**The Classical Hollywood Cinema** David Bordwell,Janet Staiger,Kristin Thompson,2003-09-02 A dense challenging and important book Philip French Observer At the very least this blockbuster is probably the best single volume history of Hollywood we're likely to get for a very long time Paul Kerr City Limits Persuasively argued the book is also packed with facts figures and photographs Nigel Andrews Financial Times Acclaimed for their breakthrough approach Bordwell Staiger and Thompson analyze the basic conditions of American film making as a historical institution and consider to what extent Hollywood film production constitutes a systematic enterprise in both its style and its business operations Despite differences of director genre or studio most Hollywood films operate within a set of shared assumptions about how a film should look and sound Such assumptions are neither natural nor inevitable but because classical style films have been the type most widely seen they have come to be accepted as the norm of film making and viewing The authors show how these classical conventions were formulated and standardized and how they responded to the arrival of sound colour widescreen ratios and stereophonic sound They argue that each new technological development has served a function within an existing narrational system The authors also examine how the Hollywood cinema standardized the film making process itself They describe how over the course of its history Hollywood developed distinct modes of

production in a constant search for maximum efficiency predictability and novelty Set apart by its combination of theoretical analysis and empirical evidence this book is the standard work on the classical Hollywood cinema style of film making from the silent era to the 1960s Now available in paperback it is a must for film students lecturers and all those seriously interested in the development of the film industry *Dance Me a Song* Beth Genné, 2018-05-30 Dancer choreographer directors Fred Astaire George Balanchine and Gene Kelly and their colleagues helped to develop a distinctively modern American film dance style and recurring dance genres for the songs and stories of the American musical Freely crossing stylistic and class boundaries their dances were rooted in the diverse dance and music cultures of European immigrants and African American migrants who mingled in jazz age America The new technology of sound cinema let them choreograph and fuse camera movement light and color with dance and music Preserved intact for the largest audiences in dance history their works continue to influence dance and film around the world This book centers them and their colleagues within the history of dance where their work has been marginalized as well as film tracing their development from Broadway to Hollywood 1924 58 and contextualizing them within the American history and culture of their era This modern style like the nation in which it developed was pluralist and populist It drew from aspects of the old world and new high and low theatrical and social dance forms creating new sites for dance from the living room to the street A definitive ingredient was the freer more informal movement and behavior of their jazz age generation which fit with song lyrics that poeticized slangy American English The Gershwins Rodgers and Hart and others wrote not only songs but extended dance driven scores tailored to their choreography giving a new prominence to the choreographer and dancer actor This book discuss how these choreographers collaborated with directors like Vincente Minnelli and Stanley Donen and cinematographers like Gregg Toland musicians dancers designers and technicians to synergize music and moving image in new ways Eventually concepts and visual musical devices derived from dance making would give entire films the rhythmic flow and feeling of dance Dancing Americans came to be seen around the world as archetypal embodiments of the free spirited optimism and energy of America itself Art Direction and Production Design Lucy Fischer, 2015-03-06 How is the look of a film achieved In Art Direction and Production Design six outstanding scholars survey the careers of notable art directors the influence of specific design styles the key roles played by particular studios and films in shaping the field the effect of technological changes on production design and the shifts in industrial modes of organization The craft s purpose is to produce an overall pictorial vision for films and in 1924 a group of designers formed the Cinemagundi Club their skills encompassed set design painting decoration construction and budgeting A few years later in recognition of their contributions to filmmaking the first Academy Awards for art direction were given a clear indication of just how essential the oversight of production design had become to the so called majors The original essays presented in Art Direction and Production Design trace the trajectory from Thomas Edison s primitive studio the Black Maria to the growth of the Hollywood studio system to the influence of sound to a discussion of the auteur theory

and to contemporary Hollywood in which computer generated imagery has become common By 2000 the Society of Motion Picture Art Directors became the Art Directors Guild emphasizing the significance of the contributions of art direction and production design to filmmaking Art Direction and Production Design is a volume in the Behind the Silver Screen series other titles in the series include Acting Animation Cinematography Directing Editing and Special Visual Effects Producers Screenwriting and Sound Hollywood's Artists Virginia Wright Wexman,2020-07-21 Today the director is considered the leading artistic force behind a film The production of a Hollywood movie requires the labor of many people from screenwriters and editors to cinematographers and boom operators but the director as author of the film overshadows them all How did this concept of the director become so deeply ingrained in our understanding of cinema In *Hollywood's Artists* Virginia Wright Wexman offers a groundbreaking history of how movie directors became cinematic auteurs that reveals and pinpoints the influence of the Directors Guild of America DGA Guided by Frank Capra's mantra one man one film the Guild has portrayed its director members as the creators responsible for turning Hollywood entertainment into cinematic art Wexman details how the DGA differentiated itself from other industry unions focusing on issues of status and creative control as opposed to bread and butter concerns like wages and working conditions She also traces the Guild's struggle for creative and legal power exploring subjects from the language of on screen credits to the House Un American Activities Committee's investigations of the movie industry Wexman emphasizes the gendered nature of images of the great director demonstrating how the DGA promoted the idea of the director as a masculine hero Drawing on a broad array of archival sources interviews and theoretical and sociological insight *Hollywood's Artists* sheds new light on the ways in which the Directors Guild of America has shaped the role and image of directors both within the Hollywood system and in the culture at large *The Hollywood Studio System* Douglas Gomery,2019-07-25 Despite being one of the biggest industries in the United States indeed the World the internal workings of the dream factory that is Hollywood is little understood outside the business *The Hollywood Studio System A History* is the first book to describe and analyse the complete development classic operation and reinvention of the global corporate entities which produce and distribute most of the films we watch Starting in 1920 Adolph Zukor Head of Paramount Pictures over the decade of the 1920s helped to fashion Hollywood into a vertically integrated system a set of economic innovations which was firmly in place by 1930 For the next three decades the movie industry in the United States and the rest of the world operated by according to these principles Cultural social and economic changes ensured the demise of this system after the Second World War A new way to run Hollywood was required Beginning in 1962 Lew Wasserman of Universal Studios emerged as the key innovator in creating a second studio system He realized that creating a global media conglomerate was more important than simply being vertically integrated Gomery's history tells the story of a tale of two systems using primary materials from a score of archives across the United States as well as a close reading of both the business and trade press of the time Together with a range of photographs never before published the
