Lsd Personality And Experience:

LSD: Personality and Experience Harriet Linton Barr,1972 Fifty Years of LSD: Current Status and Perspectives of Hallucinogens D. Ladewig,A. Pletscher,1994-08-15 This volume is the proceedings of the Symposium of the Swiss Academy of Medical Sciences held in Lugano Agno in Switzerland in September 1993 It includes chapters in pharmacological psychopathological and clinical aspects of LSD and hallucinogenic drug use in medicine in addition to a personal historical account of the discovery of LSD by Professor Albert Hofmann as well as social and cultural aspects of LSD Dimensions of Mystical Experiences Ralph W. Hood Jr.,2021-10-25 **10 Years of Neuropharmacology** Nicholas Barnes,2020-07-08 I am delighted to write a preface for this Celebratory eBook published in the Specialty Section Neuropharmacology within the journal Frontiers in Pharmacology The eBook delivers a compendium of high impact papers published previously in the journal over the last ten years at the time of writing this collection of 20 papers has been viewed 700k times with over 75k downloads Clearly this Section is delivering a useful resource to the scientific and medical research community The scope of the Specialty Section Neuropharmacology is deliberately broad We encourage submission of high quality and impactful papers in the field of neuropharmacology along the full length of the translational escalator from cellular and molecular investigations to clinical trials I believe this is a real strength of the Section and helps attract a diverse readership that builds the stakeholder network to promote further engagement of the Section with the research community I have no doubt that this has contributed to the growth of the Section with submissions and accepted papers displaying 10 year 2009 2019 compound annual growth rates CAGRs of 58% and 78% respectively Vitaly high quality scientific rigour and impact are fundamental to a paper being accepted and this inevitably leads to a relatively high level of rejection but the transparency of the review process means a fair decision is reached Essential for the handling and considered review of submitted papers the Specialty Section Neuropharmacology has a dynamic cohort of Associate Editors that have been selected carefully 81 at the time of writing that represent the full spectrum of neuropharmacology as well as being widespread geographically around the globe The Associate Editors are supported by nearly 500 Review Editors that ensures informed review indeed the relatively open and interactive review process often adds considerably to the accepted version of the paper As we celebrate the success of Frontiers in Pharmacology and the Specialty Section Neuropharmacology with this eBook we must also recognise and be thankful for the hard work and dedication of those in the Editorial Office their enthusiasm and willingness to help is outstanding and they form an integral component of the overall team that delivers the success I look forward to further success for the Specialty Section Neuropharmacology Happy reading Professor Nicholas M Barnes FBPhS Specialty Chief Editor Neuropharmacology **The Ecstatic Imagination** Daniel Merkur,1998-01-01 Presents the first comprehensive survey of the varieties of psychedelic experience since 1975 Psychopharmacology Abstracts ,1973 **Psychedelics** Erika Dyck,2024-04-16 A gorgeously illustrated journey through psychedelics and their global history that

explores how psychedelic visions have inspired and given meaning to humans throughout time Interest in psychedelics has grown considerably in recent years one might even say psychedelics are experiencing a renaissance But these mind altering plants have always been with us They have a rich and controversial history in fact plumbed from the depths of ancient Greek culture infused with Christian symbols of sacrament enriched by Buddhist philosophies protected through Indigenous ceremonies and by the latter part of the twentieth century catapulted into cultural consciousness through science music posters blotter art and fashion In *Psychedelics A Visual Odyssey* Erika Dyck takes readers on an epic visual trip through some of the diverse ways that our fascination with psychedelics have been imagined throughout history Blending academic rigor with rich imagery from around the globe *Psychedelics* goes beyond the expected terrain of describing hallucinations It reveals not only how psychedelic plants have been illustrated and understood but also how these plants and chemical synthetics have inspired visual representations of health fear peace colonial resistance creativity and more A stunningly beautiful and comprehensive deep dive into the world of psychedelics *Psychedelics A Visual Odyssey* will inspire everyone from the curious general reader to the seasoned psychonaut

Feeling Good and Doing Better

Thomas H. Murray, Willard Gaylin, Ruth Macklin, 2012-12-06 The place of drugs in American society is a problem more apt to

evoke diatribe than dialog With the support of the National Science Foundation's program on Ethics and Values in Science and Technology and the National Endowment for the Humanities program on Science Technology and Human Values The Hastings Center was able to sponsor such dialog as part of a major research into the ethics of drug use that spanned two years We assembled a Research Group from leaders in the scientific medical legal and policy communities leavened with experts in applied ethics and brought them together several times a year to discuss the moral legal and social issues posed by nontherapeutic drug use At times we also called on other experts when we needed certain issues clarified We did not try to reach a consensus yet several broad areas of agreement emerged That our society's response to nontherapeutic drug use has been irrational and inconsistent that our attempts at control have been clumsy and ill informed that many complex moral values are entwined in the debate and cannot be reduced to a simple conflict between individual liberty and state paternalism Of course each paper should be read as the statement of that particular author or authors The views expressed in this book do not necessarily represent the views of The Hastings Center the National Science Foundation or the National Endowment for the Humanities
