Macabre Railway Stories:

Macabre Railway Stories Ronald Holmes, 1982 **Shadows in the Steam** David Brandon, Alan Brooke, 2010-12-26
Ghosts traditionally make their presence felt in many ways from unexplained footfalls and chills to odours and apparitions. This fascinating volume takes a look at some of the strange and unexplained hauntings across Britain's railway network: signals and messages sent from empty boxes, trains that went into tunnels and never left, ghostly passengers and spectral crew, the wires whizzing to signal the arrival of trains on lines that have been closed for years. Based on hundreds of first person and historical accounts, *Shadows in the Steam* is a unique collection of mysterious happenings, inexplicable events and spine-chilling tales all related to the railways. Compiled by David Brandon and Alan Brooke, acknowledged experts on railways and the supernatural, and including sections on the London Underground and railway ghosts in literature and film, this book will delight lovers of railways and spooky stories alike.

Narratives of fear and safety Kaisa Kaukiainen, Kaisa Kurikka, Hanna Mäkelä, Elise Nykänen, Sanna Nyqvist, Juha Raipola, Anne Riippa, Hanna Samola, 2020-09-01. The essays in this edited volume, written in English and French, tackle the intriguing problems of fear and safety by analysing their various meanings and manifestations in literature and other narrative media. The articles bring forth new cross-cultural interpretations on fear and safety through examining what kinds of genre-specific means of world-making narratives use to express these two affectivities. The articles also show how important it is to study these themes in order to understand challenges in times of global threats such as the climate crisis. The main themes of the book are approached from various theoretical perspectives as related to their literary and cultural representations. Recent trends in research such as affect and risk theory serve as the basis for the discussion. The articles in the volume also draw from disciplines such as gender studies and trauma studies to examine the threats posed by collective fears and aggression on individuals' lives and propose ways of coping with fear. These themes are addressed also in articles analysing new adaptations of old myths that retell stories of the past. Many of the articles in the volume discuss apocalyptic and dystopian narratives that currently permeate the entire cultural landscape. Dystopian narratives do not only deal with future threats such as totalitarianism, technocracy or environmental disasters but also suggest alternative ways of being and new hopes in the form of political resistance.

Underground Writing David Welsh, 2010-05-04. The purpose of this book is to explore the ways in which the London Underground Tube was mapped by a number of writers from George Gissing to Virginia Woolf. From late Victorian London to the end of the World War II, underground writing created an imaginative world beneath the streets of London. The real subterranean railway was therefore re-enacted in number of ways in writing, including as Dantean Underworld or hell, as gateway to a utopian future, as psychological looking glass or as place of safety and security. The book is a chronological study

from the opening of the first underground in the 1860s to its role in WW2 Each chapter explores perspectives on the underground in a number of writers starting with George Gissing in the 1880s moving through the work of H G Wells and into the writing of the 1920s 1930s including Virginia Woolf and George Orwell It concludes with its portrayal in the fiction poetry and art including Henry Moore of WW2 The approach takes a broadly cultural studies perspective crossing the boundaries of transport history literature and London urban studies It draws mainly on fiction but also uses poetry art journals postcards and posters to illustrate It links the actual underground trains tracks and stations to the metaphorical world of underground writing and places the writing in a social political context **As American as Mom, Baseball, and Apple Pie**

The Civilizing Machine Michael Matthews,2014-01-01 In late nineteenth century Mexico the Mexican populace was fascinated with the country's booming railroad network Newspapers and periodicals were filled with art poetry literature and social commentaries exploring the symbolic power of the railroad As a symbol of economic political and industrial modernization the locomotive served to demarcate a nation's status in the world However the dangers of locomotive travel complicated by the fact that Mexico's railroads were foreign owned and operated meant that the railroad could also symbolize disorder death and foreign domination In *The Civilizing Machine* Michael Matthews explores the ideological and cultural milieu that shaped the Mexican people's understanding of technology Intrinsically tied to the Porfiriato the thirty five year dictatorship of Gen Porfirio Díaz the booming railroad network represented material progress in a country seeking its place in the modern world Matthews discloses how the railroad's development represented the crowning achievement of the

regime and the material incarnation of its mantra order and progress The Porfirian administration evoked the railroad in legitimizing and justifying its own reign while political opponents employed the same rhetorical themes embodied by the railroads to challenge the manner in which that regime achieved economic development and modernization As Matthews illustrates the multiple symbols of the locomotive reflected deepening social divisions and foreshadowed the conflicts that eventually brought about the Mexican Revolution **The Mammoth Book of Best New Horror 13** Stephen
