this book rivets attention on a new ecological reality

**Beginner's Guide to Earthworm Farming** Mary Murphy,2017-08-02 If you are concerned about the health of our planet then turn your attention to what lies under your feet Working in the soil below are creatures that play a pivotal role in producing the food we eat and impacting the quality of our food crops Earthworms were described by Darwin as the most important species on our planet and by Aristotle as the intestines of the earth Beginner s Guide to Earthworm Farming provides all the information you need on these remarkable creatures and how important they are to the functioning of life on Earth The content includes how earthworms benefit the environment your garden and the economy the role earthworms play in reducing carbon emissions and removing heavy metals and toxins from our soil how you can set up your own earthworm

farm or compost heap recycling how waste negatively impacts water and the environment how to effectively reduce kitchen waste and much more      Composting, Grade 5 Carla C. Johnson, Janet B. Walton, Erin E. Peters-Burton, 2023-08-15 What if you could challenge your fifth grade students to investigate the role of composting in solid waste management With this volume in the STEM Road Map Curriculum Series you can Composting outlines a journey that will steer your students toward authentic problem solving while grounding them in integrated STEM disciplines Like the other volumes in the series this book is designed to meet the growing need to infuse real world learning into K 12 classrooms This interdisciplinary four lesson module uses project and problem based learning to help students use the engineering design process EDP to design and create prototypes of compost systems and build a full scale composting system for school use Students will synthesize their learning about biotic and abiotic factors decomposition and engineering design as they learn about various types of compost systems create their own portable compost bins and create materials for a composting publicity campaign at their school To support this goal students will do the following Identify and explain interdependent relationships in ecosystems Compare and contrast several ecosystems Describe how compost systems are designed and constructed and apply this understanding to creating prototypes of various compost systems Understand the concept of scale and apply this understanding to create scaled models of compost systems Apply their understanding of composting compost systems and the EDP to create a full scale compost system for the school Measure various characteristics of compost The STEM Road Map Curriculum Series is anchored in the Next Generation Science Standards the Common Core State Standards and the Framework for 21st Century Learning In depth and flexible Composting can be used as a whole unit or in part to meet the needs of districts schools and teachers who are charting a course toward an integrated STEM approach      **How to STEM** Carol Smallwood, Vera Gubnitskaia, 2013-12-05 During the past few years groups like the President s Council of Advisors on Science and Technology Center for Education have been placing great emphasis on the significance of STEM science technology engineering and math education In brief the US is seen as falling behind the rest of the world in science and technology education In response the curricula have been revised in many educational institutions and school districts across the country It is clear that for STEM to be successful other community organizations most particularly libraries need to be closely involved in the process Library staff realize the importance of getting involved in STEM education but many have difficulty finding comprehensive information that will help them plan and successfully implement STEM direction in their organization This book is designed to meet that need It is timely and relevant How to STEM Science Technology Engineering and Math Education in Libraries is by and for libraries who are involved in contributing efforts into advancing these subjects It is organized in 9 parts including funding grant writing community partnerships outreach research and examples of specific programming activities Authors are drawn from the professional staffs of educational institutions libraries and non profit organizations such as science museums The book contains eight parts each emphasizing a different aspect of how to succeed

with STEM Part 1 emphasizes how hands on activities that are both fun and educational can be used to further STEM awareness Parts 2 and 3 contain chapters on the uniting of STEM with Information Literacy Innovative collection development ideas are discussed in Part 4 and Part 5 focuses on research and publishing Outreach is the theme of Part 6 and the programs described in these chapters offer an array of ways to connect with students of all ages The final section of How to STEM Science Technology Engineering and Math Education in Libraries addresses the funding of these programs Librarians of all types will be pleased to discover easy to implement suggestions for collaborative efforts many rich and diverse programming ideas strategies for improving reference services and library instruction to speakers of English as a second language marketing and promotional tips designed to welcome multicultural patrons into the library and much more

**Gotcha for Guys!** Kathleen A. Baxter, Marcia Agness Kochel, 2006-11-30 Research indicates boys are interested in reading nonfiction materials yet most children's librarians prefer to booktalk fiction Offering citations for more than 1 100 books Gotcha for Guys deals specifically with books to pique the interest of middle grade boys A series of booktalks are grouped within chapters with like titles such as Creepy Crawly Creatures Disasters and Unsolved Mysteries Action and Innovation and All Things Gross Complete booktalks are presented in a beginning section of chapters 1 9 A second section in each of these chapters contains short annotations and talks for other books of interest and a third section offers lists of well reviewed titles to consider for boys The book is enhanced with book cover art and reproducible lists for teachers and librarians
