**Ludovico Carracci** Lodovico Carracci, Gail Feigenbaum, 1994      *The Drawings of Ludovico Carracci* Babette Bohn, *Ludovico Carracci and the Art of Drawing* Babette Bohn, 2004 The primary goal of Ludovico Carracci and the Art of Drawing is to provide a ground breaking model for a new kind of book on Italian drawings In addition to covering the traditional scholarly terrain of chronology style and connoisseurship this book utilizes up to date art historical methods including considerations of the historical context of Bologna its impact on Ludovico's art and a new portrayal of the role of women and women artists in the city Bologna is perhaps the last great artistic capital in Europe that still offers the specialist the possibility for ground breaking studies This quotation from a recent exhibition at the Metropolitan Museum testifies to the rich possibilities for research in this field In 1983 Sydney Freedberg wrote a book on the three pivotal innovators in Italian painting at the turn of the seventeenth century Caravaggio Annibale Carracci and the latter's cousin Ludovico Carracci 1555-1619 The dramatic intensity of Ludovico's paintings exerted a seminal influence on the direction of Italian Baroque painting His highly individual renditions of his subjects make him one of the great interpreters of Italian art Working in Bologna the second city of the papal states during the period of the Counter Reformation Ludovico was well positioned to reshape religious painting during a period that demanded change Ludovico was a prolific draftsman who produced over 300 extant drawings His drawings offer the key to his artistic personality because he conceived his original subjects and planned his dramatic compositions in these sheets Like most Italian artists of the early modern period Ludovico developed his ideas in drawings and began painting only after his conceptions had been finalized Thus his drawings reveal how he thought how his ideas changed and which features of a composition were most important or challenging to his creative imagination Such drawings as these have tremendous appeal to modern audiences who are attracted by the excitement of watching the creative process in progress rather than seeing only the painting that represents the end of that process The Carracci have always been considered some of the most important draftsmen in Italian art for their revival of drawing the human figure from life in the course of designing paintings But Ludovico's drawings were not only preparatory studies for pictures He was also an innovator in developing finished compositional drawings that were produced as works of art in their own right made for sale to a new audience of private collectors in Bologna This book will be indispensable for university libraries museum libraries and the private libraries of all scholars dealers and collectors with a serious interest in Italian art As a study of a major artist that breaks new methodological ground the book will bring together fresh insights on the artist and his culture with a useful compendium of illustrations and will provide a model for future studies of draftsmen from the early modern period      *Ludovico Carracci* Catherine Loisel, 2004      **Seventeenth-century Art & Architecture** Ann Sutherland Harris, 2005 Encompassing the socio-political cultural background of the period this title takes a look at the careers of the Old Masters and many lesser known artists The book covers artistic developments across six countries and examines in detail

many of the artworks on display      **Malvasia's Life of the Carracci: Commentary and Translation** ,2000      **The Chalk Drawings of Ludovico Carracci** ,1984      Ludovico Carracci ,      *The Beholder* Robert Williams,2017-07-05 One of the most significant developments in the study of works of art over the past generation has been a shift in focus from the works themselves to the viewer's experience of them and the relation of that experience both to the works in question and to other aspects of cultural life The ten essays written for this volume address the experience of art in early modern Europe and approach it from a variety of methodological perspectives concerns range from the relation between its perceptual and significative dimensions to the ways in which its discursive formation anticipates but does not exactly correspond to later notions of aesthetic experience The modes of engagement vary from careful empirical studies that explore the complex complementary relationship between works of art and textual evidence of different kinds to ambitious efforts to mobilize the powerful interpretative tools of psychoanalysis and phenomenology This diversity testifies to the vitality of current interest in the experience of beholding and the urgency of the challenge it poses to contemporary art historical practice

Jessica A. Maratsos, 2021-09-09 Both lauded and criticized for his pictorial eclecticism the Florentine artist Jacopo Carrucci known as Pontormo created some of the most visually striking religious images of the Renaissance These paintings which challenged prevailing illusionistic conventions mark a unique contribution into the complex relationship between artistic innovation and Christian traditions in the first half of the sixteenth century Pontormo's sacred works are generally interpreted as objects that reflect either pure aesthetic experimentation or personal and cultural anxiety Jessica Maratsos however argues that Pontormo employed stylistic change deliberately for novel devotional purposes As a painter he was interested in the various modes of expression and communication direct address tactile evocation affective incitement as deployed in a wide spectrum of devotional culture from sacri monti to Michelangelo's marble sculptures to evangelical lectures delivered at the Accademia Fiorentina Maratsos shows how Pontormo translated these modes in ways that prompt a critical rethinking of Renaissance devotional art      The Moment of Caravaggio Michael Fried, 2023-10-17 A major reevaluation of Caravaggio from one of today's leading art historians This is a groundbreaking examination of one of the most important artists in the Western tradition by one of the leading art historians and critics of the past half century In his first extended consideration of the Italian Baroque painter Michelangelo Merisi da Caravaggio 1573-1610 Michael Fried offers a transformative account of the artist's revolutionary achievement Based on the A W Mellon Lectures in the Fine Arts delivered at the National Gallery of Art The Moment of Caravaggio displays Fried's unique combination of interpretive brilliance historical seriousness and theoretical sophistication providing sustained and unexpected readings of a wide range of major works from the early Boy Bitten by a Lizard to the late Martyrdom of Saint Ursula The result is an electrifying new perspective on a crucial episode in the history of European painting Focusing on the emergence of the full blown gallery picture in Rome during the last decade of the sixteenth century and the first decades of the seventeenth Fried draws forth an expansive argument one that leads to a radically revisionist account of Caravaggio's relation to the self portrait of the role of extreme violence in his art as epitomized by scenes of decapitation and of the deep structure of his epoch defining realism Fried also gives considerable attention to the art of Caravaggio's great rival Annibale Carracci as well as to the work of Caravaggio's followers including Orazio and Artemisia Gentileschi Bartolomeo Manfredi and Valentin de Boulogne Please note All images in this ebook are presented in black and white and have been reduced in size      **Encyclopaedia Americana** Francis Lieber, 1851
