Ludlow And Tenbury Wells:

Ludlow and Tenbury Wells Ordnance Survey, Ordnance Survey Staff, 2000-12 *Ludlow and Tenbury Wells* Ordnance Survey Staff, 1999-05-01 **Ludlow and Tenbury Wells** Great Britain. Ordnance Survey, Ordnance Survey Staff, 1999-02-01

Hereford Locomotive Shed Steve Bartlett, 2017-10-30 Hereford Locomotive Shed is the first in a series of in depth studies to look closely at the changing engine allocations and operational responsibilities of motive power depots during the latter days of steam In Herefords case this was a varied mixture of main line passenger freight trip working branch line passenger station pilot duties and yard shunting Unusually the latter remained a steam preserve until months before depot closure in November 1964 Not forgotten are the depots small sub sheds which had varying responsibilities over the years as the district boundaries changed at Ledbury Leominster Ross on Wye and Craven Arms Their very different duties were inevitably a reflection of a bygone age and an all too rapidly changing future The author personally recorded the Hereford railway scene from the late 1950s until depot closure He made shed visits several times a week and at other times observed the ever changing locomotive scene from the elevated Bulmers Sidewalk behind the depots coaling stage Details carefully kept from those far off days has proved a valuable cross reference with present day research into Herefords role from official records at The National Archives Kew and other railway research sources Having spent almost forty years working in the industry the author is able to sympathetically unravel and interpret the story of this hard working mixed traffic depot Hereford is strategically located on the North West route from South Wales and the West of England to the North West as well as being an important junction for Worcester the West Midlands Branch lines to Brecon and Gloucester radiated from this Border Counties railway junction and freight trips radiated out to serve the surrounding area All of this made Hereford a fascinating rail centre and a locomotive shed worthy of its story for posterity which is meticulously recorded in this book

Shropshire Parish Registers Shropshire Parish Register Society, 1915 *The World's First Railway System* Mark Casson, 2009-09-10 The British railway network was a monument to Victorian private enterprise Its masterpieces of civil engineering were emulated around the world But its performance was controversial praised for promoting a high density of lines it was also criticised for wasteful duplication of routes This is the first history of the British railway system written from a modern economic perspective It uses counterfactual analysis to construct an alternative network to represent the most efficient alternative rail network that could have been constructed given what was known at the time the first time this has been done It reveals how weaknesses in regulation and defects in government policy resulted in enormous inefficiency in the Victorian system that Britain lives with today British railway companies developed into powerful regional monopolies which then contested each other s territories When denied access to existing lines in rival territories they built duplicate lines instead Plans for an integrated national system sponsored by William Gladstone were blocked by Members of Parliament because of a perceived conflict with the local interests they represented Each town wanted more railways than its neighbours

and so too many lines were built The costs of these surplus lines led ultimately to higher fares and freight charges which impaired the performance of the economy The book will be the definitive source of reference for those interested in the economic history of the British railway system It makes use of a major new historical source deposited railway plans integrates transport and local history through its regional analysis of the railway system and provides a comprehensive classified bibliography More Than a Sauce Emma Kay,2018-03-15 This book explores the rich culinary heritage of Worcestershire through the history of its food and drink *Early Travels in Palestine* Thomas Wright,2024-01-01 Early Travels in Palestine by using Thomas Wright gives a fascinating glimpse into the writer s explorations of the Holy Land all through the 19th century The book details Wright s experiences and observations as he navigates the ancient landscapes of Palestine A travelogue of cultural and ancient significance Wright s narrative gives readers with a bright portrayal of the location blending personal encounters with the broader ancient context Wright s eager eye for detail and his appreciation for the archaeological and architectural marvels of Palestine shine via in the pages of this paintings As he traverses ancient cities and sacred web sites the author weaves collectively a narrative this is each informative and reflective The book no longer only serves as a journey account however additionally delves into the complexities of the political and social dynamics of the time Early Travels in Palestine is a testament to Wright s intellectual curiosity and his dedication to documenting the landscapes and cultures he encounters The textual content is richly adorned with descriptions of biblical websites local customs and the author s interactions with the various communities inhabiting the location **Hillwalking in Shropshire** John Gillham,2024-01-12 A guidebook to 32 day walks in Shropshire exploring the hills outcrops rivers and towns of this beautiful county The routes are graded according to difficulty ensuring there is something for all levels of fitness and experience and the majority are located within the Shropshire Hills National Landscape The walks range from 5 22km 3 14 miles in length and can be completed in between 2 and 8 hours They are arranged geographically mostly falling in the area bounded by Shrewsbury Bridgnorth Ludlow and Welshpool 1 50 000 OS maps reproduced at 1 40 000 for greater clarity GPX files available to download Details of terrain refreshments and public transport for each walk Information given on local geology and wildlife Includes accommodation listings arranged by area Easy access from Birmingham Oswestry and Manchester **AA Walks Through Britain's History** Automobile Association (Great Britain),2001 Experience the abundant history of Britain firsthand with this scenic thorough and altogether superlative guide Walking the Shropshire Way John Gillham,2020-04-02 A guidebook to walking the Shropshire Way Covering 290km 182 miles this long distance circular trek exploring the area around Shrewsbury can be hiked in around 2 weeks and is suitable for all reasonably fit walkers The route is described in 15 stages each between 18 and 24km 11 15 miles in length and comprises two loops that can each be walked separately in a week or combined to form a 2 week trek The challenging 2 day Stretton Skyline Walk 32km 20 miles is also included 1 50 000 OS maps included for each stage GPX files available to download Detailed
