**M. L. Wilson and the Campaign for the Domestic Allotment** William D. Rowley, 1970      **M. L. Wilson and the Campaign for the Domestic Allotment** William D. Rowley, 1970      *Power and Progress on the Prairie* Thomas Biolsi, 2018-05-22 A critical exploration of how modernity and progress were imposed on the people and land of rural South Dakota The Rosebud Country comprising four counties in rural South Dakota was first established as the Rosebud Indian Reservation in 1889 to settle the Sicangu Lakota During the first two decades of the twentieth century white homesteaders arrived in the area and became the majority population Today the population of Rosebud Country is nearly evenly divided between Indians and whites In *Power and Progress on the Prairie* Thomas Biolsi traces how a variety of governmental actors including public officials bureaucrats and experts in civil society invented and applied ideas about modernity and progress to the people and the land Through a series of case studies programs to settle surplus Indian lands to civilize the Indians to modernize white farmers to find strategic sites for nuclear missile silos and to extend voting rights to Lakota people Biolsi examines how these various problems came into focus for government experts and how remedies were devised and implemented Drawing on theories of governmentality derived from Michel Foucault Biolsi challenges the idea that the problems identified by state agents and the solutions they implemented were inevitable or rational Rather through fine grained analysis of the impact of these programs on both the Lakota and white residents he reveals that their underlying logic was too often arbitrary and devastating      **William J. Spillman and the Birth of Agricultural Economics** Laurie M. Carlson, 2005 Biography of William J Spillman scientist and educator for the United States Department of Agriculture Explores Spillman s role in the development of the agricultural economics the agricultural New Deal genetics research agricultural education and the Cooperative Extension Service the post World War I overproduction crisis and the Law of Diminishing Returns Provided by publisher      **Anxious Decades** Michael E. Parrish, 1994 Impressively detailed An authoritative and epic overview Publishers Weekly      **The South and the New Deal** Roger Biles, 2021-05-11 When Franklin D Roosevelt was sworn in as president the South was unmistakably the most disadvantaged part of the nation The region s economy was the weakest its educational level the lowest its politics the most rigid and its laws and social mores the most racially slanted Moreover the region was prostrate from the effects of the Great Depression Roosevelt s New Deal effected significant changes on the southern landscape challenging many traditions and laying the foundations for subsequent alterations in the southern way of life At the same time firmly entrenched values and institutions militated against change and blunted the impact of federal programs In *The South and the New Deal* Roger Biles examines the New Deal s impact on the rural and urban South its black and white citizens its poor and its politics He shows how southern leaders initially welcomed and supported the various New Deal measures but later opposed a continuation or expansion of these programs because they violated regional convictions and traditions Nevertheless Biles concludes the New Deal coupled

with the domestic effects of World War II set the stage for a remarkable postwar transformation in the affairs of the region. The post World War II Sunbelt boom has brought Dixie more fully into the national mainstream. To what degree did the New Deal disrupt southern distinctiveness? Biles answers this and other questions and explores the New Deal's enduring legacy in the region. Reclamation Managing Water in the West, The Bureau of Reclamation: Origins and Growth to 1945, Vol. 1, 2006, 2006. **The Language of Planning** Albert Z. Guttenberg, 1993-08. **Prologue**, 1970. *A Commonwealth of Hope* R. Alan Lawson, 2006-07-24. Did the New Deal represent the true American way or was it an aberration that would last only until the old order could reassert itself? This original and thoughtful study tells the story of the New Deal, explains its origins, and assesses its legacy. Alan Lawson explores how the circumstances of the Great Depression and the distinctive leadership of Franklin D. Roosevelt combined to bring about unprecedented economic and policy reform. Challenging conventional wisdom, he argues that the New Deal was not an improvised response to an unexpected crisis but the realization of a unique opportunity to put into practice Roosevelt's long-developed progressive thought. Lawson focuses on where the impetus and plans for the New Deal originated, how Roosevelt and those closest to him sought to fashion a cooperative commonwealth, and what happened when the impulse for collective unity was thwarted. He describes the impact of the Great Depression on the prevailing system and traces the fortunes of several major social sectors as the drive to create a cohesive plan for reconstruction unfolded. He continues the story of these main sectors through the last half of the 1930s and traces their legacy down to the present, as crucial challenges to the New Deal have arisen. Drawing from a wide variety of scholarly texts, records of the Roosevelt administration, Depression-era newspapers and periodicals, and biographies and reflections of the New Dealers, Lawson offers a comprehensive conceptual base for a crucial aspect of American history. *The American West* Michael P. Malone, 2007-11-01. Chronicles the history of the American West during the twentieth century, tracing economical, political, social, and cultural developments in the region from 1900 to the turn of the twenty-first century in an updated edition that includes new sections that explore the roles of ethnic groups in the new West, urban developments, western women, and events since the mid-1980s. Original. Urban Farming in the West Robert M. Carriker, 2010-04-15. From 1933 to 1935, the federal government's Division of Subsistence Homesteads created thirty-four New Deal communities that sought to provide a healthier and more economically secure life for disadvantaged Americans. These settlements were designed to combine the benefits of rural and urban living by offering part-time farming, uplifting social functions, and inexpensive homes. Four were located in the West: in Phoenix, Arizona; El Monte, California; and Longview, Washington. Robert Carriker examines for the first time the intricate histories of these subsistence homestead projects, which have long been buried in bureaucratic records and clouded by misunderstanding, showing that in many ways they were among the agency's most successful efforts. He provides case studies of the projects, rescuing their obscure histories using archival documents and rare photographs. He also reveals the machinations of civic groups and private citizens across the

West who jockeyed for access to the funds being allotted for New Deal community building By describing what took place on these western homesteads Carriker shows that the DSH s agenda was not as far fetched as some have reported The tendency to condemn the Division and its projects he argues has failed to appreciate the good that came from some of the individual homestead communities particularly those in the Far West Although overshadowed by the larger undertakings of the New Deal some of these western communities remain thriving neighborhoods living legacies to FDR s efforts that show how the country once chose to deal with economic hardship Too often the DSH is noted for its failures Carriker s study shows that its western homesteads were instead qualified accomplishments *Agricultural Economics Research* ,1970 Franklin Roosevelt and the Great Constitutional War Marian Cecilia McKenna,2002 This important book is a detailed reinterpretation of one of the most explosive events in modern American politics Franklin Roosevelt s controversial attempt in 1937 to pack the Supreme Court by adding justices who supported his New Deal policies McKenna traces in unprecedented detail the origins of FDR s plan its secret history and the President s final failure Drawing on a remarkable range of sources McKenna provides the definitive account of a turning point in American political and legal history *The Judicial Response to the New Deal* Richard A. Maidment,1991 Hoptopia Peter A. Kopp,2016-09-06 Hoptopia argues that the current revolution in craft beer is the product of a complex global history that converged in the hop fields of Oregon s Willamette Valley What spawned from an ideal environment and the ability of regional farmers to grow the crop rapidly transformed into something far greater because Oregon farmers depended on the importation of rootstock knowledge technology and goods not only from Europe and the Eastern United States but also from Asia Latin America and Australasia They also relied upon a seasonal labor supply of people from all of these areas as a supplement to local Euroamerican and indigenous communities to harvest their crops In turn Oregon hop farmers reciprocated in exchanges of plants and ideas with growers and scientists around the world and of course sent their cured hops into the global marketplace These global exchanges occurred not only during Oregon s golden era of hop growing in the late nineteenth and early twentieth centuries but through to the present in the midst of the craft beer revival The title of this book Hoptopia is a nod to Portland s title of Beervana and the Willamette Valley s claim as an agricultural Eden from the mid nineteenth century onward But the story is fundamentally about how seemingly niche agricultural regions do not exist and have never existed independently of the flow of people ideas goods and biology from other parts of the world To define Hoptopia is to define the Willamette Valley s hop and beer industries as the culmination of all of this local and global history With the hop itself as a central character this book aims to connect twenty first century consumers to agricultural lands and histories that have been forgotten in an era of industrial food production Provided by publisher *Social Science Research and Government* Martin Bulmer,1987-02-26 This collection of twenty original essays considers the relationship between social science research and government during the last 30 years in Britain and the United States especially the economic and social policies of Reagan and Thatcher governments These essays will be
