

IN CONGRESS. JULY 4, 1776.

Unanimous Declaration of the thirteen united States of America

When in the course of human events it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the powers of the earth, the separate and equal station to which the laws of Nature and of Nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness. That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed, — That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such Principles and organizing its Powers in such form, as shall seem most likely to effect their Safety and Happiness. Prudence, in such a case, would dictate that Governments long established should not be changed for light and transient causes; and accordingly all experience hath shewn, that even the most arduous struggle for Liberty may be necessary to bring men to the full sense of their rights.

But when a long train of abuses and usurpations, pursuing invariably the same Object, evinces a design to reduce them to absolute Tyranny, it is their duty, to throw off such Government, and to provide new Guards for their future security. — Such has been the patient sufferance of these Colonies, and such is still the heartiness with which they unite to separate from Great Britain, that we deem it incumbent upon us to publish these causes, and to declare our independence.

In the name of the People of the United States, We the Representatives of the United States of America, in Congress assembled, do hereby declare, that the United States are, and of right ought to be, free and independent States; that they are absolved from all allegiance to the British Crown, and that all political connection between them and Great Britain is, and ought to be, totally dissolved; and that as the United States have declared their independence, and as they have taken up arms against Great Britain, they have, by the Declaration and the Arms, assumed the sole and exclusive right of regulating the internal and external Affairs of these Colonies, in their Congress, assembled.

In Testimony whereof, the Representatives of the United States of America, in Congress assembled, have hereunto set their hands and seals, the day and date above written.

Attest: My hand, this 4th day of July, 1776.

Wars of Law Tanisha M. Fazal, 2018-05-15 In Wars of Law Tanisha M Fazal assesses the unintended consequences of the proliferation of the laws of war for the commencement conduct and conclusion of wars over the course of the past one hundred fifty years Fazal outlines three main arguments early laws of war favored belligerents but more recent additions have constrained them this shift may be attributable to a growing divide between lawmakers and those who must comply with international humanitarian law and lawmakers have been consistently inattentive to how rebel groups might receive these laws By using the laws of war strategically Fazal suggests belligerents in both interstate and civil wars relate those laws to their big picture goals Why have states stopped issuing formal declarations of war Why have states stopped concluding formal peace treaties Why are civil wars especially likely to end in peace treaties today In addressing such questions Fazal provides a lively and intriguing account of the implications of the laws of war

Filled with students' voices and an enthusiasm for American history, *Take the Journey* offers the following: Practical and easy-to-implement lessons; Classroom-tested materials; Specific directions for employing place-based best practices in the classroom; Ways to meet state standards without sacrificing teacher creativity or hands-on learning; Lists of resources and primary source materials. Juvenescence Robert Pogue Harrison, 2014-11-21 How old are we those of us who belong to the postwar era? By many measures both evolutionary and cultural we are older than ever. But we are also getting startlingly younger—younger in looks, attire, behavior, mentality, desires. We belong, Robert Harrison says, to an age of juvenescence. Juvenescence is about the ways in which the spirits of youth and age have coexisted and shaped each other both in individuals and culture from the time of antiquity to the present. It is also a book that asks what it means for the future when youth gains the upper hand to the unprecedented degree it has today. Our way of aging, Harrison argues, resembles the scientific concept of neoteny—the retention of immature characteristics into adulthood. We mature but with a still tenacious youthfulness driving drives toward innovation rather than reflection; genius rather than wisdom. At its best, human maturity has its source in the youth it brings to fruition. And yet our protracted youth, Harrison suggests, is a luxury that can be supported only by our elders and the institutions they build. Although Harrison believes, echoing Stephen Jay Gould, that our genius as a species lies in our collective reluctance to grow up, he argues that we are today in a phase of radical juvenalization that allows no space for the kind of wisdom that builds upon the past. Sabine Lucas, 2005-04 Have we lived past lives? If so, can those lives reveal themselves in our dreams? *Bloodlines of the Soul* is a dazzling account of lifetimes recovered from the unconscious to instruct and inspire dreamers in search of self-knowledge. In this groundbreaking work, Sabine Lucas discloses the process of discovering her own many past lives as women and men from several historical ages and backgrounds. In a brilliant synthesis, she connects the crucial soul lessons learned from those lifetimes with important turning points in her present lifetime. The second half of the book is devoted to four remarkable case studies that range over many centuries and landscapes, including the life of a Native American in the Old West, a soldier in revolutionary Russia, a compassionate Nazi camp matron at Dachau, a hapless emperor of Mexico, a ruthless Viking King, Richard the Lion-Hearted, and dozens of other fascinating lives. Through these many colorful life stories, Dr. Lucas weaves her fundamental thesis: that we not only live many times over but we also carry karma earned or levied upon us from one lifetime to another. It

is a message that carries tremendous responsibility and opportunities for healing for the individual Professional therapists will find here a wealth of information on the healing process through dream work Lay readers will discover the thrill of uncovering the mysteries of the psyche Both emotionally engaging and intellectually satisfying this book is a major contribution to the literature of dreams and of inner exploration by a distinguished Jungian psychotherapist and masterful storyteller Joseph Dispenza is the author of *The Way of the Traveler Live Better Longer* and ten other books He is the co founder of LifePath Retreats in San Miguel de Allende Mexico
