Lyrische Dramen:

Hugo Von Hofmannsthal and His Time Hermann Broch, 1984-08-15 Hermann Broch 1886 1951 is remembered among English speaking readers for his novels *The Sleepwalkers* and *The Death of Virgil* and among German speaking readers for his novels as well as his works on moral and political philosophy his aesthetic theory and his varied criticism This study reveals Broch as a major historian as well one who believes that true historical understanding requires the faculties of both poet and philosopher Through an analysis of the changing thought and career of the Austrian poet librettist and essayist Hugo von Hofmannsthal 1874 1929 Broch attempts to define and analyze the major intellectual issues of the European fin de siècle a period that he characterizes according to the Nietzschean concepts of the breakdown of rationality and the loss of a central value system The result is a major examination of European thought as well as a comparative study of political systems and artistic styles

The Twentieth Century 1890-1945 Raymond Furness, 2020-01-31 Originally published in 1978 this study presents a detailed analysis of the major literary movements in Austria and Germany from the end of the nineteenth century to the collapse of the Third Reich It examines the plethora of literary genres which marked the transition from the nineteenth to the twentieth century the short lived Naturalist movement rapidly giving way to various forms of symbolism and neo romanticism The situation in Vienna is studied in detail the concept of modernism vis vis expressionism with special regard to Rilke and Kafka The literature of the Weimar period is also analysed with emphasis on the symphonic novels of the time and the anti illusionist devices of Brecht It also draws a comparison between the literary situation in Nazi Germany and the literature of exile and the positions of Thomas and Heinrich Mann Brecht and Gottfried Benn are examined

The Garden and the Workshop Péter Hanák, 2014-07-14 A century ago Vienna and Budapest were the capital cities of the western and eastern halves of the increasingly unstable Austro Hungarian empire and scenes of intense cultural activity Vienna was home to such figures as Sigmund Freud Gustav Klimt and Hugo von Hofmannsthal Budapest produced such luminaries as Béla Bartók Georg Lukács and Michael and Karl Polanyi However as Péter Hanák shows in these vignettes of Fin de Siècle life the intellectual and artistic vibrancy common to the two cities emerged from deeply different civic cultures Hanák surveys the urban development of the two cities and reviews the effects of modernization on various aspects of their cultures He examines the process of physical change as rapid population growth industrialization and the rising middle class ushered in a new age of tenements suburbs and town planning He investigates how death and its rituals once the domain of church family and local community were transformed by the commercialization of burials and the growing bureaucratic control of graveyards He explores the mentality of common soldiers and their families mostly of peasant origin during World War I detecting in letters to and from the front a shift toward a revolutionary mood among Hungarians in particular He presents snapshots of such subjects as the mentality of the nobility operettas and musical life and attitudes toward Germans and Jews and also reveals the striking relationship between social marginality and cultural creativity In comparing the two cities Hanák

notes that Vienna famed for its spacious parks and gardens was often characterized as a garden of esoteric culture Budapest however was a dense city surrounded by factories whose cultural leaders referred to the offices and cafés where they met as workshops These differences were reflected he argues in the contrast between Vienna's aesthetic and individualistic culture and Budapest's more moralistic and socially engaged approach Like Carl Schorske's famous *Fin de Siècle Vienna* Hank's book paints a remarkable portrait of turn of the century life in Central Europe Its particular focus on mass culture and everyday life offers important new insights into cultural currents that shaped the course of the twentieth century Originally published in 1998 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

published by Princeton University Press since its founding in 1905 **Georg Trakl's Poetry** Richard Detsch, 1991-01-18 The chaotic mixture of elements in Trakl's poems is more apparent than real this book argues thus challenging the Orphic view of Walther Killy and his followers A dream of unity one of the most ancient dreams in human history is in fact reflected in all of Trakl's work The recurring themes in Trakl's poetry are brought into focus through Dr Detsch's literary psychological and philosophical analysis the union of male and female in incest from the Jungian standpoint the union of life and death from the Heideggerian standpoint and that of German Romanticism as represented by Novalis the union of good and evil from the Dostoyevskian or Nietzschean standpoint the mixture of images from the Goethean definition of symbolism Trakl 1887-1914 is presented as a poet whose lyric voice sounded a cry of hope in its deepest despair As Dr Detsch's generous quotations from the poet's work in the original German make clear Georg Trakl sought poetic expression for a union of opposites

The Symbolist Movement in the Literature of European Languages Anna Balakian, Anna Elizabeth Balakian, 1984 Edited by Anna Balakian this volume marks the first attempt to discuss Symbolism in a full range of the literatures written in the European languages The scope of these analyses which explore Latin America Scandinavia Russia Poland Hungary Serbia Czechoslovakia and Bulgaria as well as West European literatures continues to make the volume a valuable reference today As Ren Wellek suggests in his historiographic contribution the fifty one contributors not only make us think afresh about individual authors who are giants but also draw us to reassess schools and movements in their local as well as international contexts Reviewers comment that this copious and intelligently structured anthology divided into eight parts traces the conceptual bases and emergence of an international Symbolist movement showing the spread of Symbolism to other national literatures from French sources as well as the symbiotic transformations of Symbolism through appropriation and amalgamation with local literary trends Several chapters deal with the relationships between literature and the other arts pointing to Symbolism at work in painting music and theatre Other chapters on the psychological aspects of the Symbolist method connect in interesting ways to a vision of metaphor and myth as virtually musical notation and an experimental emphasis on the play afforded by gaps between words The volume is a major contribution to the most significant exponents and essential themes of Symbolism The theoretical historical and typological sections of the volume help explain why the impact of this important movement of the fin de siècle is still felt today

Last Words Karl S. Guthke, 1992-10-30 Whether Goethe actually cried More light on his deathbed or whether Conrad Hilton checked out of this world after uttering Leave the shower curtain on the inside of the tub last words regardless of authenticity have long captured the imagination of Western society In this playfully serious investigation based on factual accounts anecdotes literary works and films Karl Guthke

explores the cultural importance of those words spoken at the border between this world and the next The exit lines of both famous and ordinary people embody for us a sense of drama and truthfulness and reveal much about our thoughts on living and dying Why this interest in last words Presenting statements from such figures as Socrates Nathan Hale Marie Antoinette and Oscar Wilde I am dying as I have lived beyond my means Guthke examines our fascination in terms of our need for closure our desire for immortality and our attraction to the mystique of death scenes The author considers both authentic and invented final statements as he looks at the formation of symbols and legends and their function in our culture Last words handed down from generation to generation like cultural heirlooms have a good chance of surviving in our collective memory They are shown to epitomize a life convey a sense of irony or play to an audience as in the case of the assassinated Mexican revolutionary Pancho Villa who is said to have died imploring journalists Don't let it end like this Tell them I said something Originally published in 1992 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Modern Men Michael Kane, 1999-12-01 An examination of some of the canonical works of modern literature in English and German with regard to masculinity relations between men national identity and patriarchy These were major preoccupations of male writers as they came to terms with or reacted against the decline of patriarchal authority The book identifies five leitmotifs which serve to characterize the period between 1880 and 1930 the double the other narcissus and Salome the nationalization of Narcissus Kampf or male bondage and after patriarchy Again and again one sees how men attempted to define themselves against what they imagined as femininity not merely outside but also within their selves and further how men sought to overcome or find a socially acceptable expression for their narcissistic homosexual and even sadomasochist libido
