Lunar Park:

Gothic-postmodernism Maria Beville, 2009 Being the first to outline the literary genre Gothic postmodernism this book articulates the psychological and philosophical implications of terror in postmodernist literature analogous to the terror of the Gothic novel uncovering the significance of postmodern recurrences of the Gothic and identifying new historical and philosophical aspects of the genre While many critics propose that the Gothic has been exhausted and that its significance is depleted by consumer society's obsession with instantaneous horror analyses of a number of terror based postmodernist novels here suggest that the Gothic is still very much animated in Gothic postmodernism These analyses observe the spectral characters doppelgangers hellish waste lands and the demonised or possessed that inhabit texts such as Paul Auster's City of Glass Salman Rushdie's The Satanic Verses and Bret Easton Ellis's Lunar Park However it is the deeper issue of the lingering emotion of terror as it relates to loss of reality and self and to death that is central to the study a notion of terror formulated from the theories of continental philosophers and contemporary cultural theorists With a firm emphasis on the sublime and the unrepresentable as fundamental to this experience of terror vital to the Gothic genre and central to the postmodern experience this study offers an insightful and concise definition of Gothic postmodernism It firmly argues that terror with all that it involves remains a connecting and potent link between the Gothic and postmodernism two modes of literature that together offer a unique voicing of the unspeakable terrors of postmodernity **Bret Easton Ellis's Controversial Fiction**

burgeoned into a cultural force Space Craze taps into the country's enduring love affair with space Hungarian Perspectives on the Western Canon László Bengi, Gábor Mezei, Ernő Kulcsár Szabó, 2017-05-11 In this collection Hungarian literature is read together with canonical works of the Western literary tradition The book studies the distinction between major and minor literatures showing that such parallel readings may highlight previously unknown components of the literary tradition The book does not hold traditional comparative methods based on verifiable mediations or transactions between national philologies and national literary narratives to be the exclusive standard of interpretation readings can concentrate on common surfaces and textual events instead This is what is meant by post comparative perspectives a term to indicate that the conditions of a comparative reading never precede the reading itself On this basis the present volume points at several possibilities of how a common ground between texts can be created especially because the chapters within it perform parallel readings in highly different ways *The Themed Space* Scott A. Lukas, 2007-10-07 *The Themed Space* Locating Culture Nation and Self is the first edited collection focused on the significance of the theme space The first section of the text discusses the ways in which theming acts as a form of authenticity Included are articles on the theme park Dollywood the historic Coney Island the uses of theming in Flagstaff Arizona and the Las Vegas Strip Section two considers theming as a reflection of nation and its authors focus on Chinese theme parks and shopping malls the Lost City theme park in South Africa and the Ain Diab resort district in Casablanca The third section of the book illustrates how theming often targets the person whether famous or everyday The authors look at spaces ranging from the Liverpool John Lennon Airport love hotels in Japan and the Houston Texas theme park AstroWorld The final section emphasizes theming as a projection of the mind and psychology The authors focus on behind the scenes tourism at Universal Studios and the Ford Rouge Factory Tour the use of theming in unexpected spaces like Florida themed clinics theming in virtual reality spaces of video games and the social controversies related to theming in various parts of the world The book includes a comprehensive bibliography on theming and a list of key terms *The Themed Space* is of great interest to students of all levels and scholars of anthropology urban studies and sociology Geniuses, Addicts, and Scribbling Women Cynthia Cravens, 2023-01-15 Through a critical discussion of an array of written and visual texts that feature a writer as a main character *Geniuses Addicts and Scribbling Women* Portraits of the Writer in Popular Culture argues for a more nuanced conception of the role of writers in society their relationships with their reading publics the portrayals and realities of their labor and the construction of a writing identity Expounding upon the critical genre of authorship studies the contributors take on complex issues such as economics professionalization gender politics and writing pedagogy to shape the dialogue around the nature of representation and the practice of narrative Ultimately contributors consider the ways in which debates over art craft authorial celebrity and the literary marketplace define the parameters of culture in a given period and influence the work of culture producers The implications of such an analysis reveal much about the status and value of creative writers and their work This collection

Walking Shadows Ib Johansen, 2015-08-25 *Walking Shadows* focuses on the American fantastic and the American grotesque attempting in this manner for the first time to establish an overview of and a theoretical approach to two literary modes that have often been regarded as essential to an understanding of the American cultural canon The central importance of these two literary forms has been pointed out earlier by important theorists such as Stanley Cavell David Reynolds and William Van O Connor A number of literary works from the beginning of the nineteenth to the end of the twentieth centuries are taken up in order to illustrate the inherent links or family resemblances between the two modes with special reference to the way in which a Bakhtinian reading may facilitate our appreciation of their status within the canon These excursions into the House of Fantastic and Grotesque Fiction may be of interest not only to hardcore aficionados but also to philosophically minded readers in general in particular perhaps to those who have paid acute attention to debates on late twentieth and early twenty first century post structuralism and deconstruction where the classic positions of Foucault
