*Opposition in Eastern Europe* Rudolph L. Tokes, 2016-01-13      *East European Fault Lines* Janusz Bugajski, 2019-04-10  
This book provides a comparative analysis of oppositionist trends in the Soviet satellite states of contemporary Eastern Europe. It evaluates the extent and objectives of independent social activism in these countries and explores both the causes and effects of public dissent.

*Dissent and Opposition in Communist Eastern Europe* Detlef Pollack, Jan Wielgohs, 2004  
This volume provides new material on the different developments of opposition groups and dissidence in various Communist countries in Eastern and Central Europe. **Crisis and Reform in Eastern Europe** Ferenc Fehér, Andrew Arato, 2004  
Communism in Eastern Europe is in crisis. Its dimensions are social and economic; its manifestation is political. This volume, a collection of essays by leading authorities, describes the symptoms of the crisis, diagnoses the causes of the malady, and offers alternative scenarios for therapy. A unique dimension of this collection is its avoidance of one-dimensional explanations. The contributors approach the subject from very different angles and start from very distinct sociopolitical premises. The volume includes original accounts of unexplored aspects of East European communism as well as classic interpretations of the economic crisis and social stagnation that characterize the area. Contributions not only examine the sociopolitical behavior of the ruling apparatus but also analyze its strategies, political culture, and the opposition. Both the professional and the general reader seeking more information about Eastern Europe will find this volume an extensive in-depth portrait of the current situation in what many observers predict may develop into the major area of tension in post-World War II Europe.

Ferenc Fehér, a collaborator and friend of George Lukács, was a leading member of the Budapest School. Forced into exile in 1977, he was taught in Australia and is now in New York at the New School for Social Research. He has published widely in several languages on the philosophy of art, political theory, and history.

**Democracy and Civil Society in Eastern Europe** Paul G. Lewis, 2016-07-27  
The book presents an informed and wide-ranging examination of issues surrounding the development and future prospects of civil society in Eastern Europe. The contributions, mostly by leading East European scholars, relate the key concept of civil society to the processes that led to the collapse of communism and which bear on prospects for the establishment of a democratic order throughout the region. The development of the concept is related to questions like those surrounding economic policy and reform and the women's movement.
