, *Conflict, Power, and Multitude in Machiavelli and Spinoza* Filippo Del Lucchese, 2011-10-20 Conflict Power and Multitude in Machiavelli and Spinoza explores Spinoza's political philosophy by confronting it with that of Niccol Machiavelli Filippo Del Lucchese conducts a study of the relationship between Machiavelli and Spinoza from a perspective at once philosophical historical and political The book begins by showing how closely tied the two thinkers are in relation to realism Del Lucchese then goes on to examine the theme of conflict as a crucial element of an understanding of Machiavelli and Spinoza's conceptions of modernity The book concludes with an examination of the concept of multiplicity and plural expressions of politics namely Machiavelli's popolo and Spinoza's multitudo Overall the Machiavelli Spinoza axis offers a fruitful perspective through which to analyse the relationship between contending ideas of modernity from a historical point of view and provides an original point of departure for discussing some key theoretical political and juridical notions that have resurfaced in contemporary debates

*La pathologie du pouvoir: vices, crimes et délits des gouvernants* Patrick Gilli, 2016-02-02 La singularité de la criminalité des gouvernants ou de leurs actes peccamineux réside dans la rareté des condamnations qu'ils ont subies En examinant sur la longue durée les formes de dénonciation de ces délits des hommes de pouvoir le livre essaie de comprendre les raisons qui aboutissent à la rupture du consensus et la remise en cause de l'acceptation sociale des traditions jusqu'alors tolérées corruption extorsion abus en tout genre Les différentes contributions examinent les conditions de ces condamnations morales et politiques et dessinent un tableau nuancé de ces pathologies du pouvoir qui loin d'être invariables dans le temps sont articulées aux paradigmes moraux de chaque société historique Les contributeurs sont Nathalie Barrandon Anne Catherine Baudoin Franck Collard Kathleen Crowther Angela De Benedictis Silvia Di Paolo Julien Dubouloz Patrick Gilli Cedric Giraud Thomas Granier Laurent Guitton Charles Guerin Corinne Manchio Nancy McLoughlin Hélène Marnard Richard Newhauser Flocel Sabat Armand Strubel Julien Thiry et Silvana Vecchio English What is singular about the criminality of rulers or their sinful acts is how rarely they are convicted Through a long term study of the forms of denunciation of crimes committed by those who hold power this book tries to understand the reasons that lead to breaking the consensus and calling into question the social acceptance of traditions which had hitherto been tolerated corruption extortion different types of abuse The various contributions investigate the moral and political conditions of these convictions and give a well balanced account of these pathologies of power far from being invariable over time they are consistent with the moral paradigms of each society in history

**Spinoza-Machiavelli Encounter** Vittorio Morfino, 2018-11-14 Vittorio Morfino draws out the implications of the dynamic Spinoza Machiavelli encounter by focusing on the concepts of causality temporality and politics This allows him to think through the relationship between ontology and politics leading to an understanding of history as a complex and plural interweaving of different rhythms

Machiavelli and the Modern State Alissa M. Ardito, 2021-02-11 This book offers a significant reinterpretation of the history of republican political thought and of Niccol Machiavelli's place within it It locates Machiavelli's political thought within enduring debates about the proper size of republics From the sixteenth century onward as states grew larger it was believed only monarchies could govern large territories effectively Republicanism was a form of government relegated to urban city states anachronisms in the new age of the territorial state For centuries history and theory were in agreement constructing an extended republic was as futile as trying to square the circle but then James Madison devised a compound representative republic that enabled popular government to take on renewed life in the modern era This work argues that Machiavelli had his own Madisonian impulse and deserves to be recognized as the first modern political theorist to envision the possibility of a republic with a large population extending over a broad territory **Antimachiavel. **The International Legal System in Quest of Equity and Universality** Laurence Boisson de Chazournes, Vera Gowlland-Debbas, 2021-10-18. Georges Abi Saab began his writing and teaching at a time when the process of decolonization and thereafter the quest for emancipation began to make its far-reaching impact on the international scene producing significant changes in the international environment both quantitatively in increasing the number of nation States and qualitatively in changing patterns of interests and claims. This was bound to result in new pressures on the international legal system itself and in a questioning of the traditional Eurocentric content of international law. In his work and teaching Professor Abi Saab viewed the dynamics of international law as a function of two driving forces: the emergence of the third world and the sense of injustice. In his view the first driving force, the emergence of the third world, raised the problem of exclusion from participation in the elaboration of international law and the decision-making process and exclusion as beneficiaries of the resulting rules of international law. At the same time this new force introduced diversity into the international scene reflecting the richness of the international community in its different facets. This process remains relevant today reflecting the contemporary problem of exclusion of new actors as well as their quest for participation. The second driving force, the sense of injustice, posed a teleological problem for him: that of defining community values in order that they capture the different facets of justice, whether formal or distributive. So long as there is no effective organic structure, international law in his view will continue to remain effectiveness-oriented, reflecting rather than impacting on the structures of power. Nevertheless it is undeniable that there is an on-going process of development of community values and interests as Georges Abi Saab wrote with reference to international crimes law: like all social phenomena it is a continuous unfolding, a continuous process of elaboration. He has also considered that the dynamics of the international legal process itself can be captured from the perspective of international organizations as vehicles for change in the international system. From his early writings Georges Abi Saab approached the United Nations Charter as a blueprint, both normative and institutional, for a certain type of international society. International institutions with all their imperfections continue for him to be the means of realization of the law of cooperation which lies at the heart of his concept of the international system. The themes selected for this volume in honour of Professor Georges Abi Saab are intended to reflect his unique and pioneering contribution to the field of international law. The contributors are drawn from what he has always considered to be his large family of former students: in his forty years of teaching Georges Abi Saab has acted as mentor to generations of students from all over the world who have benefited from his vision, insights, originality and creative and stimulating use of language. The contributors also include colleagues and friends who share a similar vision of the international legal system.
