Several papers explicitly and implicitly explore one of Murray's great interests: the role of heritage preservation in our exploration of the past including dedicated tertiary training programs for Indigenous Australians to manage research and protect their own Country. The book is divided into four parts: History, Archaeology, Philosophy, and Heritage, offering an interdisciplinary approach to the study of the past. This volume would be of interest to archaeologists, historians, philosophers of archaeology, and heritage scholars. Copyright Office, 1932 **Writing for Their Lives** Marcel Chotkowski LaFollette, 2023-08-22 A breathtaking history of America's trail-blazing female science journalists and the timely lessons they can teach us about equity, access, collaboration, and persistence. *Writing for Their Lives* tells the stories of women who pioneered the nascent profession of science journalism from the 1920s through the 1950s. Like the hidden figures of science such as Dorothy Vaughan and Katherine Johnson, these women journalists Marcel Chotkowski LaFollette writes were also overlooked in traditional histories of science and journalism. But at a time when science, medicine, and the mass media were expanding dramatically, Emma Reh, Jane Stafford, Marjorie Van de Water, and many others were explaining theories, discoveries, and medical advances to millions of readers via syndicated news stories, weekly columns, weekend features, and books, and they deserve the recognition they have long been denied. Grounded in extensive archival research and enlivened by passages of original correspondence, *Writing for Their Lives* addresses topics such as censorship, peer review, and news embargoes while also providing intimate glimpses into the personal lives and adventures of mid-twentieth-century career women. They were single, married, or divorced mothers with child-care responsibilities, daughters supporting widowed mothers, urban dwellers who lived through and wrote about the Great Depression, World War II, and the dawn of the Atomic Age, all the while daring to challenge the arrogance and misogyny of the male scientific community in pursuit of information that could serve the public. Written at a time when trust in science is at a premium, *Writing for Their Lives* is an inspiring, untold history that underscores just how crucial dedicated, conscientious journalists are to the public understanding and acceptance of scientific guidance and expertise.
