Sex Matters Holly Lawford-Smith, 2023-06-22 Sex Matters addresses a cluster of related questions that arise from the conflict of interests between rights based on sex and rights based on gender identity Some of these questions are theoretical including who has

the more ambitious vision for women's liberation gender critical feminists or proponents of gender identity How does each understand what gender is What are the arguments for the refrain that trans women are women and do they succeed Other questions taken up in the book are more applied to specific issues in law and policy including should there be a right to exclude people who are biologically male from women only spaces How do the interests of all stakeholders to bathrooms in particular trade off when it comes to moving from sex to gender identity as the basis for self inclusion If we think about types of transition or gatekeeping requirements on transition as providing assurance to women who are asked to accept the opening up of women only spaces to transwomen are any such assurances sufficient Is TERF a slur as some radical and gender critical feminists have claimed And finally is gender critical speech hate speech as it has been classified by some social media platforms or at least harmful speech Holly Lawford Smith discusses these issues in a series of essays all but one of them previously unpublished She takes an analytic philosophical approach to these issues drawing on ideas from political philosophy philosophy of biology and philosophy of language as well as second wave feminist theory and empirical literature to defend a gender critical position in response to all of these questions *Official Gazette of the United States Patent Office*
