German Secular Song-books of the Mid-seventeenth Century: An Examination of the Texts in Collections of Songs Published in the German-language Area Between 1624 and 1660 Anthony J. Harper, 2024-11-01 This title was first published in 2003 The secular song of the 17th century represents a relatively neglected area of German culture In this book Anthony J Harper first studies the songs of the two great models of the time Martin Opitz and Paul Fleming following this with an analysis of the song books and collections from three regions the North East Central Germany and the North The procedure is thus both historical and geographical The texts of these songs are examined in relation to structural principles thematic range and stylistic treatment Harper establishes common features and regional variations of this genre which involves love poetry songs of manners with colourful portrayals of everyday life and comic songs in a lower stylistic register Particular attention is paid to the work of Albert and Dach in Königsberg Finckelthaus Schirmer Krieger and Schoch in Leipzig and Dresden and Rist Voigtlander Zesen Greflinger and Stieler in the Hamburg region Where appropriate the book assesses the role of musical settings while not seeking to offer technical insights into musical matters Of value to scholars of German literature this study should also be of interest to musicologists working on the Renaissance and Baroque periods
