Lucifer Magazine 1930 Volume4:

A History of American Magazines, Volume V: 1905-1930 Frank Luther Mott, 1968-01-02 In 1939 Frank Luther Mott received a Pulitzer Prize for Volumes II and III of his *History of American Magazines*. In 1958 he was awarded the Bancroft Prize for Volume IV. He was at work on Volume V of the projected six volume history when he died in October 1964. He had at that time written the sketches of the twenty one magazines that appear in this volume. These magazines flourished during the period 1905-1930 but their biographies are continued throughout their entire lifespan in the case of the ten still published to recent years. Mott's daughter Mildred Mott Wedel has prepared this volume for publication and provided notes on changes since her father's death. No one has attempted to write the general historical chapters the author provided in the earlier volumes but which were not yet written for this last volume. A delightful autobiographical essay by the author has been included and there is a detailed cumulative index to the entire set of this monumental work. The period 1905-1930 witnessed the most flamboyant and fruitful literary activity that had yet occurred in America. In his sketches Mott traces the editorial partnership of H. L. Mencken and George Jean Nathan first on *The Smart Set* and then in the pages of *The American Mercury*. He treats *The New Republic*, the liberal magazine founded in 1914 by Herbert Croly and Willard Straight, the conservative *Freeman* and *Better Homes and Gardens*, the first magazine to achieve a circulation of one million without the aid of fiction or fashions. Other giants of magazine history are here: we see serious, shaggy, solid, pragmatic, self-contained Henry Luce propel a national magazine called *Time* toward its remarkable prosperity. In addition to those already mentioned, the reader will find accounts of *The Midland*, *The South Atlantic Quarterly*, *The Little Review*, *Poetry*, *The Fugitive*, *Everybody's*, *Appleton's Booklovers Magazine*, *Current History*, *Editor Publisher*, *The Golden Book Magazine*, *Good Housekeeping*, *Hampton's Broadway Magazine*, *House Beautiful*, *Success* and *The Yale Review*. **The New Cambridge Bibliography of English Literature:**

Volume 4, 1900-1950 George Watson, I. R. Willison, 1972-12-07 More than fifty specialists have contributed to this new edition of volume 4 of *The Cambridge Bibliography of English Literature*. The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis, articulation and coordination that it has been retained in all its essentials for the new edition. The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to reshape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries.

The New Cambridge Bibliography of English Literature: 1900-1950 George Watson, 1969 *Bulletin of Bibliography and Dramatic Index*, 1930 **Contesting Earth's History in Transatlantic Literary Culture, 1860-1935** Richard Fallon, 2025-02-14 By the mid nineteenth century geologists and palaeontologists had reconstructed an authoritative narrative of Earth's deep history from the planet's molten origins to the rise of humanity. Many figures in transatlantic science across subsequent decades however had problems with this narrative: it was too secular, inhuman and evolutionary or

controlled too exclusively by elite scientists Speaking from palaeoscience's unevenly professionalized and controversy racked borders Christian fundamentalists charismatic psychics and respected scholars alike voiced their objections Until now no study has brought their work together for detailed comparative analysis Spanning from the 1860s to the interwar decades *Contesting Earth's History* examines the fascinating stories of five significant examples of fringe or borderline palaeoscience old and young earth creationism hollow earth theory clairvoyant time travel and sunken continent catastrophism Innovatively combining methods from literary studies with the history of science this book attends not just to the conceptual content of these strange sciences but also to their proponents communication of truth claims through diverse genres ranging from the scientific textbook and the technical monograph to the lost world romance and the epic poem By paying close attention to the hitherto overlooked textual forms and literary strategies of these works of pseudoscience this volume throws into relief the variant conceptions of audience evidence and method that jostled and competed in wider scientific culture during this period It also demonstrates that for all their diversity authors of borderline palaeoscience shared the desire to shift the balance of power creating textual spaces where exclusive hierarchies of scientific expertise could be levelled away These conjurors of lost worlds often captivated wide audiences and many of their bizarre astonishing and iconoclastic ideas remain with us to this day Some even inspired early science fiction by the likes of H P Lovecraft and Edgar Rice Burroughs Hijacking geologists and palaeontologists longstanding effort at making the prehistoric past visible authors on the borderlines of palaeoscience asserted their right to scientific authority and encouraged readers to gaze into time's abyss with bold new eyes

analysis of the rise of Nazi extremism how such thinking gained popularity and why it is vital to fight burgeoning extremist
movements today How could the SS have committed the crimes they did How were the killers who shot Jews at close
quarters able to perpetrate this horror Why did commandants of concentration and death camps willingly and often
enthusiastically oversee mass murder How could ordinary Germans have tolerated the removal of the Jews In *The Nazi Mind*
bestselling historian Laurence Rees seeks answers to some of the most perplexing questions surrounding the Second World
War and the Holocaust Ultimately he delves into the darkness to explain how and why these people were capable of
committing the worst crimes in the history of the world From the fringe politics of the 1920s to the electoral triumph and
mass mobilization of the 1930s and from the Holocaust through to the regime s eventual demise Rees charts the rise and fall
of Nazi mentalities including the conditions that allowed such a violent ideology to flourish and the sophisticated propaganda
effort that sustained it Using previously unpublished testimony from former Nazis and those who grew up in the Nazi system
and in depth insights based on the latest research of psychologists *The Nazi Mind* brings fresh understanding to one of the
