Ernst Cassirer and the Autonomy of Language Gregory S. Moss, 2014-11-12 Ernst Cassirer and the Autonomy of Language examines the central arguments in Cassirer's first volume of the Philosophy of Symbolic Forms Gregory Moss demonstrates both how Cassirer defends language as an autonomous cultural form and how he borrows the concept of the concrete universal from G W F Hegel in order to develop a concept of cultural autonomy While Cassirer rejected elements of Hegel's methodology in order to preserve the autonomy of language he also found it necessary to incorporate elements of Hegel's method to save the Kantian paradigm from the pitfalls of skepticism Moss advocates for the continuing relevance of Cassirer's work on language by situating it within in the context of contemporary linguistics and contemporary philosophy This book provides a new program for investigating Cassirer's work on the other forms of cultural symbolism in his Philosophy of Symbolic Forms by showing how the autonomy of culture is one of the leading questions motivating Cassirer's philosophy of culture With a thorough comparison of Cassirer's theory of symbolism to other dominant theories from the twentieth century including Heidegger and Wittgenstein this book provides valuable insight for studies in philosophy of language semiotics epistemology psycholinguistics continental philosophy Neo Kantian philosophy and German idealism

The Faith of Catholics Reverend J. Berington. Reverend J. Kirk, Aeterna Press, 2015-06-29 To justify the so called Reformation to oppose a return to the Old Church the Mother and Mistress of Churches it is persistently asserted that Rome has added to the Faith once delivered to the Saints that she has imposed on the One Fold practices and doctrines which are no part of the Gospel of the Shepherd of our souls It is triumphantly pointed out that as late as 1854 and 1870 the dogma of the Immaculate Conception and of the Infallibility of the Pope have been added to the Creed of the Roman Church Aeterna Press
