Ludic Feminism And After Postmodernism Desire And Labor In Late Capitalism:

Ludic Feminism and After Teresa L. Ebert, 1996 A provocative and controversial challenge to postmodern academic feminism
John Barth and Postmodernism Berndt Clavier, 2007 John Barth's eminence as a postmodernist is indisputable. However, much of the criticism dealing with his work is prompted by his own theories of exhaustion and subsequent replenishment, leaving his writing relatively untouched by theories of postmodernism in general. This book changes that by focusing on the relationship between Barth's aesthetic and the ideology critique of the historical avant-gardes, which were the first to mobilize art against itself and its institutional practices and demands. Examining Barth's metafictional parodies in the light of theories of space and subjectivity, Clavier engages the question of ideology critique in postmodernism by offering the montage as a possible model for understanding Barth's fiction. In such a light, postmodernism may well be perceived as a mimesis of reality, particularly a recognition of the collective nature of self and the world.

Critical Keywords in Literary and Cultural Theory Julian Wolfreys, 2017-03-14 This book is an invaluable reference guide for students of literary and cultural studies, which introduces over forty of the complex terms, motifs, and concepts in literary and cultural theory today. Critical Keywords in Literary and Cultural Theory gives students a brief introduction to each concept, together with short quotations from the work of key thinkers and critics to stimulate discussion and guide genuine comprehension. It supplies helpful glosses and annotations for each term, concept, or keyword, which is discussed. It offers reflective, practical questions at the end of each entry to direct the student to consider a particular aspect of the quotations and the concept they address. It provides explanatory notes and bibliographies to aid further research. This essential volume is ideal as both a dip-in reference book and a guide to literary theory for practical classroom use.
Postcolonial Perspectives on Postcommunism in Central and Eastern Europe Dorota Kołodziejczyk, Cristina Șandru, 2017-10-02 A quarter of a century after the fall of the Berlin Wall and from the vantage point of a post-Cold War globalised world, there is a need to address the relative neglect of postcommunism in analysis of postcolonial and neo-colonial configurations of power and influence. This book proposes new critical perspectives on several themes and concepts that have emerged within or been propagated by postcolonial studies. These themes include structures of exclusion/inclusion, formations of nationalism, structures of othering and representations of difference, forms and historical realisations of anti-colonial/anti-imperial struggle, the experience of trauma, issues of collective memory, amnesia, and the re-writing of history, resistance as a complex of cultural practices and concepts such as alterity, ambivalence, self-colonisation, dislocation, hegemonic discourse, minority and subaltern cultures. Taken together, this volume suggests that some of the methodological instruments of postcolonial criticism can be fruitfully applied to the study of postcommunist cultures and conversely that the experience of the Soviet brand of imperialist rule in the form of communism in East Central Europe can function as an ideological moderator in Third World-oriented Marxist-inspired postcolonial discourses. This book was originally published as a special issue of the Journal of Postcolonial

Garrett, 2002 In *Who's Afraid of Women's Studies* the authors ask why there persists a fear of feminism and women's studies in the academy Rogers and Garrett remind us that this field came into being as the result of women's practical efforts of advocacy and activism to represent marginalized excluded and silenced voices They explain the complex relationship between feminism women's studies and their deradicalized offspring gender studies Six broad topics that have dominated the field over the past twenty five years are examined in individual chapters girls and women's bodies anger and desires sexuality identity politics insider backlash and feminist methods The authors challenge women and men alike to reevaluate the concepts and analytical tools available in women's studies that are so uniquely oriented to understanding women's everyday lived experiences They demonstrate how its rich historical and social analyses are the basis for a passionate scholarship one that builds bridges between theory and practice to transform communities women's organizations and social movements This new book will be a stimulating overview of women's studies gender studies and feminist theory as well as a concise introduction to supplement standard texts or anthologies

The Palgrave Handbook of Critical International Political Economy Alan Cafruny, Leila Simona Talani, Gonzalo Pozo Martin, 2016-07-05 Challenging the assumptions of mainstream International Political Economy IPE this Handbook demonstrates the considerable value of critical theory to the discipline through a series of cutting edge studies The field of IPE has always had an inbuilt vocation within Historical Materialism with an explicit ambition to make sense from a critical standpoint of the capitalist mode of production as a world system of sometimes paradoxically and sometimes smoothly overlapping states and markets Having spearheaded the growth of a vigorous critical scholarship in the 1960s and 1970s however Marxism and neo Gramscian

approaches became increasingly marginalized over the course of the 1980s The authors respond to the exposure of limits to mainstream contemporary scholarship in the wake of the onset of the Global Financial Crisis and provide a comprehensive overview of the field of Critical International Political Economy Problematizing socioeconomic and political structures and considering these as potentially transitory and subject to change the contributors aim not simply to understand a world of conflict but furthermore to uncover the ways in which purportedly objective analyses reflect the interests of those in positions of privilege and power

brought fundamental often traumatic changes for the people in eastern Germany Women as a group were arguably more deeply affected by the changes than any other and in one area in particular that of work which had far reaching effects on them and their families economic situation Rachel Alsop critically examines the processes behind women s changing relationship to the labor market in eastern Germany following the collapse of state socialism and the transition to a market economy By the 1980s women made up virtually half of the East German work force The collapse of the GDR transformed the field of work drastically diminishing the general demand for labor Yet while economic and political restructuring reduced the volume of both male and female employment it was women who bore the brunt of unemployment In the immediate transitional period a re masculinization of the workforce was evident with women constituting the large part of the unemployed Using an extensive range of both quantitative and qualitative data the author explores the gender dynamics of the social economic and political restructuring of eastern Germany thereby producing an important new context in which to examine contemporary debates on gender and work
