A History from the Pre-colonial Period to 2008** Brian Raftopoulos, Alois Mlambo, 2009-09-15 Becoming Zimbabwe is the first comprehensive history of Zimbabwe spanning the years from 850 to 2008 In 1997 the then Secretary General of the Zimbabwe Congress of Trade Unions Morgan

Tsvangirai expressed the need for a more open and critical process of writing history in Zimbabwe. The history of a nation in the making should not be reduced to a selective heroic tradition but should be a tolerant and continuing process of questioning and re-examination. *Becoming Zimbabwe* tracks the idea of national belonging and citizenship and explores the nature of state rule, the changing contours of the political economy and the regional and international dimensions of the country's history. In their Introduction, Brian Raftopoulos and Alois Mlambo enlarge on these themes and Gerald Mazarire's opening chapter sets the pre-colonial background. Sabelo Ndlovu tracks the history up to WW1 and Alois Mlambo reviews developments in the settler economy and the emergence of nationalism leading to UDI in 1965. The politics and economics of the UDI period and the subsequent war of liberation are covered by Joseph Mtisi Munyaradzi Nyakudya and Teresa Barnes. After independence in 1980, Zimbabwe enjoyed a period of buoyancy and hope. James Muzondidya's chapter details the transition from buoyancy to crisis and Brian Raftopoulos concludes the book with an analysis of the decade-long crisis and the global political agreement which followed.

Garfield Todd: The End of the Liberal Dream in Rhodesia Susan Woodhouse, 2018-04-17. Against the backdrop of a politically approved view that Europeans did little to further the Zimbabwean nationalist freedom movements before Independence in 1980, this book will help to nail that misconception against a wall. The story of Garfield Todd and his various roles as Christian missionary, liberal prime minister of southern Rhodesia, high-profile opponent of UDI and its architect, Ian Smith from 1965 to 1980, will surely be an eye-opener for many young people in central and southern Africa who may never have heard of this great man who spent his life in education and public service. The role of Garfield Todd and some of the people who worked with him has been effectively airbrushed from the pages of the official Zimbabwean story. Why is the question Susan Woodhouse gives us the answer by telling the story of a small but influential group of men and women who dared swim against the racial current in Africa after the Second World War. It's a story told with warmth, personal insight and often great humour. This Edinburgh-based author, who Sir Garfield said knew the Todds better than anyone else, has introduced a small but dedicated group of long-forgotten activists to a new generation of readers.

A History of Zimbabwe Alois S. Mlambo, 2014-04-07. The first single-volume history of Zimbabwe.

with detailed coverage from pre colonial times to the present this book examines Zimbabwe s pre colonial colonial and postcolonial social economic and political history and relates historical factors and trends to recent developments in the country Zimbabwe is a country with a rich history dating from the early San hunter gatherer societies The arrival of British imperial rule in 1890 impacted the country tremendously as the European rulers exploited Zimbabwe s resources giving rise to a movement of African nationalism and demands for independence This culminated in the armed conflict of the 1960s and 1970s and independence in 1980 The 1990s were marked by economic decline and the rise of opposition politics In 1999 Mugabe embarked on a violent land reform program that plunged the nation s economy into a downward spiral with political violence and human rights violations making Zimbabwe an international pariah state This book will be useful to those studying Zimbabwean history and those unfamiliar with the country s past

The Politics of Race Ivor Crewe, 2015-10-16 This volume first published in 1975 is concerned with the politics of race relations it is divided into theoretical empirical and methodological studies together with an extensive bibliography A key theme in this volume is to show how the study of race relations can advance beyond traditional micro level analysis In the opening paper Axford and Brier concerned about the neglect of macro level analysis stress the need for conceptual frameworks which would help us to understand the place of racial conflict in the British political system They suggest that elite political groups otherwise in conflict have by tacit consensus eliminated race from the national political agenda

U.D.I Robert C. Good, 2015-03-08 Fearing that

their civilization would be overwhelmed a tiny enclave of whites in Central Africa rebelled against a power which a little more than twenty five years before had ruled the largest empire the world had ever known Robert C Good provides an immensely readable account of the international politics of the Rhodesian rebellion which as he demonstrates put great political and financial strains on Great Britain placed Zambia in mortal danger almost destroyed the multiracial Commonwealth and promoted an unprecedented involvement of the United Nations in programs of dubious effectiveness and doubtful wisdom The complex sequence of events which led to the unilateral declaration of independence of November 1965 and the settlement of November 1971 are probed and the policies of the British and Rhodesian governments analyzed particularly the actions and responses of Harold Wilson Above all the Rhodesian crisis is placed in its international setting to show that the failure to impose a transition towards majority rule in Rhodesia has meant that a significant chance to reverse present trends in Southern Africa towards the hardening of racial attitudes and erosion of African confidence in Western intentions has been lost Originally published in 1973 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Rethinking White Societies in Southern Africa Duncan Money, Danelle van Zyl-Hermann, 2020-02-12 This book showcases new research by emerging and established scholars on white workers and the white poor in Southern Africa *Rethinking White Societies in Southern Africa* challenges the geographical and chronological limitations of existing scholarship by presenting case studies from Angola Mozambique South Africa Zambia and Zimbabwe that track the fortunes of nonhegemonic whites during the era of white minority rule Arguing against prevalent understandings of white society as uniformly wealthy or culturally homogeneous during this period it demonstrates that social class remained a salient element throughout the twentieth century how Southern Africa's white societies were often divided and riven with tension and how the resulting social political and economic complexities animated white minority regimes in the region Addressing themes such as the class based disruption of racial norms and practices state surveillance and interventions and their failures towards nonhegemonic whites and the opportunities and limitations of physical and social mobility the book mounts a forceful argument for the regional consideration of white societies in this historical context Centrally it extends the path breaking insights emanating from scholarship on racialized class identities from North America to the African context to argue that race and class cannot be considered independently in Southern Africa This book will be of interest to scholars and students of southern African studies African history and the history of race

Zimbabwe's Exodus Jonathan Crush, Daniel S. Tevera, 2010 Zimbabwe's Exodus Crisis Migration Survival is written by leading migration scholars many from the Zimbabwean diaspora The book explores the relationship between Zimbabwe's

economic and political crisis and migration as a survival strategy **Press Silence in Postcolonial Zimbabwe** Zvenyika Eckson Mugari, 2020-03-24 This book focuses on news silence in Zimbabwe taking as a point of departure the infamous blank spaces whiteouts which newspapers published to protest official censorship policy imposed by the Rhodesian government from the mid 1960s to the end of that decade Based on archived news content the author investigates the causes of the disappearance of blank spaces in Zimbabwe's newspapers and establishes whether and how the blank spaces may have been continued by stealth and proposes a model of doing journalism where news is inclusive just and less productive of blank spaces The author explores the broader ramifications of news silences tacit or covert on society's sense of the world and their place in it It questions whether and how news media continued with the practice of epistemic deletions and continue to draw on the colonial archive for conceptual maps with which to define and interpret contemporary postcolonial realities and challenges in Zimbabwe This book will be of interest to scholars researchers and academics researching the press in contemporary Africa critical media analysis media and society studies and news as discourse [Encyclopedia of Africa](#) Anthony Appiah, Henry Louis Gates (Jr.), 2010 The Encyclopedia of Africa presents the most up to date and thorough reference on this region of ever growing importance in world history politics and culture Its core is comprised of the entries focusing on African history and culture from 2005's acclaimed five volume *Africana* nearly two thirds of these 1 300 entries have been updated revised and expanded to reflect the most recent scholarship Organized in an A Z format the articles cover prominent individuals events trends places political movements art forms business and trade religions ethnic groups organizations and countries throughout Africa There are articles on contemporary nations of sub Saharan Africa ethnic groups from various regions of Africa and European colonial powers Other examples include Congo River Ivory trade Mau Mau rebellion and Pastoralism The Encyclopedia of Africa is sure to become the essential resource in the field *An Introduction to the History of Central Africa* Alfred John Wills, 1985 Revised in light of the most recent research this new edition brings the story of the Central African region completely up to date Particular attention is given to the liberation struggle and the fortunes of the independent regime of Zimbabwe *So Far and No Further!* Jrt Wood, 2012-05 *So Far and No Further* Rhodesia's Bid for Independence during the Retreat from Empire 1959 1965 Ian Smith's unilateral declaration of independence for Rhodesia now Zimbabwe on 11 November 1965 was seen by many as the act of a rebellious white minority seeking to preserve their privileged position in defiance of Britain's determination to shed her Empire and introduce rule by the African majority as soon as possible However the drama of UDI has long overshadowed and oversimplified the complexities of the preceding years In this account of that time based on sole access to the hitherto closed papers of Ian Douglas Smith and Sir Roy Welensky as well as extensive research at London's Public Record Office and in government and private collections elsewhere Dr J R T Wood chronicles the collision course on which Britain and Rhodesia were set after 1959 complementing his study of the fate of the Federation of Rhodesia and Nyasaland in his definitive *The Welensky Papers*

A History of the Federation of Rhodesia and Nyasaland 1953 1963 Britain Wood shows was intent on shedding her Empire as quickly as possible against a backdrop of the Cold War and the rise of Chinese and Soviet sponsored African nationalism She delivered some 600 one man one vote constitutions to her fledgling nations and had no intention of granting Rhodesia independence on different terms Unlike Britain's other African possessions however Rhodesia had enjoyed self governance since 1923 The largely white Rhodesian electorate wary of the consequences of premature and ill prepared majority rule sought instead dominion status akin to that of Canada Australia and New Zealand Their intention was gradually to pave the way for majority rule since 1923 Rhodesia's electoral qualifications had excluded race It was always understood that the African majority would acquire power the concern was the speed and smoothness of that acquisition Culminating in those dramatic days of November 1965 when Ian Smith concluded in the face of resolute British stonewalling that he had no alternative but UDI this unique account is the first in a series which chronicles the course of events that ultimately led to Robert Mugabe's accession to power in 1980 and all that entailed
