ssische Technische Hochschule ETH Zurich      **The Mediterranean Medina** AA. VV.,2016-01-03T00:00:00+01:00 This volume collects the proceedings of the International Seminar The Mediterranean Medina that took place in the School of Architecture at Pescara from 17th to 19th of June 2004      **The Courtyard Houses** Jørn Utzon,2004 By looking at how people lived I quickly discovered that all the small gardens were filled with tool sheds and hobby sheds and old cars stood there and pleasure craft etc And so I designed a town plan and a house type that accepted that within their own area people could do as they pleased in their leisure time without upsetting their neighbours and without having any special easements such a house and such a town plan that respected this or assumed the individual right to enjoy private life but at the same time the resulting part of the town was then to have a common character as seen from outside so that it became a small community      *The Halle Orphanage as Scientific Community* Kelly Joan Whitmer,2015-05-12 Founded around 1700 by a group of German Lutherans known as Pietists the Halle Orphanage became the institutional headquarters of a universal seminar that still stands largely intact today It was the base of an educational charitable and scientific community and consisted of an elite school for the sons of noblemen Yet its reputation as a Pietist enclave inhabited largely by young people has prevented the organisation from being taken seriously as a kind of scientific academy even though Kelly Joan Whitmer shows this is precisely what it was This book calls into question a long standing tendency to view German Pietists as anti science and anti Enlightenment arguing that these tendencies have drawn attention away from what was actually going on inside the orphanage      *The Modern Courtyard House* Duncan Macintosh,1973      Collage and Architecture Jennifer A.E. Shields,2014-01-03 Collage and Architecture is the first book to cover collage as a tool for design in architecture making it a valuable resource for students and practitioners Author Jennifer Shields uses the artworks and built projects of leading artists and architects such as Le Corbusier Daniel Libeskind and Teddy Cruz to illustrate the diversity of collage techniques The six case study projects from Mexico Argentina Sweden Norway the United States and Spain give you a global perspective of architecture as collage Collage is an important instrument for analysis and design and Shields s presentation of this versatile medium draws on decades of relevance in art and architecture to be adapted and transformed in your own work      Peasant and Empire in Christian North Africa Leslie Dossey,2010 This remarkable history foregrounds the most marginal sector of the Roman population the provincial peasantry to paint a fascinating new picture of peasant society Making use of detailed archaeological and textual evidence Leslie Dossey examines the peasantry in relation to the upper classes in Christian North Africa tracing that region s social and cultural history from the Punic times to the eve of the Islamic conquest She demonstrates that during the period when Christianity was spreading to both city and countryside in North Africa a convergence of economic interests narrowed the gap between the rustici and the urbani creating a consumer revolution of sorts among the peasants This book s postcolonial perspective points to the empowerment of the North African peasants and gives voice to lower social classes across the Roman world      **Daniel** Henning Mankell,2010-11-04 In the 1870s Hans
