The Emperor Who Never Was Supriya Gandhi, 2020-01-07 Dara Shukoh was the heir apparent to the Mughal throne in 1659 when he was executed by his brother Aurangzeb Today Dara is lionized in South Asia while Aurangzeb who presided over the beginnings of imperial disintegration is scorned Supriya Gandhi's nuanced biography asks whether the story really would have been different with Dara in power [Aurangzeb as he is known from the Masir-i-Alamgiri and his Anecdotes and Letters](#) Dr. Hemantraje Gaikwad, 2025-01-28 While studying Aurangzeb the three books that intrigued me were the Masir-i-Alamgiri Letters of Aurangzeb and Anecdotes of Aurangzeb The Masir-i-Alamgiri is a chronicle written by Saki Mustad Khan that records births marriages deaths postings promotions demotions felicitations victories and defeats of war during the reign of Aurangzeb All three books have instructive passages from well known Persian poets and Koranic verses Aurangzeb even quotes Plato and Aristotle The language and style of his comments is polite sweet simple and figurative Again a larger meaning is conveyed by a short sentence At times there is a play of words showing Aurangzeb's mastery over Arabic literature The Anecdotes of Aurangzeb tell us that he believed A king must work hard to reign and it is ingratitude towards God injustice and tyranny towards man to wish to reign without hard work **Maasir-i-Alamgiri** Saqi Must'id Khan, 1947

The Ashgate Research Companion to Modern Imperial Histories John Marriott, 2016-03-23 Written by leading scholars this collection provides a comprehensive and authoritative overview of modern empires Spanning the era of modern imperial history from the early sixteenth century to the present it challenges both the rather insular focuses on specific experiences and gives due attention to imperial formations outside the West including the Russian Japanese Mughal Ottoman and Chinese The companion is divided into three broad sections Part I Times surveys the three main eras of modern imperialism The first was that dominated by the settlement impulse with migrants many voluntarily and many more by force

making new lives in the colonies This impulse gave way most especially in the nineteenth century to a period of busy and rapid expansion which was less likely to promote new settlement and in which colonists more frequently saw their sojourn in colonial lands as temporary and related to the business mostly of governance and trade Lastly in the twentieth century in particular empires began to fail and to fall Part II Spaces studies the principal imperial formations of the modern world Each chapter charts the experience of a specific empire while at the same time placing it within the complex patterns of wider imperial constellations The individual chapters thus survey the broad dynamics of change within the empires themselves and their relationships with other imperial formations and reflect critically on the ways in which these topics have been approached in the literature In Part III Themes scholars think critically about some of the key features of imperial expansion and decline These chapters are brief and many are provocative They reflect the current state of the field and suggest new lines of inquiry which may follow from more comparative perspectives on empire The broad range of themes captures the vitality and diversity of contemporary scholarship on questions of empire and colonialism encompassing political economic and cultural processes central to the formation and maintenance of empires as well as institutions ideologies and social categories that shaped the lives both of those implementing and those experiencing the force of empire In these pages the reader will find the slave and the criminal the merchant and the maid the scientist and the artist alongside the structures which sustained their lives and their livelihoods Overall the companion emphasises the diversity of imperial experience and process Comprehensive in its scope it draws attention to the particularities of individual empires rather than over generalising as if all empires at all times and in all places behaved in a similar manner It is this contingent and historical specificity that enables us to explore in expansive ways precisely what constituted the modern empire

Times Book Review From the bestselling author of *Return of a King* the story of how the East India Company took over large swaths of Asia and the devastating results of the corporation running a country In August 1765 the East India Company defeated the young Mughal emperor and set up in his place a government run by English traders who collected taxes through means of a private army The creation of this new government marked the moment that the East India Company ceased to be a conventional company and became something much more unusual an international corporation transformed into an aggressive colonial power Over the course of the next 47 years the company's reach grew until almost all of India south of Delhi was effectively ruled from a boardroom in the city of London *The Anarchy* tells one of history's most remarkable stories how the Mughal Empire which dominated world trade and manufacturing and possessed almost unlimited resources fell apart and was replaced by a multinational corporation based thousands of miles overseas and answerable to shareholders most of whom had never even seen India and no idea about the country whose wealth was providing their dividends Using previously untapped sources Dalrymple tells the story of the East India Company as it has never been told before and provides a portrait of the devastating results from the abuse of corporate power Bronze Medal in the 2020 Arthur Ross Book Award

Empires and Gods Jörg Rüpke, Michal Biran, Yuri Pines, 2024-02-19 Interaction with religions was one of the most demanding tasks for imperial leaders Religions could be the glue that held an empire together bolstering the legitimacy of individual rulers and of the imperial enterprise as a whole Yet they could also challenge this legitimacy and jeopardize an empire's cohesiveness As empires by definition ruled heterogeneous populations they had to interact with a variety of religious cults creeds and establishments These interactions moved from accommodation and toleration to cooptation control or suppression from aligning with a single religion to celebrating religious diversity or even inventing a new transcendent civic religion and from lavish patronage to indifference The volume's contributors investigate these dynamics in major Eurasian empires from those that functioned in a relatively tolerant

religious landscape Ashokan India early China Hellenistic and Roman empires to those that allied with a single proselytizing or non proselytizing creed Sassanian Iran Christian and Islamic empires to those that tried to accommodate different creeds through pay for pray policies Tang China the Mongols exploring the advantages and disadvantages of each of these choices

Shivaji James W. Laine, 2003-02-13 Shivaji is a well known hero in western India He defied Mughal power in the seventeenth century established an independent kingdom and had himself crowned in an orthodox Hindu ceremony The legends of his life have become an epic story that everyone in western India knows and an important part of the Hindu nationalists ideology To read Shivaji s legend today is to find expression of deeply held convictions about what Hinduism means and how it is opposed to Islam James Laine traces the origin and development if the Shivaji legend from the earliest sources to the contemporary accounts of the tale His primary concern is to discover the meaning of Shivaji s life for those who have composed and those

who have read the legendary accounts of his military victories his daring escapes his relationships with saints In the process he paints a new and more complex picture of Hindu Muslim relations from the seventeenth century to the present He argues that this relationship involved a variety of compromises and strategies from conflict to accommodation to nuanced collaboration Neither Muslims nor Hindus formed clearly defined communities says Laine and they did not relate to each other as opposed monolithic groups Different sub groups representing a range of religious persuasions found it in their advantage to accentuate or diminish the importance of Hindu and Muslim identity and the ideologies that supported the construction of such identities By studying the evolution of the Shivaji legend Laine demonstrates we can trace the development of such constructions in both pre British and post colonial periods
